WELCOME

Welcome to the Momentum Telecom family. We are thrilled to be working with you!

We also want to welcome you to the My Cloud Services Portal. The Momentum Team is constantly developing ways to improve your experience and offer new communications management tools that increase your productivity and make it easy to do what you do.

At Momentum, we understand the critical nature of communications services to businesses and to people, and we take our responsibility seriously. It is our mission to make certain that you have the ultimate in state-of-the-art communications, unparalleled network reliability, and a consistently superior customer experience to ensure that you and your company are able to *thrive*.

Thank you for letting us help you communicate!

Sincerely,

The Entire Momentum Telecom Team

INTRODUCTION

This guide is a convenient, go-to resource for Voice Administrators getting started with the My Cloud Services Portal to manage communications accounts and services online. It provides an overview of the application website sections that may be available when a user with Administration level access logs into the Portal, and it offers instructions and tips for working with the tools in the portal for administration of communication features and services provided by Momentum Telecom.

We encourage you to take some time to review this document and keep it handy for future reference. Should you need further assistance, please reach out to us. We are always here to help you with fast, courteous, and professional support. The entire Momentum Team is committed to doing everything possible to deliver an exceptional experience, and we strive to improve every day.

Please note that this document describes all features and some of the features described here may not be included in your subscription, necessary for your system, or offered to all users by your organization.

Contact your Supervisor or your organization's IT group to determine the features and services your organization has decided you will manage.

ACCESS THE PORTAL

Momentum Telecom offers an intuitive web Portal that makes it easy for Admins to customize and manage enterprise and subscriber account features and settings online. It is currently optimized for desktop usage, however the portal is accessible from any Internet-enabled device – desktop, laptop, tablet, or smartphone – so you can manage your services, whether you are in the office, at home, or on the go.

Sign In

To Access the My Cloud Services Portal:

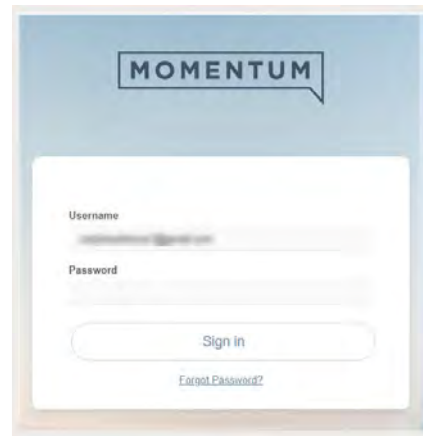

1. Open a web browser and enter the URL (web address) provided for online account management.
Example: portal.momentumtelecom.com.

In most cases your initial Admin sign in credentials come from the Service Provider. If you need assistance for initial sign in (first time login), please contact your System Administrator or the Service Provider primary contact (Support, AM, or PM).

2. Enter the Admin Account Username (xxxxxx@email.com format) and correctly formatted Password credentials in the fields when they are provided/displayed.
3. Follow any Multi-Factor Authentication requirements, if prompted.
 - ❖ Use the [Forgot Password?](#) link to securely update your password credential. Account holders with a defined email address on file can use this tool and will receive an email with a secure link to change the password. Contact your System Admin for assistance if notified that the process cannot complete or if the system identifies that your account does not yet have a notification email address on file.

Note: For your security, the link provided in the *[Forgot Password](#)* email is only active for 60 minutes -once that time limit expires, you must use the 'Forgot Password?' feature again to generate a new email with an active link to proceed, or contact your organization's Subscriber Portal Super Admin for assistance.

4. Click the [Sign In](#) button and the My Cloud Services Portal opens.

Terms and Conditions

The first time an Admin accesses the portal, an **E911 Dialing Terms and Conditions** acknowledgment dialog displays that must be completed to proceed.

1. Use the tools to review or save the document, as desired.
2. Click to place a check in the acknowledgment check box.
3. Click the [Save](#) button to submit and close the dialog.

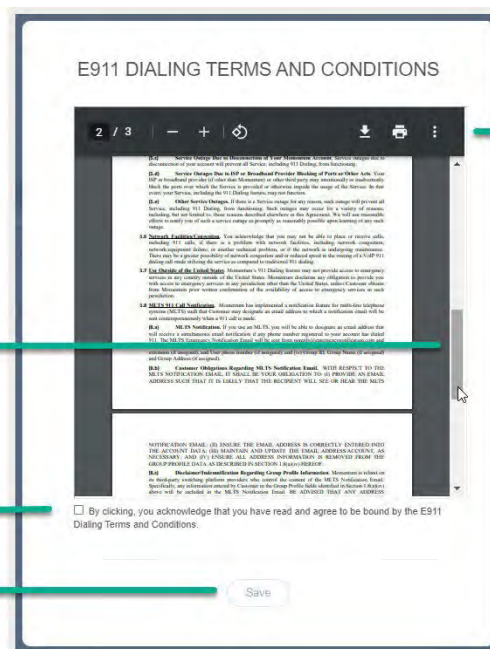

Note: Once submitted, this dialog will not be presented at login again unless these Terms and Conditions are updated.

Once you sign into the **My Cloud Services Portal** the first time and acknowledge the terms and conditions, you will have access to the tools and features you need to easily manage your communications features - right at your fingertips.

ADMIN TOOLS

The **My Cloud Services Portal** provides useful resources to help with all Administrator-level tasks. Administrators can sign in and instantly locate account information, setup and manage individual user accounts, define universal settings for Groups or Locations, create and update Auto-Attendants, Hunt Groups, Enterprise Time Schedules, and much more – quickly and easily online.

When Administrators log into the portal, they see the **Admin Tools** section of the Menu Navigation Panel which provides authorized users with access to manage the related settings and services, as well as locate and manage individual accounts within the organization. This menu displays only those areas the Admin is permitted to view and access to work with features and tools in these sections may require additional permissions. The **Admin Tools** are user specific. The Navigation Menu Panel on the left can include the following optional sections:

NOTE: *Most areas are optional and some areas are restricted access. Your organization's system, purchased products, role, and/or authorization level determine the sections and features you may be allowed to access, review, and manage.*

- ❖ **Dashboard** - The home page for Administrators offers useful information and filtered access to useful sections of the Cloud Services Portal
- ❖ **Locations & Groups** - Location and Group level feature management
- ❖ **Services & Users** - User Account list and access to individual user settings
- ❖ **Trunking | *IP Trunking | *Enterprise Trunking** - Review and manage basic or specialized trunking settings based on the organization's setup.
- ❖ **Enterprise Settings** - Manage enterprise-level services and features
- ❖ ***Contact Center** - Contact Center customers. Administer Contact Center setup
- ❖ ***Microsoft Teams** - Limit Access to Teams Admins. Advanced Teams initial deployment and User TN / Routing assignment management tools
- ❖ ***Call Recording** - Call Recording customers only. Access permissions required. Manage basic voice settings for Call Recording licenses and define access to the Call Recording portal
- ❖ ***Webex** - Webex customers only. Search for and review the self-activation process status for users who are assigned Webex licenses
- ❖ ***Billing** - Restricted Access. Advanced Billing information review and payment management tools
- ❖ ***Devices** - Provider-Level Access. Advanced access to manage device inventory on the account. Requires additional training prior to access
- ❖ ***Service Changes** - Provider-Level Access. Advanced billing-impacting service change order management tools. Requires additional training prior to access
- ❖ ***Support Tickets** - Restricted Access. Permissions required to view or use these tools
- ❖ ***Circuits | Service Locations** - For data customers. Review basic circuit or networking performance information

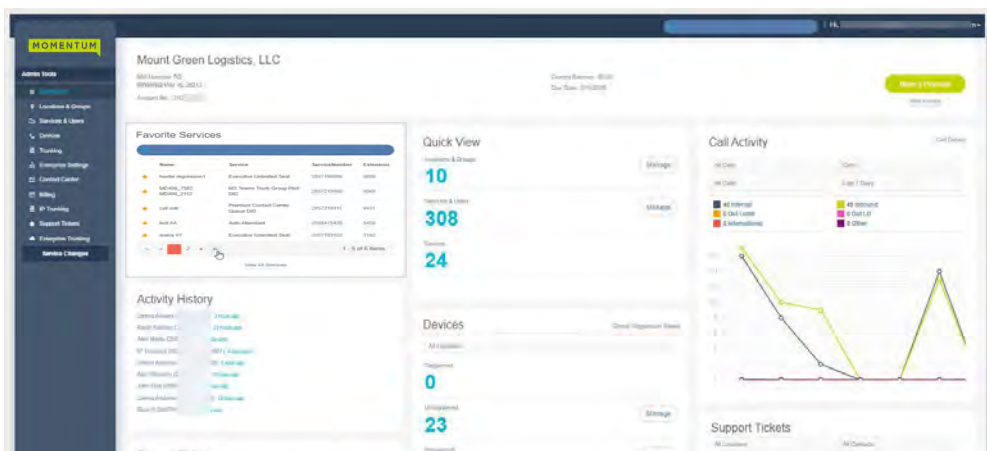

Restricted or advanced Permission sections and their tools should only be used by specially trained and authorized Administrators with sufficient access permissions.

Each menu option opens the main page to begin working with the related settings or services where included on the account. Only the features and services the organization or service provider authorizes the Admin to view will be available for review within the portal. Advanced features should not be authorized for Admin use until well after the system is fully implemented and the Admin is well versed in the use of all basic tools. Additional training may be recommended for access to provider-level tools.

For your security, the system's connection to the portal will begin a countdown to automatically close and return to the Sign In page if it is idle for more than 10 minutes, and will also require the admin to confirm they are still actively working at 60 minutes.

DASHBOARD

This page is the Home page for Admins. The **Dashboard** provides at-a-glance information about the activity of the accounts and services the Admin may view, site-wide search functionality, and access to all work areas the Admin needs within the portal. *Note: The tools and sections you see may differ from this example.*

Important Note:

By default, only the organization's SuperAdmin sees all available Admin Dashboard sections and tools.

The Dashboard sections display to all others based on purchased services or products and the individual Admin's authorization level as assigned by the organization's SuperAdmin. Some Admin Dashboard sections discussed in this document may not need to be displayed in your system OR there may be additional dashboard sections that display voice tools where those features/services are also in use on the account. Only Full Access permissions to advanced tools will allow a related section to display in the Admin Dashboard.

Site Search

The Search field at the top of the application offers site-wide search functionality within the areas the Admin may access.

Admin Information

The **Hi, <User Name>** area at the top of the application opens a drop-down list of quick access links to view your current user profile settings, open the Momentum [Support](#) or [Training](#) (Momentum University) web pages, and Log Out.

Voice Admin Dashboard Sections

Each section and widget (card) featured within the Admin Dashboard provides useful information, tools, and filtered access links to the relevant work areas. Unfiltered access to those areas is offered in the Admin Tools Navigation Menu Panel.

Billing Profile

This card at the top of the Dashboard offers account information, and for authorized Billing Admins - the current balance, the latest invoice information, and a direct access link to the [Billing](#) page to make payment.

Favorite Services

This card allows the Admin to create a list of favorite ★ accounts or services to keep on the dashboard for quick access, a search tool, pagination tools, and a link to the [Services & Users](#) page to review the entire list of individual user / service accounts.

Name	Service	Service/Member	Extension

Quick View

Up-to-date information about the account, including the number of [Locations & Groups](#), [Services & Users](#), and NEPS registered Devices in inventory, with filtered links to the pages where those items can be managed.

Call Activity

This section provides a quick graphical view of call data, with filtering tools to select specific call data for review by location, call type, date range, etc. This dashboard section offers useful 'mouse-over' details of the statistics within the dashboard and a [Call Details](#) link to review filterable call log data, plus the ability to [Export Call Logs](#) to a .csv spreadsheet format for reporting.

Note: To reduce the number of very large database searches that would slow response times in the portal when viewing Call Details logs, if the call log list grows to over 10,000 records returned, the system will display a message that the Export Call Logs tool should be used to allow for off line review of such a large request for data.

Devices

The Devices card displays the current counts for the NEPS and BroadSoft registered and/or provisioned devices that are in the account's inventory within the portal. Access is provided to filter the information per Location, check registration status information, and review the *Registered*, *Unregistered*, or *Provisioned* devices assigned to the selected Locations & Groups.

Activity History

This section shows the most recent Administrator-level activity on the system for user or service accounts (that the admin may access) and, when an account displayed in the list is clicked, provides direct access links to open and review the selected [User Dashboard](#).

Activity	Time
Exec DID (4708321468)	2 minutes ago

See also: [My Cloud Services Portal Data Admin Guide](#)

LOCATIONS & GROUPS

The **Locations & Groups** page provides a searchable list of the Locations or Groups currently configured on the account to which the Admin has access. Authorized Admins may search for terms within the list using the **Section Search** tool above the list, use the column headers to sort the data alphabetically, manage e911 Address and Notification data, and **Edit** features used by each location or group.

Section Search

Enter terms to locate data specific to the **Locations & Groups** section.

Column Links

The link under **Name** opens the Group Settings view. The links in the **Location ID**, **Services**, and **Users** columns open new filtered views within the **Services & Users** page. The **Emergency Call Notification Email** and **See 911 Address List** links open views for management of the e911 call notification email or registered address changes for the relevant Location or Group.

Edit

The **Edit** icon for each Location opens the **Group Settings** page for **Feature** maintenance and administration tasks. The link under the **Name** column *also* opens the **Settings** dialog for group level feature management of a selected Location or Group.

Emergency Call Notification Email

The **Emergency Call Notification Email** sends an email to the address on file when 911 is dialed from a phone within the system. The Locations & Groups page provides access for Admins to view the current notification email address on file for the Enterprise or a Location. Where authorized, Admins may also change the *Emergency Call Notification Email* address to be used by one or more Locations. This feature is a requirement of the FCC. See: [FCC.gov - Kari's Law/Ray Baum's Act](#)

Note: Permission to edit this information at the location/group level is managed at the *Enterprise* level. See also: [Enterprise Settings - Emergency Call Notification Email](#).

While viewing the *Locations & Groups* page:

1. Click on the link under the **Emergency Call Notification Email** column next to a Location within the list to open the *Edit Emergency Call Notification Email* dialog and view the current information. *This is a read-only view if the Enterprise level email is in use for all locations and editing at the Location/Group level has been disabled.*

If authorized to make any changes to the email that is on file at the Location/Group level:

2. **Emergency Notification Email Address:**
Enter **one (1)** complete email address to which notifications will be sent when 911 calls are made from system phones assigned to this location. A distribution email address may be used.
3. **Optional: Apply Setting to Other Locations:**
In this section, *authorized* Admins may elect to use the notification email address entered in this dialog for multiple locations.
4. Click to place a check in the box ☒ next to the Locations that will also use this email address to receive email notifications when 911 calls are made from assigned system phones.
5. Click **Save** when finished to update the system with the new information and return focus to the Locations page view.

Edit Emergency Call Notification Email

3100001951-01 - Hosted IP PBX

Emergency Notification Email Address:

Apply Setting to Other Locations:

<input type="checkbox"/>	Location
<input checked="" type="checkbox"/>	3100001951-02 SIP Trunking
<input checked="" type="checkbox"/>	3100001951-03 Hosted IP PBX 2
<input type="checkbox"/>	3100001951-04 Service Office
<input type="checkbox"/>	3100001951-05 Brandon Ent SIP Trunk Test
<input type="checkbox"/>	3100001951-06 IPTrunking test location
<input type="checkbox"/>	3100001951-07 IP Trunking Test2
<input type="checkbox"/>	3100001951-08 location gama

Note: Synchronization is usually quick, but it can take up to 15 minutes to fully update all necessary areas within the service provider system with the new email address information defined here when it is saved.

Optional: Test Email: Click on the *Emergency Call Notification Email* link within the Locations list again and click on the **Test Email** button to send a validation email to the address to confirm that an email will be received at the address entered. No further action is needed or required when the email is received. **Note:** *The Test Email button may not provide a useful confirmation until after the Email address has been saved and propagated throughout the provider system.*

Optional: Repeat the single email steps (1, 2 and 4 above) as needed for the Locations/Groups that should have an alternate Emergency Call Notification Email address defined.

See 911 Address List

The e911 column offers access to review the current e911 address information for numbers assigned to a Location or Group via the [See 911 address List](#) link. Each number listed displays either **Active** and the current address information on file for review or **Not Active** with the address fields awaiting correct information to be entered. It is important to ensure that each line has an address entered. The e911 address information entered/displayed here is used by emergency services to locate the origination of a call to the Public Safety Answering Point (PSAP) system. Every organization should ensure that a detailed and complete description of the location (full street address along with building, floor, etc.) is provided for each device / telephone number in use in their system at all locations.

Note: Any e911 address entered/modified by an Admin or User from this portal and successfully updated in the Public Safety Answering Point (PSAP) system is used by Emergency Services and should include details that will help first responders to quickly find the location of the person who placed a 911 call from a system device that is registered to your organization and the Service Provider. This e911 address information may be edited/managed at the Location level or User level.

Ref: [FCC.gov - Kari's Law/Ray Baum's Act](https://www.fcc.gov/kari-law-ray-baum-act)

While viewing the Locations & Groups Page:

- Click on the [See 911 Address List](#) link adjacent to a Location listing.
- Click on the Edit  icon adjacent to a desired listing to make changes.
- Perform one or more of the following actions:
 - ❖ **Reset:** Click this link to clear the fields and enter correct information below.
 - ❖ **Reset to Primary Address:** Click this link to apply the Location's Primary Address information as this user's e911 address.
 - ❖ Enter the correct information in each field (as needed) to update or add new e911 address information for the user assigned to the TN. **Note:** Complete the specialty fields for unit type, floor, building, etc. to enhance the details of the e911 address on file and ensure that there is a **Dispatchable Location** delivered to the PSAP with a 911 call from that line that consists of the validated street address of the calling party, plus additional information such as suite, apartment, building, floor, 3rd office on the right, or similar information necessary to adequately identify the location of the calling party for first responders and speed up response time during emergencies.
- Click **Save** to update the system with the new information or click **Close** to collapse the view without making changes. *Once saved, the PSAP system will validate the new address information and update. This validation process takes approximately 10 minutes to complete for an address. A **success** message displays when that process completes, and the address is registered to the phone number. **Note:** An email will also be sent to the email address on file for CPNI change notifications (generally the account's Super Admin) at this time.*
- Click **Close** when finished or click outside the dialog to exit the e911 List and return focus to the Locations & Groups list.

Some e911 address management tasks require intervention by the Service Provider to complete. An Authorized Contact for your organization should communicate with their assigned Service Provider contact (AM/PM or the Customer Support team) to request assistance with those changes that are not self-managed and, where applicable, to discuss any potential additional PSAP registration costs per Location that may be incurred by such changes. The Service Provider is standing by to assist.

Access Group Settings by Location

The **Locations & Groups** page provides easy access to manage the group or location's feature settings.

1. Click on the **Edit** icon  adjacent to a Location (far right column) to open the Location's Group Settings dialog. Any features or services the Group uses are displayed for management in this page.
2. Once in the **Group Settings** page, click on the **▶** arrow under the View/Edit column adjacent to a setting in the list to open its **Edit** view.

Admins may be granted access to work with multiple feature settings in Locations & Groups.

At least some of the following features may be available for management:

Account / Authorization Codes

Manage setup and usage of Account and Authorization Codes. *Only one type of code may be used at a time per Location.*

- ❖ Account Codes organize calls for expense tracking and accounting purposes.
- ❖ Authorization Codes control long distance access and secure your phone lines.

Add an Account or Authorization Code

1. Click the **Add Code** button.
2. Enter a **Code** and a **Description** (name).
3. Click the **Save** button to submit the new code and return the focus to the Account/Authorization Codes **Edit** view.
4. Click to place a check in the box ☒ next to the code to enable usage.
5. Click the **Save** button to update the system and close the **Edit** view.

Account / Authorization Code Administration

In the Administration section of the Account/Authorization Codes [Edit](#) view:

1. Type: Click within the radial button to turn ON ☒ Account or ☐ Authorization Codes.
2. Number of Digits: Define the required code length using the drop-down menu.
3. Allow Local and Toll-Free Calls without Account/Authorization Code: Optional -Place a check in the box ☒ to enable this functionality.
4. Set Restricted User Types: Click to select desired SIP Trunk Users within the Non-Restricted list and use the arrows ▶ ◀ to move them to (or from) the Mandatory or Optional fields.
5. Click the [Save](#) button below when finished to update the system and return to Group Settings.

Edit an Account / Authorization Code

- A. Enable/Disable: Click within the check box ☒ next to a code to enable or disable the code and click [Save](#) within the Code list section to update the system.
- B. Modify: Click on the [Edit](#) link next to a Code in the list to change the name or code numbers and click the [Save](#) buttons in each area to submit the changes and update the system.

View Account / Authorization Code Reports

1. Click on the [Click here to view Acc/Auth Code Reports](#) link.
2. Select the Bill Date.
3. Select the Report Type.
4. Click the [Run](#) button to create and review the selected report.

Announcement Repository

Manage the announcements and greetings that are available for selection by the group. This feature offers the ability to upload and store announcements and messages. Files uploaded and stored in the group Announcement Repository are available within selection lists when setting up Voicemail greetings and announcement messages.

While in the Settings page, click on the adjacent ► arrow under View/Edit to open the Edit view.

The repository offers up to 1 GB of storage space. The total amount of storage that has been used displays for review.

Maximum file size for audio announcements is 5 MB in CCIT u-Law 8kHz, 8-bit Mono format.

Basic Instructions and file size requirements are provided via the [See instructions](#) link in the Edit view.

Add an Announcement File

1. Click on the [Add](#) button to begin.
2. Type the Name to be displayed in file selection lists.
3. Click on the [Choose File](#) button to select a local audio file to upload into the repository.
4. Click the [Save](#) button.

Download an Announcement File

1. Click on the [Download](#) link.
2. Select the local folder you wish to use to store a copy of the file.

Edit an Announcement File

1. Click on the [Edit](#) link next to an Announcement to view its Settings.
2. Change the Name or,
3. Click the [Choose File](#) button to navigate to and select a new file to upload/replace the announcement.
4. Click on the [Save](#) button to submit changes and exit.

Delete an Announcement File

Caution: This action is immediate and cannot be undone.

1. Click to place a check ☒ in the box next to an Announcement.
2. Click on the [Delete](#) button. The removal action is immediate and cannot be undone.

Auto Attendant

Manage the basic settings for the automated receptionist line(s) that answer the phone with a personalized message. Each Auto Attendant offers up to twelve (12) options for connecting to various people, departments, etc., and will be assigned its own extension or directory number.

While in the Settings page, click the adjacent ► arrow under View/Edit to open the Edit view.

Edit Auto Attendant Basic Settings

1. Click on the [Edit](#) link next to the Auto Attendant listing to review the current settings.

2. Make the following changes, *as needed*:

- ❖ **Active:** Click within the check box to set to ☒ Active or to ☐ disable the Auto Attendant.
- ❖ **Name:** Type a name that displays in lists for selection.
- ❖ **Calling Line ID First Name / Last Name:** Type the name that will show on Caller ID for this Auto Attendant
- ❖ **Time Zone:** Select the appropriate time zone where the Auto Attendant (or Location/Group) resides.
- ❖ **Business Hours:** Select the appropriate option from the drop-down menu.
- ❖ **Holiday Schedule:** Select the appropriate option from the drop-down menu.
- ❖ **Scope of extension dialing:** Select ☒ Enterprise or ☐ Group.
- ❖ **Scope of name dialing:** Select ☒ Enterprise or ☐ Group

3. Click [Save](#) to submit the changes and return the Auto Attendant list.

The screenshot shows a table titled 'Auto Attendant'. It contains one row with the following data: Phone Number: 4703770098, Extension: 0098, and an Edit link. Below the table, it says 'Page 1 of 1' and 'See instructions'.

Phone Number	Extension	Edit
4703770098	0098	Edit

The screenshot shows the 'Edit Auto Attendant' form. It includes the following fields and options:

- Auto Attendant 1369371 Number: 4703770098
- ☒ Active
- Name: Auto Attendant 1369371
- Calling Line ID First Name: Production1, Calling Line ID Last Name: Test1
- Time Zone: (GMT-05:00) (US) Central Time
- Business Hours: Enterprise Business (Enterprise)
- Holiday Schedule: None
- Scope of extension dialing: ☒ Enterprise ☐ Group
- Scope of name dialing: ☒ Enterprise ☐ Group
- Buttons: [Set Business Hours Prompts](#), [Set After Hours Prompts](#), [Save](#), [Cancel](#)

Edit Auto Attendant Business Hours Prompts

1. Click on the [Edit](#) link next to the desired Auto Attendant listing to review the current settings.
2. Click on the [Set Business Hours Prompts](#) button.
3. Select ☐ Standard Greeting or ☐ Custom Greeting, upload and choose a greeting from the drop-down menu.
4. Enable first-level extension dialing: Click within the checkbox to ☒ enable.
5. Add Auto Attendant Prompt Descriptions and Actions for each line (up to 12), as needed.
6. Click the [Save](#) button to submit the changes and return to the *Edit Auto Attendant* dialog.
7. Click the [Save](#) button to update the system with the new Auto Attendant settings and return to the *Auto Attendant* list.

Edit Auto Attendant After Hours Prompts

1. Click on the [Edit](#) link next to the desired Auto Attendant listing to review the current settings.
2. Click on the [Set After Hours Prompts](#) button.
3. Select ☐ Standard Greeting or ☐ Custom Greeting upload and choose a greeting from the drop-down menu.
4. Enable first-level extension dialing: Click within the check box to ☒ enable.
5. Add Auto Attendant Prompt Descriptions and Actions for each defined line (up to 12), as needed.
6. Click the [Save](#) button to submit the changes and close the pop-up dialog.
7. Click the next [Save](#) button presented to update the system with the new Auto Attendant settings and return to the *Auto Attendant* list.

Auto Attendant – Tree

Manage the advanced settings for Auto Attendant lines and create one or more sub menus to handle additional lines, multiple calling schedules, individual departments, etc.

While in the Settings page, click the adjacent ► arrow under View/Edit to open the *Edit* view.

Edit Auto Attendant Tree Advanced Settings

- Click on the [Edit](#) link next to the Auto Attendant listing to review the current settings.
- Make the following changes, as needed:
 - ❖ **Active:** Click within the check box to set to Active or to disable the Auto Attendant.
 - ❖ **Name:** Type a name that displays in lists.
 - ❖ **Calling Line ID First Name / Last Name:** Type the name that will show on Caller ID for this Auto Attendant
 - ❖ **Department:** Choose an option from the drop-down menu.
 - ❖ **Language:** English is the default in the menu.
 - ❖ **Time Zone:** Select the appropriate time zone where the Auto Attendant (or Location/Group) resides.
 - ❖ **Network Class of Service:** Choose an option using the drop-down menu.
 - ❖ **Enable video support:** Click within the check box to enable ☒ or disable ☐.
 - ❖ **Scope of extension dialing:** Select ☒ Enterprise or ☐ Group.
 - ❖ **Scope of name dialing:** Select ☒ Enterprise or ☐ Group.
 - ❖ **Name Dialing Entries:** Select the display type option for names.
 - ❖ **Transfer to the operator after seconds of inactivity:** Enter an amount of time (in seconds).
- Click [Save](#) to submit the changes and return the Auto Attendant list.

Set Auto Attendant Tree Business Hours Prompts

- Click on the [Edit](#) link next to the Auto Attendant - Tree listing to review the current settings.
- Click on the [Set Business Hours Prompts](#) button.
- Select ☐ Default Greeting or ☐ Personal Greeting upload and choose a greeting from the drop-down menu.
- Click within the check box to ☒ Enable first-level extension dialing.
- Add Auto Attendant Prompt Descriptions and Actions for each line (up to 12), as needed.
- Click the [Save](#) button to submit the changes and return to the Edit Auto Attendant dialog.
- Click the [Save](#) button to update the system with the new Auto Attendant settings and return to the Auto Attendant list.

Set Auto Attendant Tree After Hours Prompts

1. Click on the [Edit](#) link next to the Auto Attendant - Tree listing to review the current settings.
2. Click on the Set After Hours Prompts button.
3. Select ☐ Default Greeting or ☐ Personal Greeting upload and choose a greeting from the drop-down menu.
4. Click within the check box to ☒ Enable first-level extension dialing.
5. Business hours: Choose an option from the drop-down menu.
6. Add Auto Attendant Prompt Descriptions and Actions for each line (up to 12), as needed.
7. Click the [Save](#) button to submit the changes and return to the Edit Auto Attendant dialog.
8. Click the [Save](#) button to update the system with the new Auto Attendant settings and return to the Auto Attendant list.

Set Auto Attendant Tree Holiday Prompts

1. Click on the [Edit](#) link next to the Auto Attendant – Tree listing to review the current settings.
2. Click on the Set Holiday Prompts button.
3. Select ☐ Default Greeting or ☐ Personal Greeting upload and choose a greeting from the pre-defined list in the drop-down menu. (These greetings were uploaded previously into the [Announcement Repository](#)).
4. Click to place a check next to ☒ Enable first-level extension dialing, to allow callers to dial an extension or a phone number.
5. Holiday Schedule: Optional. A Personal Greeting upload required. Choose the schedule from the drop-down options.
Note: *The Personal Greeting upload will be overridden by the Start Announcements defined in each holiday schedule event as they trigger.*
6. Enter up to 12 Auto Attendant Prompt Descriptions, Actions, and where *PlayAnnouncement* is the selected Action, choose an announcement, as needed.
7. Click the [Save](#) button to submit the changes and return to the Auto Attendant [Edit](#) view.
8. Click the [Save](#) button to update the system with the new Auto Attendant settings and return to the Auto Attendant list.

Add Auto Attendant Tree Submenus

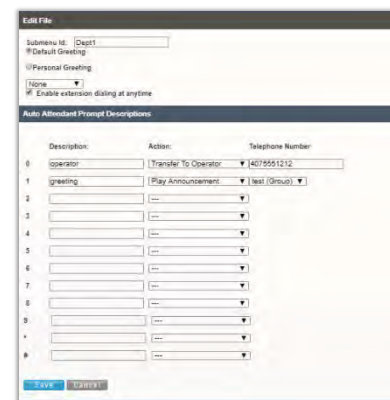

The advanced settings in **Auto Attendant – Tree** offer the ability to create one (1) overall Auto Attendant PLUS multiple Auto Attendants under it that can be set up to handle calls or specific work for locations, groups, or departments, and more.

1. Click on the **Edit** link next to the Auto Attendant - Tree listing to review the current settings.
2. Click on the **Submenus** button to open the *Set Submenus for...* dialog.
3. Click on the **Add** button to begin creating a new Auto Attendant *Submenu*.
4. Define the following, as needed:
 - ❖ Submenu ID: Type a name that displays in lists.
 - ❖ Select ☐ Default Greeting or ☐ Personal Greeting upload and choose a greeting from the drop-down menu.
 - ❖ Click within the check box to ☒ Enable extension dialing at any time.
 - ❖ Add Auto Attendant Prompt Descriptions and Actions for each line (up to 12), as needed.
5. Click **Save** to submit the changes and return the Auto Attendant list. Repeat to add more Auto Attendant - Tree Submenus.

Edit Auto Attendant Tree Submenus

1. Click on the **Edit** link next to the Auto Attendant - Tree listing to review the current settings.
2. Click on the **Submenus** button to open the *Set Submenus for...* dialog. Click on the **Edit** link next to the Submenu.
3. Modify the settings or prompts, as needed.
4. Click the **Save** button to submit the Submenu changes and return to the Auto Attendant Tree setting view.
5. Click the **Save** button in the Settings view to update the system with the new setup and close the dialog.

Delete Auto Attendant Tree Submenus

Caution: This action is immediate and cannot be undone.

1. Click on the **Edit** link next to the Auto Attendant - Tree listing to review the current settings.
2. Click on the **Submenus** button to open the *Set Submenus for...* dialog.
3. Click within the check box ☒ next to the Submenu you wish to delete from the list.
4. Click on the **Delete** button to remove the selection and close the *Set Submenu for...* dialog.

Outbound Caller ID

Manage the Caller ID that is shown for outbound calls from users/devices assigned to the Trunk Group. While in the Settings page, click the adjacent ► arrow under View/Edit to open the *Edit* view.

Manage Outbound Caller ID

1. Click to select ☐ E911, ☐ DID, or ☐ Custom.
2. Click the **Save** button to submit the information and close the dialog.
If e911 is selected, the primary billing number on the account is displayed.

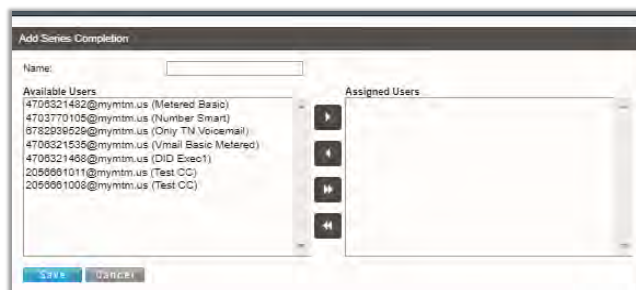

Series Completion

This service provides key Hunt Group functionality by allowing the Admin to assign users' lines. The system will hunt through this set of lines according to the pre-defined order and availability. While in the Settings page, click the adjacent ► arrow under View/Edit to open the *Edit* view.

Add Series Completion

1. Click on the **Add** button to open the setup dialog.
2. Enter a Name to display in lists.
3. Highlight Available Users and use the arrows to move them to the Assigned Users section.
4. Click the **Save** button when finished to submit the data and close the dialog.

Edit Series Completion

1. Click on the **Edit** link adjacent to the Series you wish to modify.
2. Make changes to the Name or Assigned Users.
3. Click the **Save** button to submit the changes and close the dialog.

Delete Series Completion

Caution: This action cannot be undone.

1. Click on the **Delete** option adjacent to the item you wish to remove from the system.

The selected item is immediately removed.

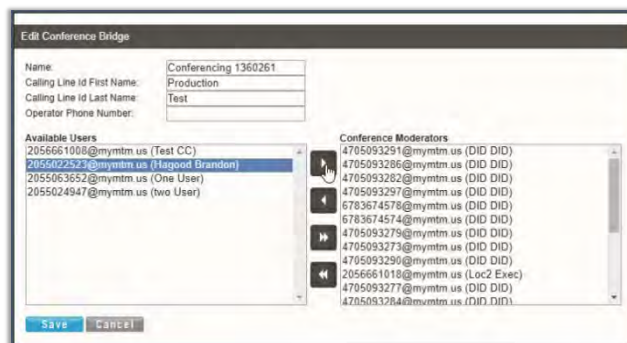

Conference Bridge List

Assign Conference Hosts and Moderators for your Conference Bridge(s).

While in the Settings page, click the adjacent ► arrow under View/Edit to open the [Edit](#) view.

Manage Conference Bridge List

1. Click on the [Edit](#) option adjacent to the Conference Bridge you wish to modify.
2. Make changes to the Name, Calling Line names, Operator Phone Number or Conference Moderators.
3. Click the [Save](#) button to submit the changes and close the dialog.

Instant Conference

Manage this feature for use with the Push To Talk service to create hands-free intercom conferencing for Groups. Once defined, users may dial the [Instant Conference to Call Group](#) number or use the intercom by dialing ***50** followed by the instant conference extension.

While in the Settings page, click the adjacent ► arrow under View/Edit to open the [Edit](#) view.

Manage Instant Conference

1. Click [Add](#) or [Edit](#) Instant Conference to manage the Instant Conference group.
2. Enter or modify the Name for the Instant Conference.
3. Maximum Time for Unanswered Calls: Click within the check box to ☒ Enable / ☐ Disable and specify a time in Minutes.
4. Enter the appropriate 10-digit phone number(s) to be added to Instant Conference (define the group).
5. Click the [Save](#) button to submit the data and close the dialog.

Call Park (Groups)

Manage the settings for Call Park Groups and enable people within your organization to park and retrieve 1 call at a time. While in the Settings page, click the adjacent ► arrow under View/Edit to open the *Edit* view.

Manage Call Park Group Default Settings

1. Select or Enter the following:

Settings for Call Park:

- ❖ Alternate User Recall To: ☉ Choose a user type

Settings for Group Call Park:

- ❖ Set Display Timer (in seconds).
- ❖ Click to ☐ Disable/☒ Enable Parked Destination Announcement.

Settings for All Parked Calls:

- ❖ Ring Pattern for Recalled Calls: Select an option from the drop-down menu.
- ❖ Recall Timer: Set an amount of time (from 30-600 seconds).
- ❖ Alert Alternate Recall User Wait Time: Set an amount of time (from 30-600 seconds).

2. Click the [Save](#) button to submit the default settings and close the dialog.

Add a Call Park Group

1. Click the [Add](#) button.
2. Accept the default or enter a Group Name.
3. Choose the group's Recall To: ☉ user type.
4. Use the ► ◀ arrows to move highlighted Assigned Users to/from Selected Users.
5. Click the [Save](#) button to submit the information and close the dialog.

Edit a Call Park Group

1. Modify the Call Park (Group) Default Settings.
2. Click the [Save](#) button to update the call park group default settings.

Optional: Click the [Edit](#) option next to a Group in the list.

1. Modify the Group Name, Recall To, or User assignments.
2. Click the [Save](#) button to submit the changes.

Delete a Call Park Group

Caution: This action is immediate.

1. Click the [Edit](#) button next to a Group in the list.
2. Click the [Delete](#) button to remove the Group listing and close the dialog. *The selected Call Park Group is immediately removed.*

Call Pickup (Groups)

Assign and Allow users to answer any ringing line within their call pickup group.

While in the Settings page, click the adjacent ► arrow under View/Edit to open the *Edit* view.

Add a Call Pickup Group

1. Click the Add button.
2. Enter a Group Name.
3. Click the arrows to move highlighted Available Users to/from Selected User Order.
4. Click the Save button to submit the new group and close the dialog.

Manage Call Pickup Groups

1. Click on the Edit option next to a Call Pickup Group.
 - a. Make Changes to Name and/or Selected Users and click the Save button.

Or
2. **Use Caution:** This action is immediate and cannot be undone. Click the Delete button to instantly remove the group from the system and close the dialog.

Advanced Hunting

Utilize all your lines and prevent unnecessary busy signals. When a call is generated to a line that is busy, the call automatically rolls to the next number in the Hunt Group.

Manage Advanced Hunting Settings

1. Click on the Edit option next to the Hunt Group listing.
2. Make changes to the following settings and options:
 - ❖ Name: Enter a name that displays in lists.
 - ❖ Calling Line ID (First/Last): Enter the Caller ID name.
 - ❖ Hunt Style: Select a hunt style from the drop-down menu options.
 - ❖ Allow Call Waiting: Click to ☒ Enable / ☐ Disable.
 - ❖ Highlight and use arrows to move Available Users to/from Selected User Order and/or Directory Number Hunting.

Note: When a user is assigned to Directory Number Hunting and the user receives a call, the call is presented to the user first. If this Directory Number user is busy or unavailable, the service then applies the Hunt Style policy that has been configured for the Hunt Group. If a number is included in the Directory Number Hunting field, it essentially becomes a pilot number for the Hunt Group if busy /unanswered.

- ❖ Department: Select the appropriate department from the drop-down selection list.
- ❖ Time Zone: Select the appropriate time zone for the group/location.
- ❖ Allow Members to control Group Busy: Click to ☒ Enable / ☐ Disable.

- ❖ Enable Group Busy: Click to ☒ Enable / ☐ Disable.
 - ❖ Apply Group Busy When Terminating Call To Agent: Click to ☒ Enable / ☐ Disable.
 - ❖ Skip to next agent after x rings: Click to ☐ Disable / ☒ Enable and select the amount of rings.
 - ❖ Forward call after waiting x seconds: Click to ☐ Disable / ☒ Enable and select the amount of seconds.
 - ❖ Enable Call Forwarding Not Reachable: Click to ☒ Enable / ☐ Disable.
 - ❖ Calls forward to: Enter the 10-digit phone number/SIP URI.
 - ❖ Make Hunt Group busy when all agents are not reachable: Click to ☒ Enable / ☐ Disable.
 - ❖ Use system default CLID: Click to ☒ Enable / ☐ Disable.
 - ❖ Customize the CLID for this Hunt Group: Click to ☐ Enable / ☒ Disable.
 - ❖ Include the HuntGroup Name in the CLID: Click to ☒ Enable / ☐ Disable.
3. Click the [Save](#) button to submit the new data and close the dialog.

Music On Hold

Manage the music or greeting files played to callers when placed on hold.

File size requirements are provided via the link.

While in the Settings, click the adjacent ► arrow under View/Edit to open the [Edit](#) view.

Manage Music On Hold

1. Click to turn **ON** or Off
2. Select ☒ Standard Hold Music or ☐ Custom Hold Music.
3. *Optional:* Choose a pre-uploaded 'custom file' from the drop-down menu. (See: [Announcement Repository](#))
4. Click the [Save](#) button to submit the change and close the dialog.

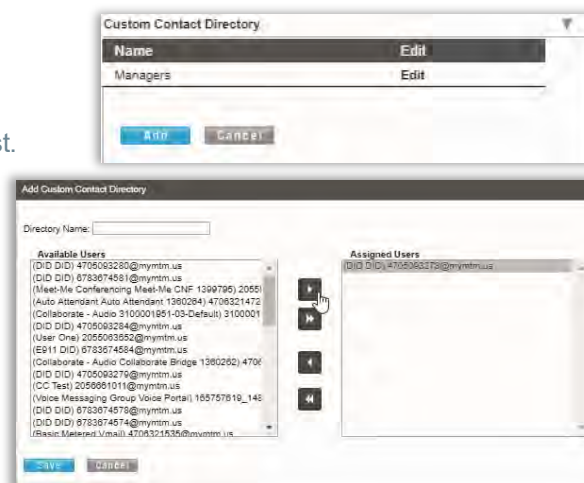

Custom Contact Directory

Create and manage customized contact groups within the directory.

While in the Settings page, click the adjacent ► arrow under View/Edit to open the [Edit](#) view.

Add a Custom Contact Directory List

1. Click on the [Add](#) button to create a custom contact list.
2. Type a Name for the list.
3. Select from the Available Users list and use the arrows ◀▶ to move them to/from the Assigned Users section
4. Click the [Save](#) button when finished to submit the list and close the pop-up dialog.

Edit a Custom Contact Directory List

1. Click the [Edit](#) option next to a Contact List.
2. Make changes to the list Name or Assigned Users, as needed.
3. Click the [Save](#) button to update the list and close the pop-up dialog.

Delete a Custom Contact Directory List

1. Click the [Edit](#) option next to a Contact List.
2. Click the [Delete](#) button to immediately remove the list from the system and close the dialog.

Departments

Manage Departments for the *Group/Location*.

Add a Department

1. Click the [Add](#) button to create a new Department.
2. Type the Department Name.
3. Select the Parent Department from the drop-down menu options.
4. Click the [Save](#) button to submit the changes and close the dialog.

Edit a Department

1. Click on the [Edit](#) link next to the Department.
2. Make the changes you wish to make.
3. Click the [Save](#) button to submit the changes and close the dialog.

Delete a Department

Caution: This action is immediate and cannot be undone.

1. Click on the [Edit](#) link next to the desired Department.
2. Click the [Delete](#) button to remove the selected department from the system and close the dialog.

The first screenshot shows the 'Enterprise Services' page with a 'Departments' table. The table has columns for 'Department Name' and 'Edit'. The rows are 'Maintenance' and 'Maintenance Plumbing'. Below the table are 'Add' and 'Edit' buttons. The second screenshot shows the 'Add Department' dialog box with fields for 'Department Name', 'Parent Department' (a dropdown menu), 'Department Calling Line ID Name', and 'Department Calling Line ID Number' (a dropdown menu). There are 'Save' and 'Cancel' buttons at the bottom. The third screenshot shows the 'Edit Department' dialog box with fields for 'Department Name' (containing 'Maintenance'), 'Parent Department' (a dropdown menu), and 'New Department Name'. There are 'Save', 'Delete', and 'Cancel' buttons at the bottom.

Enterprise Directory

The Enterprise Directory feature offers an online listing of all phone service information within the Enterprise directory for the account.

While in the Settings page, click the adjacent ► arrow under View/Edit to open the [Edit](#) view.

Print Enterprise Directory Summary

1. Click on the [Enterprise Directory Summary](#) Link to view and even Print the abbreviated Phone List using your browser features.

Print Enterprise Directory Details

1. Click on the [Enterprise Directory Details](#) link to view a detailed Phone List that is ready to print using your browser features.

Group Paging

My Cloud Services Portal Administrators may have access to create and manage the use of paging groups within the Locations & Groups section if this service is in use on the system. These are groups of people within a department that can either send or receive a page to their phone. The Group Paging service allows a user to set up a one-way call to a group of up to 75 target users by dialing a number or extension. When used, the Group Paging service makes a simultaneous call to the phones of all the assigned targets and announces to the originator of the page that the system is ready for them to speak to those targets. When finished, the originator ends the page by hanging up the call. Group Paging basics include the following:

- ❖ A user can be assigned as both a paging target and paging originator in a paging group.
- ❖ A site can have multiple Group Paging services configured since users can be defined as a paging originator and/or a paging target in multiple paging groups.
- ❖ If a user is not on the phone, the call from a group page is automatically answered and the target hears a "Paging" announcement to alert them they are receiving a page.
- ❖ If a target is on a call, the page is not automatically answered. If a target chooses not to answer the page, the group paging call will not forward to the target's voice mail.
- ❖ If a target has Do Not Disturb enabled on their phone, they are not called by the Group Paging service.
- ❖ Redirection of a Group Paging call is disabled. If a target has Call Forwarding services enabled, the Group Paging call will not forward to the configured Call Forwarding destination.
- ❖ If a target has Office Anywhere or Simultaneous Ring enabled, the configured destination service will not be called by the Group Paging service.
- ❖ When the page is set up to the targets, the originator receives a "Paging System Ready" announcement alerting them to begin speaking.
- ❖ The group page is a one-way audio service. The paging originator has a one-way talk path to the paging targets. The paging targets do not have a talk path to each other or to the paging originator for the duration of the page.

Access Group Paging

1. Sign into My Cloud Services portal.
2. Go to Locations & Groups and click the **Edit** link adjacent to the desired Location/Group to open the Settings page
3. Scroll down to **Group Paging** and click the adjacent ► arrow under the View/Edit column (far right).

Group Paging
Create and manage paging groups.

Add a Paging Group

While in the Group Paging setting view:

1. Click the **Add** button to open the Paging Group Add dialog.
 2. Enter and/or select the following settings and options:
 - ❖ Paging Group ID @mymtm.us.
 - ❖ Name - Type the name displayed in lists.
 - ❖ Calling Line First / Last Name: Enter the first and last name used for Caller ID when paging.
 - ❖ Calling Line Phone Number: Enter the 10 digit phone number or extension number to be used for a page.
 - ❖ Department: Select the department to which the members of the Paging Group belong.
 - ❖ Language: English is the default.
 - ❖ Time Zone: Choose the correct time zone for the paging group.
 - ❖ Network Class of Service: This setting is read-only.
 - ❖ Calling Line ID to deliver: Choose whether the Caller ID for the pages to this group will show either the **Paging Group** (ID) or the **Originating user with prefix** and enter the prefix in the field.
 - ❖ Confirmation tone sending timeout (seconds): Select an amount for the confirmation tone timeout in seconds from the drop-down menu.
 3. Click the **Save** button to submit the new Paging Group settings and close the dialog.
- Note:** Additional settings for the group must be defined in order to begin using Group Paging.

Manage Paging Group Originators

Manage the users in the department/group who may send group pages out to the rest of the members.
While viewing *Paging Groups* setting list:

1. Click on the [Originators](#) link adjacent to the desired Paging Group in the table list,
OR - Click the [Edit Settings](#) link adjacent to the desired Paging Group to open the *Modify* dialog and click on the [Originators](#) button.
2. Choose users from the *Available* pick list and use the ◀ ▶ arrows to move to/from the *Selected* list. Search tools are offered to narrow selection options.
3. Click the [Save](#) button to submit the information and close the dialog.

Manage Paging Group Targets

Manage the users in the department/group who will receive Group Pages.
While working in the *Group Paging* settings view:

1. Click on the [Originators](#) link adjacent to the desired Paging Group in the table list,
2. OR - Click the [Edit Settings](#) link adjacent to the desired Paging Group to open the *Modify* dialog and click on the [Targets](#) button.
3. Choose one or more users in the *Available* pick list and use the ◀ ▶ arrows to move the selections to the *Selected* pick list. Search tools are offered to narrow selection options.
4. Click the [Save](#) button to submit the information and close the dialog.

Activate a Paging Group

While working in the *Paging Group* settings view:

1. Click to place a check mark in the [Active](#) box (far left) adjacent to the desired Paging Group in the list to set it to Active. Click again to remove the check mark and turn it OFF.
2. Click the [Save](#) button at the bottom of the dialog to submit the information.

Active	Name	Phone Number	Extension	Department
<input type="checkbox"/>	Test	4703770097	0097	new test
<input type="checkbox"/>	test1			prod (3100001951-01)
<input type="checkbox"/>	test3			new test
<input checked="" type="checkbox"/>	QA		9031	new test 1 blocking
<input type="checkbox"/>	testname2			
<input checked="" type="checkbox"/>	test4			

Edit a Paging Group

1. Click the [Edit](#) link adjacent to the desired Paging Group.
2. Make changes to the available setting options.
3. Make changes to the **Originators** or **Targets** and click [Save](#) within that dialog.
4. Click the [Save](#) button in the Modify dialog to submit the new information and return to the list.
5. Click the [Save](#) button in the list view to ensure that the system is updated with all new group paging information and exit.

Delete a Paging Group

1. Click the [Edit](#) link adjacent to the desired Paging Group.
2. Click the [Delete](#) button at the bottom of the Modify dialog.
3. Click **OK** when prompted to confirm the action, close the dialog, and update the list.
4. Click the [Save](#) button in the list view to update the system and exit.

Note: If a paging group number has been added as a Target under another Paging Group, the system will not allow it to be deleted until that assignment is removed. In this case, an error message containing information about the Paging Group to which it was assigned is provided. Once that Target assignment has been removed, the system will then allow the Paging Group to be deleted.

Time Schedule

The Location / Group [Time Schedule](#) feature allows Admins to set the group or location's schedules for business hours and holidays and define all events that are needed. Calls that fall within these times can be sent to voicemail or receive a pre-defined greeting.

Add a Schedule

1. Click to place a checkmark ☒ next to the preferred option (Business Hours or Holiday Schedule).
2. Click the [Add](#) button under that option.
3. Enter a unique **Schedule Name**.
4. Click the [Save](#) button when finished.

Delete a Schedule

Caution: This action is immediate and cannot be undone.

1. Click within the check box ☒ adjacent to a **Schedule** to select it.
2. Click on the [Delete](#) button within that section to immediately remove the Schedule and any events that have been defined within it.

Add an Event

1. Click **Edit** next to the preferred schedule option in either ☒ **Business Hours** or ☒ **Holiday Schedule**.
2. Click **Add Event** to define the following options for a specific event type:
 - ❖ **Event Name:** Required - Type a short title for review in lists.
 - ❖ **Start Date/End Date:** Select the day the event begins and ends.
1 day event = Jan 3 - Jan 3
2 day event = Jan 3 - Jan 4
 - ❖ Select the **All Day Event** check box ☒, or **Start Time, End Time.**
Time = HH:MM
 - ❖ Optional: **Recur** – (Never, Daily, Weekly, Monthly by Day, Monthly by Week, Yearly by Day, Yearly by Week)
 - ❖ Optional: **Recur every x** (Months or Year and/or the Numerical day of the month).
 - ❖ Optional: **End** – *Never*, *After (x # of occurrences)*, or *Date* (set the end date).
3. Click **Save** when finished to submit the data and close the dialog.

Edit an Event

1. Click on the **Edit** option next to the desired Time Schedule option.
2. Make changes to the event name, date, times, announcements, or recurrences.
3. Click **Save** when finished to submit the changes and close the dialog.

Delete an Event

Caution: This action is immediate and cannot be undone.

1. Click within the check box ☒ adjacent to a **Schedule** to select it.
2. Click the **Edit** option next to the selected item to review the schedule's list of Events.
3. Click within the check box ☒ adjacent to an Event listed within the dialog to select it.
4. Click on the **Delete Event** button.
5. Click on the **Save** button to update the data for the Schedules and close the dialog.

Manage Lines

Manage the names and numbers associated with lines on the account. While in the **Locations > Settings** page, click the adjacent ► arrow under **View/Edit**.

You may use the **Search** tools at the top to locate a listing by the data displayed within the **Last Name**, **First Name**, **Phone Number**, or **Extension** columns.

Click a column header to sort in ascending/descending alphanumeric order. The **Close** button exits the view.

1. Click the **Edit** link next to a number to modify the listing.
2. Make changes to the **Name** (first/last), **Line Description**, and **Outbound Caller ID**, as needed.
3. Click on the **Save** button to submit the changes and close the **Edit Line** dialog.

Manage Users

Manage user access rights and extension assignments. Tools are provided to **Search** for User(s) in the list and view additional pages. **Note:** Some of these changes (e.g., password changes) will trigger a notification email to the organization's Administrator and/or the notification email on file for the organization per FCC CPNI change rules. While in the Settings page, click the adjacent ► arrow under View/Edit to open the [Edit](#) view.

Manage Account Password and Recovery Email

1. Locate the user you wish to modify within the list.
2. Click the [Edit](#) option next to the selected user.
3. Enter the following, as needed:
 - ❖ **Password:** Type the new Password and again in *Re-enter Password* to confirm.
 - ❖ **Password Recovery Email:** Type the full email in [name@email.com](#) format. This is where the system will send the recovery information and notifications when changes are made. Another email will automatically be sent to the Super Admin (or email on file for CPNI Changes) as a notification of the change to a password.
4. Click the [Save](#) button to submit the change.

The screenshot shows the 'Manage Users' interface. At the top, there are buttons for 'Add user' and 'Delete user', a search bar, and a 'Search' button. Below this is a table of users with columns for checkboxes, User Name, Main Account, Admin status, Password Recovery Email, and an Edit link. The table lists users like 'ImaTestUser', 'test4victor', 'newmsptest', 'newusertesting1', and 'useradmin1'. An 'Add User' dialog box is open in the foreground, showing fields for 'User Name', 'Password', 'Re-enter Password', and 'Password Recovery Email'. It also has checkboxes for 'Group Admin' and 'Contact Center Manager', and sections for 'Available Groups' and 'Assigned Groups' with arrows for moving items between them. A 'Save' button is at the bottom left of the dialog.

Add an Administrator

1. Click the [Add User](#) button.
2. Enter or define the following:
 - ❖ **User Name:** Type the name or designation (phone number, device type, etc.) using [name@email.com](#) format.
 - ❖ **Password:** Enter and reenter the password assignment for the user.
 - ❖ **Password Recovery Email:** Enter an email address for password recovery notifications.
 - ❖ **Group Admin:** Option: Click to enable/disable this as the access assignment.
 - ❖ **Contact Center Manager:** Option: Click to enable/disable this as the access assignment.
 - ❖ Highlight item(s) in the **Available Groups** section and use the arrows to add to the **Assigned Groups**.
3. Click the [Save](#) button to submit the change, create the admin account, and close the dialog.

Edit User Access and Extension Assignments

1. Locate the user you wish to modify within the list.
2. Click the [Edit](#) option next to the selected user.
3. Make changes to the following, as needed:
 - ❖ **Password (and repeat)**
 - ❖ **Password Recovery Email:** Enter a new email address.
 - ❖ ☒ **Assign Administrative Rights to Enable**, as needed.
 - ❖ ☒ **Assign Contact Center Manager Rights to Enable** as needed.
 - ❖ **Extension Assignments:** Select from the **Available Numbers** and use the arrows ◀▶ to move to or from the **User Extensions** box.
4. Click the [Save](#) button to submit the changes and exit.

The screenshot shows the 'Edit User' interface. It has fields for 'User Name', 'Password', 'Re-enter Password', and 'Password Recovery Email'. Below these are checkboxes for 'MACD and Device Provisioning Permissions', 'Assign Administrative Rights', and 'Assign Contact Center Manager Rights'. There is also an 'Extension Assignment' section with 'Available Numbers' and 'User Extensions' lists, with arrows for moving items between them. 'Save' and 'Cancel' buttons are at the bottom.

Set Advanced Administrator Permissions

CAUTION. Additional Administrator permissions are required for access to review and manage the information and tools within the provider-level restricted access sections. By default, those restricted area features are **not** enabled for use by *any organization's* Admin and the permissions must be enabled and setup by the Provider *after* specialized Admin training has been completed. *The organization's Super Admin must work with their Account Manager at the Service Provider to discuss the organization's responsibilities and liabilities for usage prior to these features being enabled and management of access by the organization's Super Admin to be allowed. See Advanced Permission Sections.*

While working in Manage Users:

Note: SuperAdmin access Only.

1. Locate a User in the list with the Admin column set to **Yes**.
2. Click on the **Edit** option next to the selected user.
3. Click on the **Advanced Admin Permissions** link to review and edit the *Advanced Admin Permission* settings.
4. **Service Changes Permissions - (MACD) RESTRICTED ACCESS.** Click within the listed check boxes to ☒ enable or ☐ disable appropriate **Service Changes** section and feature access. **Note:** Use Caution. Optimally, *only the SuperAdmin should be provided with access to the tools in any enabled restricted access section. Do not attempt to grant access beyond what the Service Provider defined initially.*
5. **Devices (Provisioning) – (RESTRICTED ACCESS)**
Click within the listed check boxes to ☒ enable or ☐ disable appropriate administrative device management access in the *Devices* section.
6. **Billing – (RESTRICTED ACCESS)**
Note: *This option only displays in systems that have Location level Billing enabled for use by the provider and the selected Admin has permissions as a Location/Group level Admin.*
Click within the listed check box to ☒ enable or ☐ disable this Admin as a location level billing admin with the ability to review and manage bill payments for specifically assigned locations.
7. Click the **Save** button to submit the changes, close the dialog, and return to the *Edit User* view.
The restricted access section(s) will display to that Admin upon their next login in the Left Nav Menu options and related Dashboard widgets (if any) will also display.

Delete Users

Caution: This action is immediate and cannot be undone.

While working in Manage Users:

1. Click within the check box ☒ adjacent to a User in the list to select that individual.
2. Click the **Delete User** button to instantly remove the user from the list.

Manage Group Calling Line ID

Important: If your system uses extension-only seats (without associated telephone numbers) along with *Call Recording* assigned, changing the Group Calling Line ID here will cause the *Call Recording* feature to stop working.

If you are unsure about your setup, please contact your Service Provider's Customer Support to request assistance to complete the appropriate Call Recording configuration changes.

1. Define or select from the following options, as needed:
Use Group name for Calling Line Identity: Click within the check box ☒ to Enable
2. If set to Enabled, make selections from the following, as needed:
 - ❖ Calling Line ID Group Name: Enter the group name that displays in CallerID
 - ❖ Calling Line ID Group Number: Select the number option from the list.
 - ❖ Use User phone number for Calling Line identity: ☒ Click to enable, as needed.
 - ❖ Use configurable phone number for Calling Line identity: ☐ Click to enable, as needed.
 - ❖ Use group/department phone number for Calling Line Identity: ☐ Click to enable, as needed.
3. Click the **Save** button to submit the changes and close the dialog.

SERVICES & USERS

The **Services & Users** section lists the individual accounts within the enterprise (or area the admin reviews). The data is searchable and sortable and includes all important information 'at-a-glance'. Admins may also set users or services as Favorites ★ in this page, Check / Update the Registration Status, or go directly to a specific account dashboard to review and manage settings.

Service Type	First Name	Last Name	Service ID	Extension	MAC	Location	Dept	Assigned To
Executive (w/ DID)	Auto	Attendant	6502092591	2591	64167D947e9	Location 3 Hosted		Auto Attendant

MS Teams Connector						Location 3 Hosted		

Section Search

Locate any data found within the table below.

Check Registration Status

Poll NEPS and BroadSoft provisioned device registration status and update.

Favorites ★

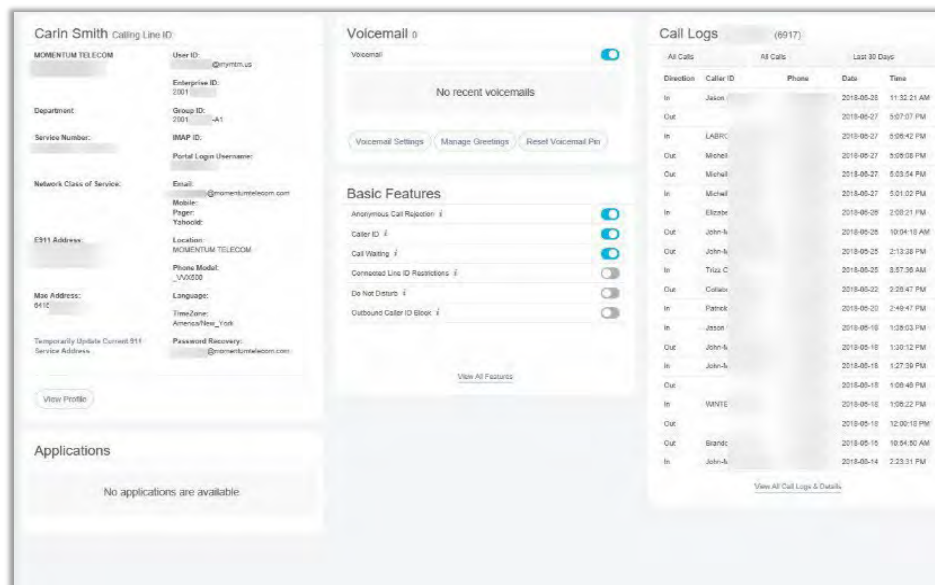

The first column allows Admins to set Favorites ★ for easy Dashboard access.

Service ID & Ext

The links under the Service ID and Ext columns open the User's Dashboard for the selected account.

Manage Services & Users

Locate an item in the list and click on the [link](#) under the **Service ID** or **Ext** column to open the individual **User Dashboard** to review the current information for the account and access all account features for administration:

User Dashboard Sections

User Profile

This dashboard card displays the current profile information, and the [View Profile](#) button provides access to manage temporary e911 locations, change the password, manage notification emails, and update directory information.

Voicemail

This card displays recent un-deleted voicemails to play, delete, forward, or block callers.

A red dot • indicates un-played messages. The [View All Voicemails](#) link provides access to review and manage all undeleted voicemails if there are more available than can be displayed within the dashboard card. Tools are also provided for the user or Admin to [Manage Voicemail Settings](#), [Reset Voicemail Pin](#), [Manage Voicemail Greetings](#), and [Manage Voicemail Message Deposit](#) settings.

Call Logs

This dashboard card displays the latest calls to/from the user's device and [View All Call Logs](#) button opens a new page to display up to 1000 calls within the past 90 days, with filtering tools and a link to [Export Call Logs](#) to a spreadsheet report format.

Applications

This card provides direct links to the landing or **Sign In** page for add-on applications assigned to the user, if applicable.

Basic Features

This card displays the **On/Off** feature settings for easy access and the [View All Features & Services](#) link offers direct access to the user's **Settings** page to manage all assigned services and features on their account.

User Profile

This section of the dashboard displays a summary of your account profile information (Name, Address, Phone Number, User ID, Device model, etc.), and provides links to set up a temporary e911 location, review the entire profile, and access your password and directory profile management tools.

The [My Profile](#) link found in the toolbar (the drop down by your username) also offers another access point to view the Profile.

The following features and access links are all provided via the [Profile](#) card on the My (User) Services Dashboard:

View Profile

[View Profile](#)

Click on the [View Profile](#) button to review your current contact information and access the management tools for your password, email notification settings, and temporary e911 dispatch-able address/location changes.

Links to tools views for managing more User level tasks, including [Change Recovery Email](#), [Change Password](#), [Change MFA](#), and the [Edit Profile](#) button, are also displayed here.

Change e911 Address (Temporary)

The [Temporarily Update Current 911 Service Address](#) link opens the dialog that allows the user to add and validate temporary e911 Service Address locations for use when traveling to different locations with the associated device. You must temporarily update your e911 Service Address in the event you may need to access emergency services from an address other than the Primary e911 Service Address, and then reset it back to the Primary e911 Service Address upon your return.

Note: Any time a user changes the e911 address on their profile - either Temporary or Primary - fees may be incurred for the organization and the System Admin will receive an email notification of the change.

Add a Temporary e911 Service Address

1. Click on the Temporarily Update Current 911 Service Address link to begin.
2. Enter the complete Address information for the temporary address you wish to use in the fields provided - please include specifics like building, department, floor, N/S/E/W, and similar helpful information (a Dispatchable Location) that can be sent to the PSAP to help emergency responders find you quickly during an emergency.
3. Click on the [Save](#) button to submit the information and receive a **Success!** message when the address confirmation process completes.

Please allow up to 10 minutes for the address to validate after updating. If the address cannot be validated, it may be because the information is not specific enough, is for a PO Box, is not within the continental United States, Puerto Rico, or Hawaii, or is too new to be verified by the PSAP system. If you are unable to validate a service address, please contact your Administrator or customer service at the service provider for assistance.

Edit Primary e911 Service Address

By default, your e911 Service Address is the primary address of record for your service account. If a change is required, please contact your Administrator or service provider to initiate a Change of Address (or "Move" order) to change the Primary E911 Service Address permanently.

Reset to Primary e911 Service Address

1. Click on the Temporarily Update Current 911 Service Address link in the [View Profile](#) dialog.
2. Click on the Reset to Primary link.
3. Click on the [Save](#) button to submit the change and receive a **Success!** message when it is completed.

Change Recovery/Notification Email

1. Click the [Change Recovery Email](#) link to open the Change Email dialog.
2. Password Recovery Email: Enter or change the email address on file for recovering your login information. The system will send your password to this email address.
3. Service & CPNI Email Notifications: Enter or change the email address on file for receipt of notifications from the provider. The system will send service notifications to this email address.
4. Click on the [Save](#) button when your edits are complete.

Change Password

The [Change Password](#) link provides direct access to update your unified communications password information.

1. Click on the [Change Password](#) link.
2. Type a new Password.
3. Retype to verify.
4. Click the [Save](#) button.
New passwords must be **8** or more characters and contain at least 1 number or special character, 1 lower case letter, and 1 upper case letter.

A dialog box titled "Change Password" with a close button (X) in the top right corner. It contains instructions: "We recommend you choose a strong password to protect your online profile. The password length must be at least 8 characters. The password must contain at least 1 number, at least 1 lower case letter, and at least 1 upper case letter." and "Avoid using passwords that can be easily guessed such as your name, telephone number, social security number, or account number." Below the text are two input fields: "Type Password" and "Retype Password". At the bottom are two buttons: "Save" and "Close".

Manage Multi-factor Authentication

Coming Soon. The Enable Multi-factor Authentication link allows users to define the preferred security authentication method (SMS Text or App). Use the following steps to setup or manage user-level MFA settings if this security protection method has been enabled (as optional or required) for your organization.

1. Click on the Manage Multi-factor Authentication link in the *View Profile* dialog.
2. Choose one of the Two-step verification options:
Text Message: Set the adjacent slider to ON to select this method, enter the SMS enabled 10-digit phone number in the field provided, and click Submit to generate the code you will need and send it to the provided phone number.

OR

Authenticator App Code: Set this option to ON and use the QR code to connect your Okta Verify, Google Authenticator, or Microsoft Authenticator app and generate a code you will need.

3. Follow the instructions to complete the initial setup by submitting the code you received in the field provided.
4. Click the Save button.

The selected MFA method of code entry will be required on subsequent portal sign in attempts.

Repeat the steps above to modify/change the MFA verification method selection, as needed.

NOTE: Every time changes are made to these settings, the system creates a new QR code that (for Authenticator App users) must be added to the app again and then used going forward.

A dialog box titled "Manage Multi-factor Authentication" with a close button (X) in the top right corner. It contains the text: "Add an extra layer of security to block unauthorized access and protect your account." Below this is a section "Two-step verification options:". There are two options: "Text Message" and "Authenticator app code". The "Text Message" option has a slider set to "ON" and a text field "Enter your mobile device number:" with a "Submit" button. The "Authenticator app code" option has a slider set to "ON" and a QR code. Below the QR code is a text field "Please submit your code:" with a "Save" button. A large "Coming Soon" watermark is overlaid on the dialog.

Edit Profile

Edit Profile

The **Edit Profile** button provides access to modify additional profile contact information for the directory. The information you include (mobile phone, email, etc.) is visible to other group members when viewing the directory or phone list.

In View Profile:

1. Click the **Edit Profile** button to view/edit the following options:
 - ❖ Preferred Name (First/Last)
 - ❖ Preferred Name when dialing out (First/Last)
 - ❖ Work Information (Title, Department)
 - ❖ Language preference
 - ❖ Time Zone
 - ❖ Class of Service
 - ❖ Additional Contact Information (phone, email, personal address)
2. Click the **Save** button when you are finished to update the data.

*An Administrator is needed to modify some of the Profile information at the User level.
If you are not an admin, contact your Administrator for assistance with the settings you cannot modify.*

Additional Profile Settings

Access to additional profile settings for the directory and monitoring services is provided in the **Settings** page.

See Also: [Profile \(in Settings\)](#).

Applications

The **Applications** card in the Dashboard displays links to any additional applications related to the account. My Cloud Services offers an easy way to connect directly to the sign in or landing page of the corresponding service or application in this section of the Dashboard. Contact your administrator for assistance if you require assistance to access add-on modules on your account.

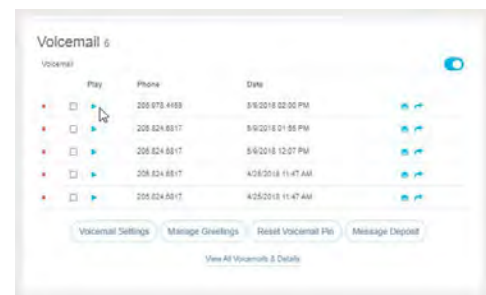

1. Click on the **Connect** link to open and access the sign in / landing page or application of the corresponding option in a new browser window.

If no additional applications are included with the service, this card displays a simple “No applications are available.” message.

Voicemail

The **Voicemail** card displays a list of your current un-deleted voicemail messages and the common voicemail feature management tools in the Dashboard. It offers quick access to any additional messages, Voicemail feature tools, and to update the Voicemail PIN information. The red dot • next to a Voicemail indicates an un-played message.

Many Voicemail settings are also found within the Voicemail Edit view in the **Settings** page.

Enable/Disable Voicemail

The **On/Off** toggle at the top of the Voicemail card **enables** or disables the Voicemail feature

Play Voicemail

- ▶ Click on the **Play** icon next to a voicemail in the list to listen to the message online.

Download Voicemail

Click on the **Download** icon next to a message to download and save a copy of the message file to a location on your system.

Forward Voicemail

Click on the **Forward** icon next to a message to send the voicemail .wav file to an email address.

Voicemail Block | Delete

☐ Click to place a checkmark ✓ in the box next to a Voicemail to view the [Block | Delete](#) options above. Simply click on the option you prefer to perform the action.

- ❖ [Block](#) disallows future calls from the number without providing a warning message to the caller.
- ❖ [Delete](#) immediately removes the Voicemail from your dashboard/phone list and deletes the record/recording fully from the database at midnight the day you elected to delete it.

View All Voicemails

Click on the [View All Voicemails](#) link below the list to open the dialog and review or manage any additional voicemails.

Reset Voicemail Pin

Reset Voicemail Pin

Click on the [Reset Voicemail Pin](#) button to reset the current PIN to the default (8462) to allow a new Voicemail PIN to be safely entered via the telephone/device.

Manage Voicemail Settings

Voicemail Settings

The [Voicemail Settings](#) button opens the Voicemail Settings pop-up dialog where the following voicemail settings may be turned on or off, and email notifications and forwarding on '0' may be managed.

Always click the [Save](#) button once changes are made to submit new information. A [Success!](#) Message displays when an update to Voicemail Settings is completed.

Voice Messaging

On | Off – Turns the Voicemail feature on or off.

Send All Calls to Voicemail

On | Off – All calls are sent to voicemail while this feature is enabled.

Send Busy Calls to Voicemail

On | Off – When this setting is enabled, new incoming calls are sent directly to voicemail if the line is already in use (busy).

Send Unanswered Calls to Voicemail

On | Off – When this setting is enabled, calls that go unanswered after a specified number of rings are sent to voicemail by the system.

Forward to Multiple Emails

On | Off – (Unified Communications) Saves the voicemail recording in the portal/voicemail inbox and sends voicemail recording files to the email address(es) specified. Click the toggle to turn On (enable), then enter at least one 1 and up to five (5) email addresses separated by commas in the text field that is provided.

Forward to One Email

On | Off – Sends the voicemail recording file to a specified email address. Note: Enabling this option sends the message recordings to the email address and does not save the voicemails to the portal or voicemail inbox. Click the toggle to turn On (enable) and then enter the email address in the text field provided.

Notify Me by Email When New Messages Arrive

On | Off – When enabled, a simple new voicemail received notification email is sent to the address that is defined in the text field provided.

Email a Carbon Copy of the Message

On | Off – When enabled, a copy of the new voicemail notification email is sent to the email address defined in the text field provided.

Transfer on '0' to Phone Number

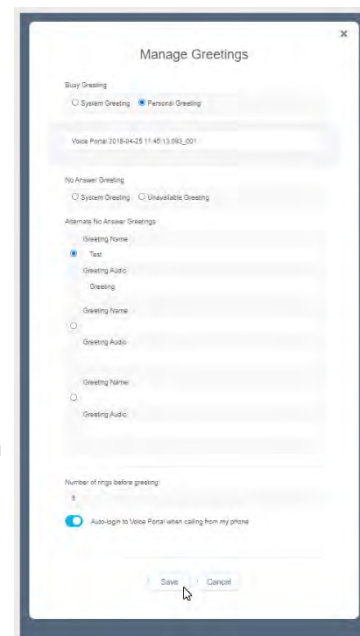

On | Off – When set to ON and a 10-digit phone number is defined, incoming callers are given the option to press '0' to transfer.

Manage Voicemail Greetings

The **Voicemail** card displays the Manage Greetings button, providing access to select the greetings used when a caller is sent to voicemail. The system provides a default greeting, so these settings are optional.

- Click on the Manage Greetings **Manage Greetings** button.
- Select or define the following as needed to setup voicemail greetings:
 - Busy Greeting:** Click to select System Greeting (default) or Personal Greeting. If Personal Greeting is selected, use the adjacent drop-down menu to choose an Announcement already uploaded (in the Announcement Repository) for use.
 - No Answer Greeting:** (Optional) Click to select *System Greeting* (default) or the *Unavailable Greeting* option.
 - Alternate No Answer Greetings:** This dialog allows the user to prepare multiple no answer greetings that can be used and then select the one that is in use. Click to select an alternate No Answer greeting that was already uploaded for use.
 - Number of rings before greeting** – Select an amount of rings (from 1-10) that will occur before the caller is sent to voicemail and will hear the greeting currently in use.
 - Auto-login to Voice Portal when calling from my phone:** Click to enable this setting to allow the system to keep you logged into the Voice Portal on the phone for quick access.
- Click the **Save** button to submit the changes, close the dialog, and return to the Dashboard view. Return to this dialog to edit settings in the future.

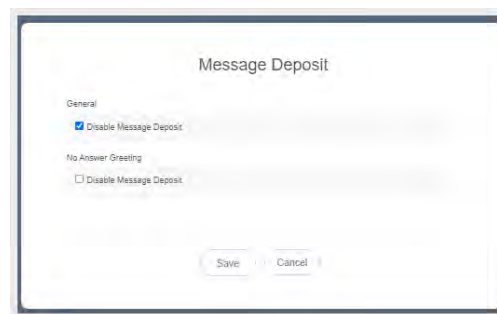

See also: [Announcement Repository](#)

Message Deposit

The **Voicemail** card displays a quick access button for **Message Deposit** settings. These settings allow the user to quickly disable the ability for incoming callers to leave a message after hearing the user's voicemail greeting. By default, Message Deposit is always turned **On** which allows callers to leave a message and hear the menu options. This feature works with the Voicemail Greeting Settings.

Note: When Message Deposit is disabled, the Voicemail Menu is disabled. This means that incoming callers won't hear the menu options and the user will not hear menu options announced when logging in to manage voicemails if Message Deposit is disabled.

Disable Message Deposit

In the Voicemail card on the Dashboard:

1. Click on the Message Deposit [Message Deposit](#) button to view the Message Deposit dialog.
2. Choose the option to use:
 - **General** – A check mark ☒ here disables message deposit for all calls that go to voicemail.
 - **No Answer Greeting** – A check mark ☒ here disables message deposit for calls that are sent to voicemail when a No Answer Greeting is in use.
3. Click on the [Save](#) button to submit the change, close the dialog, and return to the Dashboard. Return to this dialog to turn off the setting when it is no longer needed.

Call Logs

The **Call Logs** card displays a list of the latest incoming and outgoing calls on the account with filters to review specific call types and date ranges. It also provides easy access to review all available call log data for the past 90 days – up to 1000 calls via the View All Call Logs & Details link.

Filter Call Logs

Within the **Call Logs** dashboard card, multiple *Filters* are provided that allow users to select specific call types and date ranges to review. The Call Logs filter options include:

Call Type

All Calls
Incoming Calls
Outgoing Calls

Call ConnectionType

All Calls
Connected
No Answer
Incomplete
Forwarded

View All Call Logs & Details

The [View All Call Logs & Details](#) link at the bottom of the Call Logs card offers easy access to review a detailed list of up to 1000 calls over the past 90 days. The same filters offered within the dashboard are available within the larger view to make it simple to locate information about specific call types or calls that occurred within specific time-frames, and a link to [Export Call Logs](#) allows the user to download the data to an excel spreadsheet format.

Basic Features

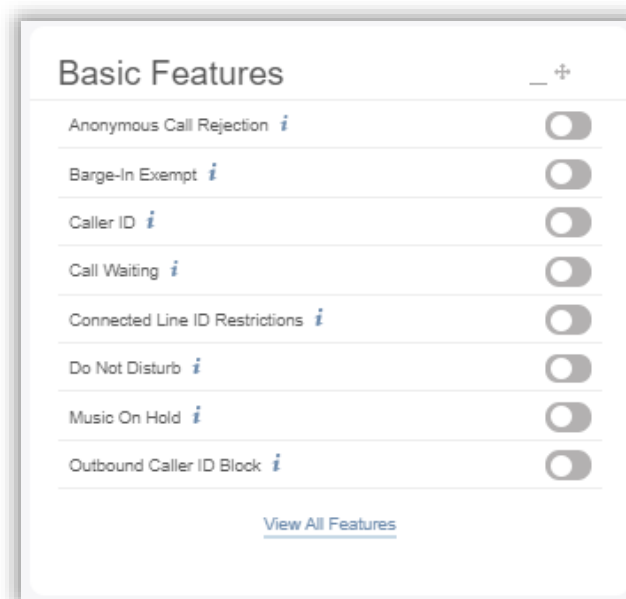

The **Basic Features** Dashboard card provides quick access to your On/Off feature settings and information about each. This dashboard section also provides a [View All Features](#) link that opens the **Settings** page for review and management of additional service features.

Each item displayed within the **Basic Features** card on the Dashboard is an **On / Off** setting for the individual user account. Descriptions of the features that are provided for management here display as pop-up information by placing the  cursor over the 'i' icon next to an item.

The slider toggles in the **Basic Features** card allow the user to set each available option to **On** (enabled) or **Off** (disabled) quickly and easily.

Additional settings may be managed by clicking on the [View All Features](#) link at the bottom of this dashboard card. This opens the full list of feature settings on the user's account for review and management.

Working with User Settings

Click on the [View All Features](#) link at the bottom of the **Basic Features** Dashboard Card to open the **Settings** page, which lists the features and services that are available to the user in an easy to read format and provides access to View and to [Edit](#) the settings for each feature listed.

- ❖ Features are generally grouped by type to make similar or related features easy to locate.
- ❖ On/Off features show their current status within the table (and on the Dashboard).
- ❖ The drop-down selection tool above the table allows authorized Admins to quickly select and edit user-level feature settings for the other seats/users they are permitted to manage.
- ❖ The arrow ▶ under the **View/Edit** column (far right) for a feature opens the [Edit](#) view.
- ❖ Many of the On/Off features shown in this list and the individually enabled settings shown here may also be managed via the [Basic Features](#) Dashboard Card and through the user's device using phone codes, AKA: Star Codes, when set to *Enabled*. (ex: *77).

Your account type and/or role defines the users, features, and services you may access. Some features shown in this document may not be available to all users or all organizations.

Access the Settings Page

In the Dashboard: Click on the [View All Features](#) link in the **Basic Features** card on the User's Dashboard to open the **Settings** page.

View / Edit User Feature Settings

In the **Settings** page: Click on the arrow ▶ under the **View/Edit** column next to a feature to open its [Edit](#) view and modify the feature setup. Features that may be managed here will vary and are dependent upon the services offered to the user based on seat type and add-ons.

Manage Settings for Multiple Lines/Accounts

Where multiple lines are assigned and may be viewed by a User or Admin, the drop-down tool within the **Settings** view (just above the table on the top right) offers the ability to switch between those lines to manage the feature settings for all accounts that are available to the user (or Administrator) for multiple lines.

1. Click on the drop-down tool to view a list of any additional lines for selection.
2. Click on an option in the list to choose and begin working with that line's settings.
The settings for the new line will display in the table below for review/management.
3. Repeat to review or make changes to additional account/line settings to which access is provided.
Note: The system will also help the user or Administrator to quickly get back to the dashboard of the account/line they started with by displaying it at the top of the Left Navigation panel at all times.

Profile

The secondary **Profile** section of the **Settings** page offers additional fields for data that may be added to display in directories and phone lists. Click the adjacent drop-down arrow ► to access this feature's **Edit** view.

Manage Profile

1. Enter any information that you wish to make available in lists or directories.
2. Click the **Save** button to update and return to the **Settings** page.

Anonymous Call Rejection

On | Off setting. **Anonymous Call Rejection** tells the system to play an intercept message and reject (block) incoming calls from anyone with Caller ID set to 'Anonymous'. Because the calls are blocked and will not ring through, Call Logging, etc. are disabled when a call triggers this feature.

Click the adjacent drop-down arrow ► to access this feature's **Edit** view.

Manage Anonymous Call Rejection

1. Slide the toggle to **ON** or Off.
2. Click the **Save** button.

Announcement Repository

The **Announcement Repository** service offers the ability to upload and store message .wav files for use as Voicemail greetings and announcement messages.

- The repository provides up to 1 GB of storage space.
- The amount of storage space displays for review.
- Maximum file size for audio announcements is 5 MB in CCIT u-Law 8kHz, 8-bit Mono format.

Click the adjacent drop-down arrow ► to access this feature's *Edit* view.

Add an Announcement File

1. Click on the [Add](#) button to begin.
2. Type the Name to be displayed in selection lists.
3. Click on the Choose File button to select a local audio file to upload into the repository.
4. Click the [Save](#) button to submit the change and return to [Settings](#).

Download an Announcement File

1. Click on the [Download](#) link.
2. Navigate to and select the local folder you wish to use to save a copy of the file.

Edit an Announcement File

1. Click on the [Edit](#) link next to an Announcement listing to open its *Edit* view and make changes.
2. Click on the [Save](#) button to submit changes and close this dialog.

Delete an Announcement File

Use Caution. The removal action is immediate and cannot be undone.

1. Click to place a check ☒ in the box next to an Announcement in the file list to select it.
2. Click on the [Delete](#) button.

Automatic Hold / Retrieve

This setting provides a method to place incoming calls on hold and retrieve them automatically without using the feature access (Star) codes.

Click the adjacent drop-down arrow ► to access this feature's *Edit* view.

- Select and/or enter the following:
 - Automatic Hold / Retrieve On Off - Click to set to ☐ On or ☒ Off (default)
 - Automatically retrieve the call after: _____
- Enter the number of seconds the call will remain on hold before it is automatically retrieved to the line.
- Click the **Save** button when finished to submit the changes and close the dialog.

 On ☒ Off'. Then, '* Automatically retrieve the call after: 120 seconds'. At the bottom is a 'Save' button."/>

Barge-In Exempt

On | Off Setting. When enabled (ON), barge in attempts clickon the adjacent drop-down arrow the adjacent drop-down arrow ► to access this feature's *Edit* view.

 On ☒ Off'. At the bottom are 'Save' and 'Cancel' buttons, and a 'See Instructions' link."/>

Call Block

Use the **Call Block** feature to define criteria that will block calls from people you would rather not talk to, limit or forward calls from specific numbers, or even create a list of numbers you always want to accept even when Call Block is enabled.

Incoming calls that meet all criteria defined here are notified that you cannot be reached, and the call is disconnected. These calls are not logged.

Add a Call Block

- Click on the **Add** button to begin defining new Call Block criteria.
- Define the following criteria, as needed:
 - ❖ **Description** – Required: A short descriptive title for this call block type to show in the list.
 - ❖ **Reject Call** – Optional: Click to setup this list to Block Calls when your criteria are met.
 - ❖ **Do Not Reject Call** – Optional: Click to setup this list to accept calls from specific numbers when the criteria are met.
 - ❖ **Select Time Schedule** – Optional: Choose a Time Schedule from the drop-down menu. OR...
 - ❖ **Selected Holiday Schedule** – Optional: Choose a Holiday Schedule from the drop-down menu.
Note: *Only one schedule type (Time or Holiday) can be selected at a time.*
 - ❖ **From Any Number** – Optional: Select if any number dialed in will be accepted or blocked for the schedule you selected.

- ❖ Forwarded – Optional: Select if incoming forwarded numbers will be blocked.
 - ❖ From Following Phone Numbers – Select to define individual numbers to accept or block.
 - ❖ Any Private Number – Select to trigger on incoming calls with “Private” Call ID.
 - ❖ Any Unavailable Number – Select to trigger on incoming calls with “Unavailable” Call ID.
 - ❖ Specific Phone Numbers – Select and then enter up to twelve (12) 10-digit phone numbers.
3. Click the [Save](#) button when finished to submit the call block criteria and close the view.

Edit a Call Block

1. Click on the [Edit](#) link next to a Call Block entry.
2. Make changes to the Description, Trigger Options, and/or the specified Phone Numbers.
3. Click the [Save](#) button when finished.

Activate a Call Block

1. Click to place a checkmark ☒ next to a Call Block entry to [activate](#) that selection.
2. Click the [Save](#) button to submit the change and close the *Edit* view.

Delete a Call Block

Use caution. The item is immediately removed when Delete is selected.

1. Click on the [Edit](#) link next to a Call Block entry.
2. Click the [Delete](#) button to remove the selected Call Block and its information from the system.

Caller ID

On | Off Feature. **Caller ID** allows the user to turn the *view Caller ID for incoming calls* feature on or off. When enabled, it may take up to two (2) rings to see the available Caller ID information on your device.
Note: The Off option deactivates Caller ID for incoming calls, but not for your outgoing calls. See [Outbound Caller ID Block](#).

Click the adjacent drop-down arrow ► to access this feature's *Edit* view.

Manage Caller ID

1. Slide the toggle to **ON** to enable or **Off** to disable.
2. Click on the [Save](#) button to submit the change and close the *Edit* view.

Call Notify

The **Call Notify** service allows users to define the recipient address for email notifications when specific types of calls are received. Click the adjacent drop-down arrow ► to access this feature's *Edit* view.

Setup Call Notify

1. Send email to: Enter the email address for call notifications.
2. Click the [Add](#) button to define new *Call Notify* criteria.
3. **Description:** Enter a name to display in lists.
4. Select or define the following options, as needed:
 - ❖ Set to Notify or Do Not Notify.
 - ❖ Select Time Schedule: Optional: Select a pre-defined Time Schedule - OR -
 - ❖ Selected Holiday Schedule: Optional: Select a Holiday Schedule.
Note: Only one schedule type (Time or Holiday) may be selected for use in each Call Notify event.
 - ❖ Call Policies: Select an option from the following - From Any Phone Number, Following Phone Numbers, Any Private Numbers, Any Unavailable Numbers, and/or specify up to twelve (12) Phone Numbers, as needed.
5. Click the [Save](#) button and wait for the **Data Saved Successfully!** message to display.
6. Click on the ☒ Exit icon to close the criteria dialog.
7. Click the [Save](#) button to update the system and close the *Edit* view.

Activate Call Notify

1. Click to place a check in the box ☒ under the [Active](#) column for a listing to activate it.

Edit Call Notify Settings

1. Click the [Edit](#) link next to a *Call Notify* listing.
2. Make changes as needed.
3. Click the [Save](#) button and wait for the **Data Saved Successfully!** message to display.
4. Click on the ☒ Exit icon to close the dialog.
5. Click on the [Save](#) button to update the system and return to the [Settings](#) list view.

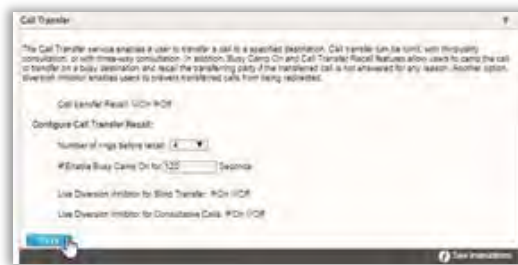

Delete Call Notify

1. Click the [Edit](#) link next to the desired listing.
2. Click the [Delete](#) button and wait for the **Deleted Successfully!** message to display.
3. Click on the ☒ Exit icon to close the dialog.
4. Click on the [Save](#) button to update the list and return to [Settings](#).

Call Transfer (Recall)

The **Call Transfer** service enables a user to transfer calls to specified destinations as Blind, Consultative, or 3-way Consultative Transfers. This setting defines the criteria to automatically **recall** your transferred calls when they are not answered for any reason, and/or to prevent your transferred calls from being automatically redirected by the destination user's settings. Click the adjacent drop-down arrow ► to access this feature's *Edit* view.

Manage Call Transfer Recalls

1. Click within the appropriate radial button to turn the service **On** or **Off**.
2. Configure the following setting options, as needed:
 - ❖ Number of rings before Recall: Select a number of rings from the drop-down menu.
 - ❖ Enable Busy Camp On for x Seconds: Turn on 'busy' for a set time. Click to place a check in the box to ☒ enable (or ☐ disable) and enter a number of seconds in the adjacent field.
 - ❖ Use Diversion Inhibitor for Blind Transfer: Disallow auto-redirects on Blind Transfers. Click within a radial button to set to **On** or **Off**.
 - ❖ Use Diversion Inhibitor for Consultative Transfer: Disallow auto-redirects on Consultative Transfers. Click within a radial button to set to **On** or **Off**.
3. Click on the **Save** button to submit the setup/change(s) and close the *Edit* view.

Call Waiting

On/Off Setting. The **Call Waiting** service allows users to receive calls while their line is in use, see the callerID of the new caller, and decide whether to automatically place the current caller on hold and answer the second call - or let the second call go to Voicemail (if enabled). Click the adjacent drop-down arrow ► to access this feature's *Edit* view.

Manage Call Waiting

1. Slide the toggle to **ON** or Off and click on the **Save** button to submit the change and close the *Edit* view.

CommPilot Express

The CommPilot Express settings allow a user to define profiles that control what happens when an inbound call arrives and the CommPilot presence indicates that user is Available - In the office, Available - out of office, Busy, or Unavailable. Once defined, saved, and enabled, each profile can be managed in this area of the portal or via the phone/device (where supported). Note: when enabled, CommPilot Express will take precedence over some other service settings that relate to incoming call behavior. *The use of these settings and profiles is optional. If available - Click the adjacent drop-down arrow ► to access this feature's **Edit** view.*

1. To manage CommPilot Express settings, select or enter information for the following:

- ❖ **Current Profile:** Choose from the drop-down menu options to select a saved profile.
- ❖ **Available – In the Office**
 - Also ring this phone number: _____
- Enter the alternate 10-digit phone number to simultaneously ring.

If Busy:

- ☐ Have Voice Messaging (take the call)
- Click to ☒ select/enable calls to be sent to voicemail when *busy*, OR
- ☐ Forward to this phone number _____
- Click to ☒ select/enable, and enter the 10-digit phone number to which the system should forward calls when in office but busy

If No Answer:

- ☐ Have Voice Messaging take the call
- Click to ☒ select/enable and instruct the system to send calls to voicemail if calls go unanswered, OR
- ☐ Forward to this phone number: _____ - Click to ☒ select/enable and enter the 10 digit phone number to which the system should forward calls in the adjacent field

- ❖ **Available – Out of Office**

- ☐ Have Voice Messaging take the call – Click to enable and instruct the system to send calls to voicemail when out of office, OR
- ☐ Forward to this phone number: _____ - Click to enable and enter the 10 digit phone number wo which the system should forward calls in the adjacent field.
- ☐ Also notify me by e-mail when a call comes in: _____ - Click to ☒ select/enable and enter the email address the system should use to send notifications for incoming calls while out of office.

- ❖ **Busy**

- ☐ Send all calls to Voice Messaging except calls from these phone numbers: - Click to enable and enter up to three (3) 10-digit phone numbers in the fields directly below.
- Which will be forwarded to this phone number: Enter a 10-digit phone number in the adjacent field to which *only* calls from the phone numbers listed above will be forwarded.

CommPilot Express OFF

CommPilot Express allows you to pre-configure four profiles to control your inbound calls. These profiles can quickly be changed using the web or phone when you leave your desk or when you are at remote location. If you use CommPilot Express, it takes precedence over some of your other services settings associated with processing incoming calls.

Current Profile: None

Available - In the Office

Also ring this phone number: _____

If Busy:

☒ Have Voice Messaging

☐ Forward to this phone number: _____

If No Answer:

☒ Have Voice Messaging take the call

☐ Forward to this phone number: _____

Available - Out of the office

When a call comes in:

☒ Have Voice Messaging take the call

☐ Forward to this phone number: _____

☐ Also notify me by e-mail when a call comes in: _____

Busy

☐ Send all calls to Voice Messaging except calls from these phone numbers: _____

Which will be forwarded to this phone number: _____

☐ Also E-mail me here when a call comes in: _____

Unavailable

☐ Send all calls to Voice Messaging except calls from these phone numbers: _____

Which will be forwarded to this phone number: _____

Have Voice Messaging take the call using:

☒ No Answer Greeting

☐ Unavailable Greeting

Save Cancel

[See Instructions](#)

- ☐ Also E-mail me here when a call comes in: - Click to ☒ select/enable and enter the email address the system should send notifications to when a call comes in while you are *Busy*.
 - ❖ **Unavailable**
 - ☐ Send all calls to Voice Messaging except calls from these phone numbers: - Click to enable and enter up to three (3) 10-digit phone numbers in the fields directly below.
 - Which will be forwarded to this phone number: Enter a 10-digit phone number in the adjacent field to which only calls from the phone numbers listed above will be forwarded.
 - ❖ Have Voice Messaging take the call using:
 - ☐ No Answer Greeting - Click to ☒ select/enable to instruct the system to use the No Answer Greeting you've setup for voicemails - OR
 - ☐ Unavailable Greeting - Click to ☒ select/enable to instruct the system to use the Unavailable Greeting you've setup for voicemails.
2. Click on the **Save** button to submit the changes to the profile and exit the dialog - or click the Cancel button to exit without saving any changes.

Connected Line Identification Restriction

On | Off Setting. The **Connected Line Identification Restriction** feature allows you to block your number from being shown when receiving a call. Members of your group can still see your number when they call you.

Click the adjacent drop-down arrow ► to access this feature's *Edit* view.

Manage Connected Line ID Restriction

1. Slide the toggle to **ON** or Off and click on the **Save** button to submit the change and close the *Edit* view.

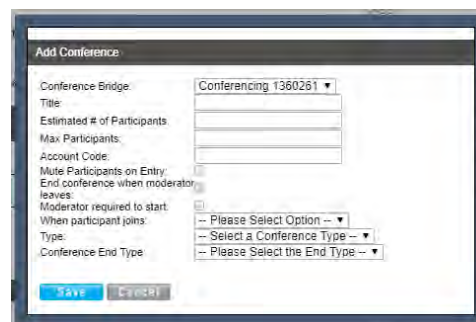

Conference List

The **Conference List** service allows provisioned users to manage settings for online audio conferences, the participants and moderators, and the conference recording downloads. Click the adjacent drop-down arrow ► to access this feature's setting management tools.

Add a Conference Listing

1. Click on the **Add** button to create a new conference.
2. Select the appropriate Conference Bridge type from the drop-down menu.
3. Define the following:
 - ❖ Title (a short description of the conference)
 - ❖ Estimated Number of Participants ____
 - ❖ Maximum Number of Participants ____

- ❖ Account Code _____ (an x-digit code for participants to use to access the conference)
4. Click to place a check within the adjacent box ☒ to enable the following options, as needed:
 - ❖ Mute Participants on Entry
 - ❖ End Conference When Moderator Leaves
 - ❖ Moderator Required to Start
 5. Define When Participant Joins: Select the appropriate action from the drop-down menu.
 6. Define Type: Select from *One Time* (Define the Date, Start Time, and Duration in HH and MM), *Reservationless* (Define the Start Date and End Type), and *Recurring* (Define the Recurrence information as required)
 7. Click the [Save](#) button to add the new Conference setup and close the criteria *view*.
 8. Click the [Save](#) button in *Conference List* settings to update the system and exit the *Edit* view.

Manage Conference Recordings

The following recording management tools are provided in the *Edit* view:

- A. Click on the [Recordings](#) link next to the appropriate Conference Listing to review any recording details and options.
- B. Click on the Download option and follow the steps to save a recording to a local file.
- C. Click on the [Delete](#) option next to a listing to remove the selected recording from the archive.

Edit a Conference Listing

1. Click on the *Edit* option next to the appropriate Conference listing to open the criteria setup view.
2. Make changes to the setup, as needed.
3. Click on the [Save](#) button to update the conference list information.

Delete a Conference Listing

Use Caution. The item and all its information are immediately removed from the system.

1. Click on the [Delete](#) option next to the appropriate Conference Listing to Immediately remove it.

Launch Moderator Tool

1. Click on the [Moderate](#) link next to the appropriate Conference Listing.
2. Enter your Password.
3. Click the [Launch Moderator Tool](#) button to open the pop-up view for the conference.

Download the Conference Microsoft Outlook Add-In

1. Click on the Download the Microsoft Outlook Add-In Link at the bottom of the *Conference List settings* view and follow the instructions to install the plug-in.

Manage Conference Moderators

1. Click [Edit](#) next to the appropriate Conference listing.
2. Highlight the appropriate Available Users and use the arrows ► ◀ to move them to/from the ConferenceModerators section.
3. Click the [Save](#) button to return to the [Settings](#) list when finished.

Custom Ringback User

As a [Custom Ringback User](#), you can select a ringback message to be played to specified callers based on your pre-defined criteria.

The criteria for each Custom Ringback you define can include up to 12 phone numbers or digit patterns and specific schedules. Click the adjacent drop-down arrow ► to access this feature's *Edit* view.

Add a Custom Ringback List

1. Click on the [Add](#) button to begin defining a Custom Ringback listing.
2. Description: Type a name that will display in the Custom Ringback list.
3. Enter or select from the following options, as needed:
 - ❖ Play custom Ringback: Click within the ☉ radial button to enable
 - ❖ Do not play custom ringback: Click within the ☉ radial button to enable
 - ❖ Selected Time Schedule: Use the drop-down menu to select the correct option. **OR...**
 - ❖ Selected Holiday Schedule: Use the drop-down menu to select the correct option.
Note: Only one schedule type (Time or Holiday) can be defined per list.
 - ❖ Audio Ringback: Click within the appropriate radio button to enable ☉ No personal Ringback, or URL, or Personal Ringback File and enter or use the drop-down menus to include the information required for your selection.
 - ❖ Calls From: Click to select ☉ Any Phone Number or ☉ Following Phone Numbers
 - ❖ As Needed: Click within the adjacent check boxes ☑ to include calls from Any private number, and/or Any unavailable number.
 - ❖ Specific Phone Numbers: Enter the 10-digit numbers in the fields provided, as needed to define calls from specific numbers.
4. Click on the [Save](#) button to submit the new Custom Ringback listing and close the *Edit* view.

Edit a Custom Ringback List

1. Click on the [Edit](#) link adjacent to the desired Custom Ringback listing.
2. Make changes to the setting options, as necessary.
3. Click on the [Save](#) button to submit the changes and return to [Settings](#).

Delete a Custom Ringback List

Use Caution. Once Delete is selected, the item and all its information are immediately removed from the system.

1. Click on the [Edit](#) link adjacent to the Custom Ringback listing you wish to remove.
2. Click on the [Delete](#) button to immediately remove the custom callback list from the system and exit the *Edit* view.

Direct Call Pickup with Barge-In

Dial into a call to another member of the group and if already answered, create a 3 way conference. Click on the adjacent drop down ▼ arrow to access this feature's *Edit* view and enable the following options:

1. Barge-In Warning Tone: Click **On** to enable the tone
2. Automatic Target Selection: Click **On** to enable.
3. Click the [Save](#) button to submit the change and close the view.

Do Not Disturb

On | Off Setting. When **Do Not Disturb** is enabled, (ON) incoming callers receive a message stating that you are busy and can be sent to your Voicemail if that service is also turned ON. Click the adjacent drop-down arrow ► to access this feature's *Edit* view.

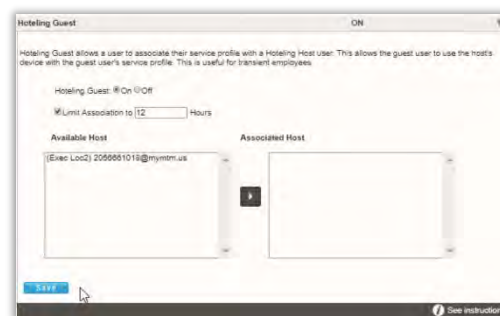

Manage Do Not Disturb

1. Click to toggle the switch to **On** or Off, as desired.
2. Ring Reminder: Click to place a check in the box ☒ if you wish to be reminded that DND is enabled.
3. Click the [Save](#) button to submit the change and exit the *Edit* view.

Hoteling Guest

The **Hoteling Guest** feature allows a user to associate their account profile with a [Hoteling Host](#) user's device/number, which means the Hoteling Guest user can utilize the Hoteling Host's device as though it is their own device/extension for a period of time. Click the adjacent drop-down arrow ► to access this feature's *Edit* view.

Manage Hoteling Guest

1. Click within a radial button to set Hoteling Guest to **On** or **Off**.
2. Limit Association to x Hours: Click to place a check mark to enable and then enter the number of Hours.
3. Highlight an Available Host number and use the arrow ► to move it to the Associated Host section to select it.
4. Click the **Save** button to submit the change and exit the *Edit* view.

Hoteling Host

The **Hoteling Host** service allows a user account/device to be designated as a *Host*. A user who is already setup as a [Hoteling Guest](#) can then select the Hoteling Host. When the two are associated, the Host allows the Guest to use the host's device with the guest's service profile (as though it is their own device/extension) for a period of time. Click the adjacent drop-down arrow ► to access this feature's *Edit* view.

Manage Hoteling Host

1. Hoteling Host: Click within a radial button to set to **On** (selected) or **Off** (default).
2. Enforce Association Limit 24 Hours: Click to place a checkmark in the box ☒ to enable the limitation. If the Association limit (24hrs) is not enforced, the Guest user is allowed to associate with the Host user's device indefinitely.
3. Access Level: Click to select **Enterprise** or **Group**.
4. Associated Guest: Enter the requested information (Last Name, First Name, Phone Number, Extension, and the Associated Date).
5. Click **Save** to submit and close the *Edit* view.

Music On Hold

On | Off feature. The **Music On Hold** feature may also be available to manage from the [Basic Features](#) card on your Dashboard/Home Page. Click the adjacent drop-down arrow ► to access this feature's *Edit* view.

Manage Music On Hold

1. Click within the appropriate radial button to turn **On** (selected) or **Off** (default).
2. Click the **Save** button to submit the change and close the view.

Outbound Caller ID Block

On | Off feature. When enabled, the **Outbound Caller ID Block** feature allows you to block your Caller ID information from being displayed when you call someone. Click the adjacent drop-down arrow ► to access this feature's *Edit* view.

Manage Outbound Caller ID Block

1. Click within the appropriate radial button to turn **On** ☒ or **Off** ☐ (default).
2. Click the **Save** button to submit the change and close the *Edit* view.

Pre-Alerting Announcement

The **Pre-Alerting Announcement** feature allows a user to play a file (audio or video) to all callers before the call is actually connected. Criteria for specific callers, times, etc. can be defined. It can be turned ON/OFF, as needed. Click the adjacent drop-down arrow ► to access this feature's *Edit* view.

Manage Pre-Alerting Announcement Usage

1. Define or select the following, as needed:

Pre-Alerting Announcement: On Off - Click within the appropriate radio button to enable/disable Pre-Alerting Announcement usage.
2. Choose an Audio or a Video Announcement file to use:
 - Default: use the group default announcement
 - URL: type the full URL where the file is stored
 - Personal Ringback File: select from any available file options within the drop-down tool.
3. Click on the **Save** button to save your basic *Pre-Alerting Announcement setup*.

Add a Pre-Alerting Announcement

1. Click on the **Add** button to open the Add Item dialog.
2. Description: Type a short title (E.g., Priority 1, Low Priority, etc.) for this announcement.
3. Select, from the following options, as needed:
 - ❖ Play pre-alerting announcement - Click to enable ☒.
 - ❖ Do not play pre-alerting announcement - click to disable ☐.
 - ❖ Selected Time Schedule: Choose an option from the drop-down menu. **or...**
 - ❖ Selected Holiday Schedule: Choose an option from the drop-down menu. **Note:** *Only one schedule type (Time or Holiday) may be selected for a Pre-Alerting Announcement.*
 - ❖ Any Phone Number – click to enable ☒/disable ☐.
 - ❖ Following Phone Numbers – click to enable ☐/disable ☐.
 - ❖ Any Private Number – enable ☐/disable ☐.
 - ❖ Any Unavailable Number – click to enable ☐/disable ☐.
 - ❖ Specific Phone Numbers – enter up to 12 (twelve) 10-digit numbers that will be included to receive the announcement when they call this number.
4. Click on the **Save** button to submit the new *Pre-Alerting Announcement* and return to **Settings**.

Activate/Deactivate Pre-Alerting Announcement

1. Click to choose ON or OFF and click **Save**.

Edit or Delete a Pre-Alerting Announcement

1. Click on the **Edit** link next to the appropriate Pre-Alerting Announcement listing to open the *Edit Item* dialog to make changes.
2. Modify the settings, schedules, or numbers, as needed, and click **Save** to update

OR click **Delete** to remove the Pre-Alerting Announcement from the list available to you for use.

Priority Alert

The **Priority Alert** feature allows a user to define criteria that triggers distinctive alerts for specific incoming calls. Click the adjacent drop-down arrow ► to access this feature's *Edit* view.

Add a Priority Alert

1. Click on the **Add** button to open the criteria dialog.
2. **Description:** Type a short title (E.g., Priority 1, Low Priority, etc.) for this alert.
3. Select, set, or define the following options, as needed:
 - ❖ **Use Priority Alert** – Click the radial button to ☒ enable or ☐ /disable.
 - ❖ **Do Not Use Priority Alert** – click to enable ☐/disable ☒.
 - ❖ **Selected Time Schedule:** Choose an option from the drop-down menu, **or...**
 - ❖ **Selected Holiday Schedule:** Choose an option from the drop-down menu.
Note: Only one schedule type (Time or Holiday) may be selected for each Priority Alert.
 - ❖ **Any External Phone Number** – click to enable ☐/disable ☒.
 - ❖ **Following Phone Numbers** – click to enable ☐/disable ☒.
 - ❖ **Any Private Number** – enable ☐/disable ☒.
 - ❖ **Any Unavailable Number** – click to enable ☐/disable ☒.
 - ❖ **Specific Phone Numbers** – enter up to 12 (twelve) 10-digit numbers that will be included for the alert.
4. Click on the **Save** button to submit the new *Priority Alert* and return to **Settings**.

Activate a Priority Alert

1. Click to place a check mark ☒ in the **Active** box next to a Priority Alert listing to activate it.

Edit a Priority Alert

1. Click on the **Edit** link next to the appropriate Priority Alert listing to open the *Criteria* dialog for editing.
2. Make changes to the settings, schedules, or numbers, as needed, and click **Save** to update.

Delete a Priority Alert

1. Click on the **Edit** link next to the appropriate Priority Alert listing to open its *Edit* view.
2. Click on the **Delete** button to remove the Priority Alert from the system.
Wait for the Deleted Successfully! message.
3. Close the dialog to return focus the *Priority Alert* list and click on the **Save** button to update and exit.

Privacy

The **Privacy** feature allows you to define your name and number privacy settings for Directories, Auto Attendants, and Hunt Groups.

Click the adjacent drop-down arrow ► to access this feature's *Edit* view.

Manage Privacy

- Click to enable ☒ or disable ☐ the following options, as needed:
 - ❖ Enable Directory Privacy - when enabled, removes the the name/number from group/enterprise directories.
 - ❖ Enable Auto Attendant Extension Dialing Privacy - when enabled, removes extension/number from Auto Attendant extension dialing.
 - ❖ Enable Auto Attendant Name Dialing Privacy - when enabled, removes the Name from Auto Attendant name dialing.
- Click the **Save** button to update the system with the new information and close the *Edit* view.

Receptionist Dashboard

This feature allows the user assigned to the Broadsoft Receptionist Client to select other users in their organization whom they wish to monitor for presence status within the Receptionist Dashboard client.

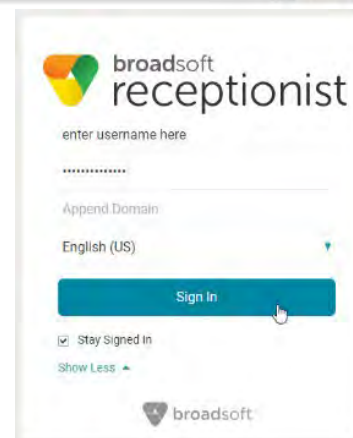

Monitor Users in Receptionist Dashboard

To select users to monitor within the application:

- Select from the listed lines in the **Available Users** section and use the arrow tools to move them to the **Monitored Users** section.
- Click **Save** when finished to submit changes and close the dialog.

Quick Access to the Receptionist Dashboard

- Click on the **Client App** link to open the sign in page for the Broadsoft Receptionist client application in a new browser window.

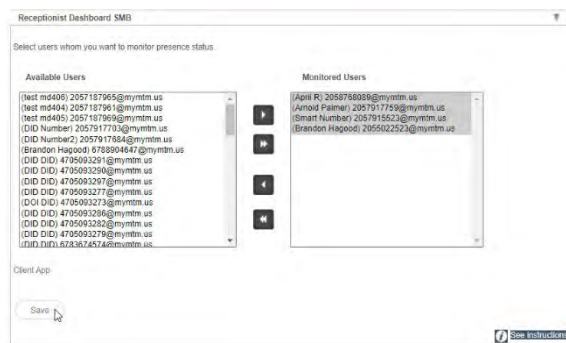

Receptionist Dashboard SMB

This feature allows the user assigned to the Broadsoft Receptionist SMB client application to select other users in their organization whom they wish to monitor for presence status within the Receptionist Dashboard application.

Monitor Users in Receptionist Dashboard SMB

To select users to monitor within the application:

1. Select from the listed lines in the **Available Users** section and use the arrow tools to move them to the **Monitored Users** section.
2. Click **Save** when finished to submit changes and close the dialog.

Quick Access to the Receptionist Dashboard SMB

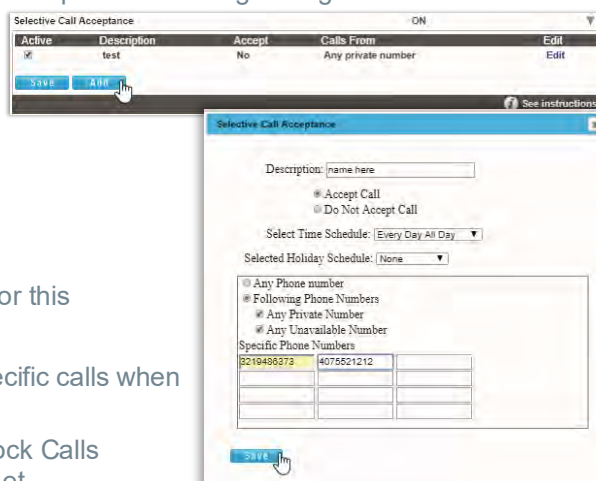

1. Click on the Client App link to open the sign in page for the Broadsoft Receptionist SMB client application in a new browser window.

Selective Call Acceptance

Selective Call Acceptance allows the user to create lists of specific incoming calling numbers and the criteria for acceptance (or Non-acceptance).

Click the adjacent drop-down arrow ► to access this feature's *Edit* view.

Add a Selective Call Acceptance List

1. Click on the **Add** button to open the criteria view.
2. Define the following criteria options, as needed:
 - ❖ **Description** – Required: A short descriptive title for this call block type.
 - ❖ **Accept Call** – Click to setup this list to accept specific calls when all the criteria defined here are met.
 - ❖ **Do Not Accept Call** – Click to setup this list to Block Calls specific calls when all criteria defined here are met.
 - ❖ **Select Time Schedule** – Choose a pre-defined Time Schedule from the drop-down menu. **OR**...
 - ❖ **Selected Holiday Schedule** – Choose a pre-defined Holiday Schedule from the drop-down menu.
Note: Only one schedule type (Time or Holiday) can be selected at a time.
 - ❖ **Any Number** – Select if any number dialed in will be accepted or blocked.
 - ❖ **Following Phone Numbers** – Select to define individual numbers to accept or block.
 - ❖ **Any Private Number** – Select to trigger for incoming calls with “Private” Caller ID.
 - ❖ **Any Unavailable Number** – Select to trigger for incoming calls with “Unavailable” Caller ID.
 - ❖ **Specific Phone Numbers** – Select and enter up to twelve (12) 10-digit phone numbers.
3. Click the **Save** button when finished to submit the changes and close the *Edit* view.

Edit a Selective Call Acceptance List

1. Click on the [Edit](#) link next to the appropriate Selective Call Acceptance listing to open the item's *Edit* view.
2. Make changes to the settings, schedules, or numbers - as needed.
3. Click on the [Save](#) button to update the Priority Alert information.

Delete a Selective Call Acceptance List

1. Click on the [Edit](#) link next to the appropriate listing.
2. Click on the [Delete](#) button and wait for the **Deleted Successfully!** message.
3. Click on the ☒ Exit icon to return to the list.
4. Click on the [Save](#) button to update the information and return to **Settings**.

Speed Dial

This feature allows users to define **Speed Dial** options for specific numbers using short 2 digit codes (00-99) prefixed by the # sign. Some 2-digit code combinations will conflict with Calling Feature (Star) Codes. These Star Codes are listed to assist the user. Click the adjacent drop-down arrow ► to access this feature's *Edit* view.

Add a Speed Dial Contact

1. Click on [Add Contact](#).
2. Enter First Name and Last Name.
3. Enter at least one (1) Phone Number (10 digits, no spaces or special characters) in the appropriate field (Home, Work, Mobile)
4. Primary Phone: Select the type using the drop-down menu (Home, Work, or Mobile)
5. Select from the available (unused) list of Speed Dial Codes using the drop-down menu (00-99). (Check the Star Codes listed for you to ensure there are no conflicts)
6. Click the [Save](#) button to submit the new Speed Dial Code and close the *Edit* view.

Edit a Speed Dial Contact

1. Click [Edit](#) next to a Speed Dial Contact in the list.
2. Make changes to name, numbers, primary assignment, or code, as needed.
3. Click the [Save](#) button to submit the change and close the view.

Delete a Speed Dial Contact

1. Click within the checkbox ☒ in the first column to select an item in the list.
2. Click on the [Delete](#) button below.

OR

1. Click the [Edit](#) link next to a Speed Dial Contact to open its Criteria dialog.
2. Click the [Delete](#) button.
3. Click the ☒ Exit icon to return to the *Edit* view.
4. Click [Save](#) to submit the changes and return to **Settings**.

Export Speed Dial Contact List

1. Click on the [Export](#) button to automatically download a .csv format report containing the current list of Speed Dial Contacts which can be saved to a local folder or printed, as desired.

Call Forwarding

The **Call Forwarding** service allows users to set up simple forwarding numbers for specific purposes and set the service to work Always, when you Don't Answer, have a Busy Line, or when you're Not Reachable.

Click the adjacent drop-down arrow ► to access this feature's *Edit* view.

Set Call Forwarding Number(s)

1. Click the toggle next to the appropriate forwarding option(s) to turn **ON** or Off.
2. Enter the 10-digit number or extension (no spaces or special characters) in the adjacent Forward To: field for the option(s) selected.
3. Forward After x Rings: Use the drop-down menu to select the number of rings before a call is forwarded.
4. Click the **Save** button to submit the changes and close the *Edit* view.

Edit Call Forwarding Numbers

1. Make changes as needed to forwarding numbers or enabled options.
2. Click the **Save** button to submit the change(s).

Delete Call Forwarding Numbers

1. Simply remove (erase) the number from the appropriate Call Forwarding type and click the **Save** button.

Call Forwarding Selective

The **Call Forwarding Selective** feature allows users to set up a default forwarding number, define very specific criteria that will trigger call forwarding, and receive a reminder when the feature is enabled. Note: All criteria defined must be met for this feature to work. Click the adjacent drop-down arrow ► to access this feature's *Edit* view.

Name	Active	Edit	Delete
test	Yes	Edit	Delete

Add a Call Forwarding Selective List

1. Click within the radial button for ☉ **ON** to enable or ○ Off to disable (default).
2. Enter the Default Call Forward To number (10-digits, no spaces or special characters).
3. Click within the check box ☒ to enable Play Ring reminder when a call is forwarded.
4. Click the **Save** button to update the system – this closes the view.
5. Reopen the Call Forwarding Selective *Edit* view.

6. Click the [Add](#) button to open the dialog further and define the selective forwarding trigger criteria.
7. Enter or select from the following:
 - ❖ **Description:** Type a short description or title for review in lists.
 - ❖ **Forward To:** Select an option from those you defined (see steps 1-4 above) using the drop-down menu.
 - ❖ **Selected Time Schedule:** Choose a Time Schedule using the drop-down menu. **Selected Holiday Schedule:** Choose a Holiday schedule using the drop-down menu. **Note:** *Only one schedule type (Time or Holiday) may be selected at a time.*
 - ❖ **Calls From:** Select an option using the drop-down menu (If *From Following Phone Numbers* is selected, enter up to twelve (12) 10-digit number(s) in the *From Following* fields provided below)
 - ❖ Click within the radial buttons ☐ to include forwarding to the default number for Anonymous caller ID and/or Unavailable caller ID.
8. Click the [Save](#) button to submit the data and close the view.
Optional: Repeat these steps to create multiple lists with alternative triggers or schedules.

Edit a Call Forwarding Selective List

Editing options found within the Call Forwarding Selective *Edit* view:

- A. Turn On/Off: Click within the radial button for **ON** to enable or **Off** to disable (default) and [Save](#).
- B. Change Default Call Forward Number: Type a new 10-digit phone number in the field provided and [Save](#).
- C. Ring Reminder: Click within the Play ring reminder... check box to enable ☒ / disable ☐ and [Save](#).
- D. Edit the Forwarding Trigger Criteria:
 1. Click on the [Edit](#) link next to the desired listing to open the *Call Forwarding Selective Criteria* dialog.
 2. Make changes to the trigger criteria (Description, Schedules, and/or specified numbers to forward), as needed.
 3. Click the [Save](#) button to submit the changes and close the view.

Delete a Call Forwarding Selective List

Caution: This action is immediate and cannot be undone.

1. Click on the [Delete](#) link next to the desired listing to instantly remove the selected listing.

Find Me – Simultaneous Ring

The **Find Me – Simultaneous Ring** service makes it easy to ensure you don't miss a call. It allows users to define up to ten (10) alternate phone numbers/ SIP URI addresses to ring when a call comes through and create multiple scenarios to use when the service is *On*.

All numbers defined here ring at the same time if they are enabled for usage. Click the adjacent drop-down arrow ► under View/Edit to access this feature's *Edit* view.

Setup Find Me – Simultaneous Ring Numbers

1. Click within the appropriate radial button to turn **ON** ☉ or **Off** ○ (default).
2. Do not ring my simultaneous ring numbers if I'm already on a call: Click to place a check in the box ☒ to enable this feature.
3. Phone Number / SIP URI: Enter up to ten (10) phone or SIP URI numbers in the fields provided.
4. Answer Confirmation Required: Click to place checkmarks in the box to enable this feature for a number.
5. Click the **Save** button when finished to save the data and close the view.

Setup Find Me – Simultaneous Ring Triggers

1. Click on the **Add** button beneath the number list to open the *Add Simultaneous Ring Criteria* list.
2. Description: (required) Type a short descriptive title for review in lists.
3. Define the following criteria options, as needed:

- ❖ **Setup Options:** Use the drop-down menu to define whether this criteria list will use Simultaneous Ring or not.
- ❖ **Select Time Schedule:** Choose a Time Schedule using the drop-down menu.

OR

- ❖ **Selected Holiday Schedule:** Choose a Holiday schedule using the drop-down menu. **Note:** *Only one schedule type (Time or Holiday) may be in use.*
- ❖ **Calls From:** Use the drop-down menu to choose an option (and enter up to **12** 10-digit phone numbers in the fields provided below if *Following Phone Numbers* is selected).
- ❖ **Anonymous Callers:** Click to add a check in the box ☒ to enable.
- ❖ **Unavailable Callers:** Click to add a check in the box ☒ to enable.

4. Click on the **Save** button when finished to submit the criteria and close the view.

Repeat to create additional criteria for different calling scenarios or schedules.

Edit Find Me – Simultaneous Ring

1. Make any changes to the Find Me settings.
2. Click the [Edit](#) link next to an item to modify the triggers.
3. Click the [Save](#) button(s) to submit the changes.

Delete Find Me – Simultaneous Ring

Caution: This action is immediate and cannot be undone.

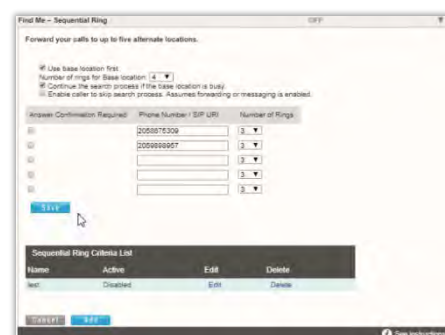

1. Click the [Delete](#) link next to an item in the *Simultaneous Ring Criteria List* section to remove the selection.
2. Click the [Save](#) button to update the list information and return to [Settings](#) when finished.

Find Me – Sequential Ring

The [Find Me – Sequential Ring](#) service allows the user to define and manage up to five (5) alternate phone numbers that can be set to ring one after the other based on specific criteria if an incoming call is not answered. Click the adjacent drop-down arrow ► to access this feature's [Edit](#) view.

Setup Find Me – Sequential Ring

1. Define the following basic setup options, as needed:
 - ❖ Use base location first: Click to turn On ☒ or Off ☐ (default).
 - ❖ Number of rings for Base location: Use the drop-down menu to select a number of rings.
 - ❖ Continue the search process if the base location is busy: Click within the check box to turn On ☒ or Off ☐ (default) to allow forwarding even when the base number is busy.
 - ❖ Enable caller to skip process: Click within the check box to turn On ☒ or Off ☐ (default).
2. Define the setup for the numbers that will be used for forwarding (in the order of their use):
 - ❖ Answer Confirmation Required: Click to place a check in the box to enable this.
 - ❖ Phone Number / SIP URI: Type a 10-digit number (no spaces or special characters) in the field(s) provided.
 - ❖ Number of Rings: Use the drop-down selection tool to choose a number of rings before trying the next number in the list (below).
3. Click the [Save](#) button to submit the changes and return to [Settings](#).

Setup Find Me – Sequential Ring Triggers

1. Click on the [Add](#) button beneath the number list to open the *Add Sequential Ring Criteria* dialog.
2. Add a Description: (required) Type a short descriptive title for review in lists.
3. Enter or select from the following trigger options, as needed:
 - ❖ Setup Options: Use the drop-down menu to define whether this list will use Sequential Ring.

- ❖ Select Time Schedule: Select a Time Schedule using the drop-down menu.
OR
 - ❖ Selected Holiday Schedule: Choose a Holiday schedule from the drop-down menu.
Note: *Only one schedule type can be used at a time when defining a set of criteria.*
 - ❖ Calls From: Use the drop-down menu to choose an option (and enter phone numbers in the fields provided below if **Following Phone Numbers** is selected).
 - ❖ Anonymous Callers: Click to add a check in the box ☒ to enable.
 - ❖ Unavailable Callers: Click to add a check in the box ☒ to enable.
4. Click on the [Save](#) button when finished to submit the trigger criteria and return to [Settings](#).

Edit Find Me – Sequential Ring

1. Make changes to numbers or Answer Confirmation settings, as needed.
2. Click the [Edit](#) link next to a list item and make changes to the trigger criteria, as needed.
3. Click the [Save](#) button to update the information when finished.

Delete Find Me – Sequential Ring

Caution: This action is immediate and cannot be undone.

1. Click the [Delete](#) link next to a list item.
2. Click the [Save](#) button to update the list and return to [Settings](#).

Push to Talk

The **Push to Talk** feature allows specific calls to be answered automatically via the speakerphone/ intercom function on the device. Users can define which numbers/callers within the directory will have **Push to Talk** access when calling you. Click the adjacent drop-down arrow ► to access this feature's **Edit** view.

Manage Push To Talk

1. Define the following options, as needed:
 - ❖ Auto Answer: Click to place a check in the box to automatically answer **Push to Talk** calls via speakerphone / intercom.
 - ❖ Outgoing Connection Type: Click within the radial buttons to select the appropriate connection type.
 - One Way: The originator can talk to the party receiving the call, but the receiver cannot respond.
 - Two Way: The originator and receiver can talk to each other.
 - ❖ Access Lists: Click within the radial button to select the appropriate option:
 - Allow Calls from Selected Users: Select users to allow below.
 - Allow Calls From Everyone Except Selected Users: Select users to disallow below.
 - ❖ Available Users: Highlight and use the arrows ► ◀ to move users to move selection(s) to and from the **Selected Users** section.
2. Click on the [Save](#) button to submit the changes and return to [Settings](#) when finished.

Virtual Number

Note: The Virtual Number feature requires an Administrator to have configured new numbers and extensions for use. The setting dialog allows a user to define up to ten (10) additional phone numbers and extensions to ring along with your primary number and extension. All additional numbers ring your phone(s) just like your primary phone. The user can specify a distinctive ringing pattern for each number if the phone device supports it. Only an administrator can configure new numbers and extensions for your virtual number. If virtual numbers are in use and you do not have additional virtual numbers available for selection in this dialog, contact your Administrator for assistance.

Click the adjacent drop-down arrow ► to access the *Edit* dialog view.

1. Select and or enter information for the following, as needed:
2. Distinctive Ring: Click to turn the distinctive ring capability for the numbers/extensions defined below ☺ On or ☹ Off.

- ❖ Phone Number: Select a pre-defined option from the drop-down menu as needed to define the ring for an extension/number.
- ❖ Extension: Type the correct extension in the field provided for each line (as needed).
- ❖ Ring Patterns: Choose an available ring pattern from the drop-down menu, as needed.
- ❖ Description: Type a short description in this field to assist with future edits/changes.

3. Click on the [Save](#) button to submit the new information and return to the *Settings* list view.

Contact Centers

The settings for [Contact Centers](#) are generally pre-defined by an Admin during the installation and implementation of a Contact Center, or upon the addition of new users. However, some Supervisors or Managers may receive additional access to modify limited settings used in conjunction with the Contact Center features within their individual accounts. Remember, these personal account settings do not override the Enterprise Contact Center Agent or Supervisor settings.

The adjacent drop-down arrow ► opens this feature's *Edit* view.

Manage Contact Center Settings

1. Define the following options, as needed:

- ❖ ACD State: Select an option from the drop-down menu.
- ❖ Make outgoing calls as: Click to enable and select the appropriate menu option.
- ❖ Use Guard Timer Setting: Click to select for either Default or User.
- ❖ Enable guard timer: Click ☒ to enable and select the appropriate number of *Seconds* using the drop-down menu.
- ❖ Use Agent Unavailable Settings: Click to select either Default or User settings.
- ❖ Click ☒ to enable/ ☐ disable Force agent to unavailable on Do Not Disturb activation.
- ❖ Click ☒ to enable/ ☐ disable Force agent to unavailable after X consecutive bounced calls and specify the number.
- ❖ Click ☒ under Join Contact Center to enable your account for contact center usage.
- ❖ Select an alternate Skill Level using the available drop-down menu options.

2. Click the [Save](#) button when finished to submit the changes and close the view.

Client App

The **Client App** feature in the *Settings* page provides authorized users with an access point for the Contact Center or Supervisor client application sign in page. Instructions are provided in the *Edit* view.

Supervisor

The **Supervisor** feature in the *Settings* page offers authorized users the ability to manage their Contact Center agent assignments. Click the adjacent drop-down arrow ► to access this feature's *Edit* view.

Manage Supervisor Settings

1. Click on the **Edit** link to view the Agent assignment options.
2. Highlight the agents you wish to select and use the ► ◀ arrows to move Available Agents to Assigned Agents or vice versa.
3. Click the **Save** button when the changes are complete to update the system and close the *Edit* view.

Fax-to-Email / Email-to-Fax

1. Click on the **Edit** link to view the setting options.
2. Enter email address below: Enter the email address to use for Fax.
3. Click the **Save** button when the changes are complete to update the system and close the *Edit* view.

Distribution List

The **Distribution List** feature allows the user to create one or more messaging distribution lists (up to 14) that will send Voicemail notifications using the portal setup when new messages are left on voicemail. Click the adjacent drop-down arrow ► to access this feature's *Edit* view.

Manage Distribution List

1. Click to select a Distribution List Number from the options at the top.
2. Enter the Description (name).
3. Type the Phone Number/Ext (10-digits; no spaces or special characters).
4. Click the [Add](#) button and click [Save](#) to submit the data and exit.

Enterprise Directory

The [Enterprise Directory](#) feature offers an online listing of all phone service information within the Enterprise directory for the account. Click the adjacent drop-down arrow ► to access this feature's *Edit* view.

Print Enterprise Directory Summary

1. Click on the [Enterprise Directory Summary](#) Link to view a summary listing of the Phone List to print using your browser feature.

Name	Phone Number	Extension	Department	Mobile	Email Address	Group ID
110001101-12 Default Conference Audio						110001101-12
110001101-13 Default Conference Audio						110001101-13
110001101-14 Default Conference Audio						110001101-14
110001101-15 Default Conference Audio						110001101-15

DID.DID	4709082254	2254				110001101-24

Print Enterprise Directory Details

1. Click on the [Enterprise Directory Details](#) link to view a detailed phone list that is ready to print using your browser features.

Time Schedule

The **Time Schedule** feature allows users to schedule call behaviors (send to voicemail, etc.). Click the adjacent drop-down arrow ► to access this feature's *Edit* view.

Add a Schedule

1. Click to place a check mark ☒ next to Business Hours or Holiday Schedule.
2. Click the **Add** button for that option.
3. Enter a unique Schedule Name.
4. Click the **Save** button when finished.

View a Schedule

Some schedules are read-only in this view. Simply click **View** to review the schedule's current setup.

Delete a Schedule

Use caution. This action removes the schedule and any underlying events and cannot be undone.

1. Click within the checkbox ☒ adjacent to a *Schedule* to select it.
2. Click on the **Delete** button within that section to remove the Schedule and any events within it.

Add a Time Schedule Event

1. Click to place a checkmark ☒ next to the preferred schedule option (Business Hours or Holiday).
2. Click **Add Event**.
3. Event Name – Type a short title for review in lists.
4. Define the following as needed for a specific event type:
 - ❖ Start Date – select the date the event begins.
 - ❖ Select the All Day Event checkbox ☒, OR define the following:
 - ❖ Start Time, End Time, and/or End Date
 - ❖ Recurs – Select from Never, Daily, Weekly, Monthly by Day, Monthly by Week, Yearly by Day, Yearly by Week
 - ❖ Recur every X (Months or Year and/or the Numerical day of the month).
 - ❖ End – Select from *Never*, *After (x # of occurrences)*, or *Date* (and set the end date).
 - ❖ Announcement Start and Announcement End - Optional.
Select a Start announcement from the drop-down list to use at the beginning of the period defined for the event. Select an End Announcement from the drop-down list to play when the event is slated to stop.

Note: An announcement defined for the End *may* play to callers if an announcement/prompt is not defined for regular hours, none is specified at the start of the next event, or if there are no other schedules with events that have prompts/announcements that will trigger to play at the time this event is slated to end.

Note: *This specialized and optional feature is only for use in Holiday Schedules and in tandem with the location/group level Auto-Attendant Tree features. It is not for use with personal Business Hours schedules. Start and End announcements may be used with AA tree holiday prompt schedules in events that run during 1 single day (within the hours of 12:00am-11:59pm in one 24 hour period). The Start and End announcements are not optimized for use in any other schedules, events set to be recurring, or for events that span multiple days and/or that are defined to cross the midnight hour.*

See also: [Announcement Repository](#).

5. Click [Save](#) when finished to submit the data and return to [Settings](#).

Edit a Time Schedule Event

1. Click on the [Edit](#) link next to the desired Time Schedule option.
2. Make changes to the event name, date(s), time(s) or recurrences.
3. Click [Save](#) when finished to submit the changes and close the view.

Delete a Time Schedule Event

Use caution. This action immediately removes the event and cannot be undone.

1. Click within the checkbox ☒ adjacent to a Schedule to select it.
2. Click the [Edit](#) link next to the selected item to review the Schedule's events.
3. Click within the checkbox ☒ adjacent to an *Event* listing to select it.
4. Click on the [Delete Event](#) button.
5. Click on the [Save](#) button to refresh the Schedule data and exit.

TRUNKING

The **Trunking** page offers a searchable view of the current SIP Trunk Group(s) on the account and offers access to review and manage individual services or users assigned to a SIP Trunk Group. The data displayed here includes **Location ID**, **Trunk Group ID**, **Pilot DID**, **Call Paths**, and the trunk group **Service Number** count.

Location	Location ID	Trunk Group ID	Pilot DID	Enterprise CP	Location CP	Services Number	Edit
Location 2	3100000000-02	208730607RUNK	208730608	T	2	1	
Sip Trunk Location	3100000000-05	208730607RUNK	208730608	T	2	1	
Helen's House of Chosen Sins	3100000000-03	208730607RUNK	208730608	T	1	0	
Sip Trunk Location	3100000000-04	208730607RUNK	208730608	T	1	0	

Section Search

Locate data found within the table below.

Column Links

The link in the **Location ID** column provides access to review the list of **Services & Users** assigned to the Trunk group. The **Pilot DID** link opens the User Services

Dashboard and Profile for the account.

Edit

The **Edit** button opens the SIP Trunk Group settings for review and maintenance.

Click on the **Edit** icon adjacent to the Trunk Group listing (far right column) to open the **Trunk Group Features** page and manage the call forwarding settings and usage.

General settings might include any features defined for organizational use. For Example:

6783674584		
Trunk Group Features	ON/OFF	VIEW/EDIT
Call Forward Always		
Unreachable Destination		

Call Forward Always

This feature defines the overall behavior of Forwarding and Routing for the SIP Trunk. The default action for *Call Forwarding Always* is **None**.

1. Click on the arrow ► under the View/Edit column to open the *Edit* view for this service.
2. Click to enable one of the following alternate options, as needed:
 - ❖ Forward to Phone Number/SIP-URI: and enter the 10-digit number (no spaces or special characters).
 - ❖ Reroute to Trunk Group and select the group using the drop-down menu.
3. Click the **Save** button when finished to submit the data and close the settings dialog.

Unreachable Destination

Manage the behavior for calls when the dialed destination is unreachable. The default action is **None**.

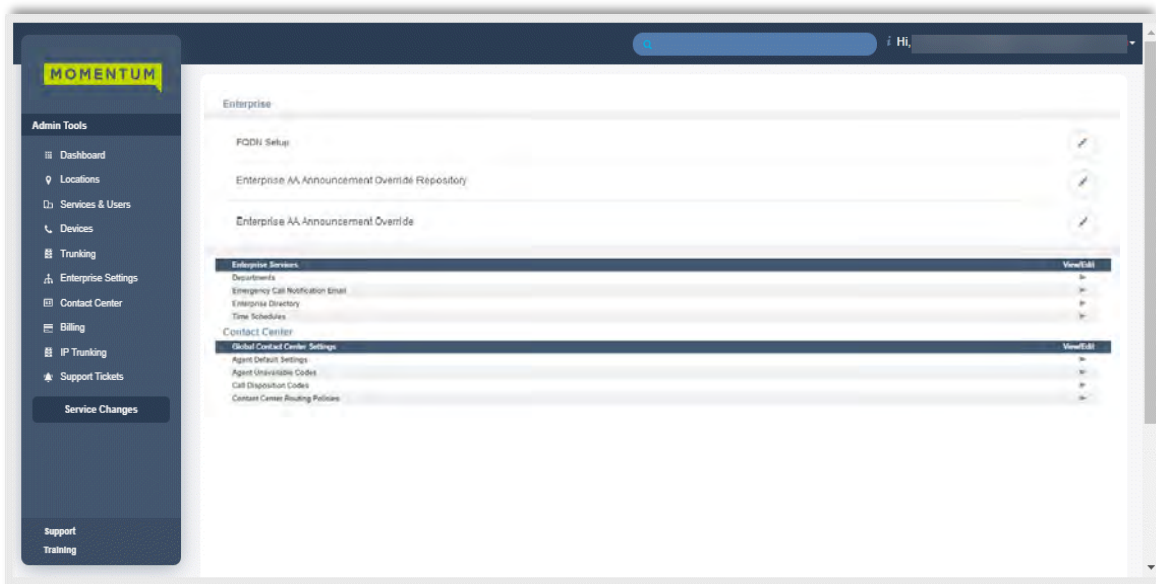

1. Click on the arrow ► under the View/Edit column next to a feature to open its *Edit* view.
2. Click to enable one of the following alternate options, as needed:
 - ❖ Forward to Phone Number/SIP-URI: and enter the 10-digit number (no spaces or special characters).
 - ❖ Reroute to Trunk Group and select the group using the drop-down menu.
3. Click the **Save** button when finished to submit the data and close the settings dialog.

Note: Any Trunk Group settings are made available for administration per organizational requirements. For more maintenance instructions, refer to the sections in this guide that describe these other features.

ENTERPRISE SETTINGS

The **Enterprise Settings** menu option opens that section for review and administration of the global feature settings. In this section the Admin may elect to manage FQDN Setup by clicking on the adjacent **Edit** icon, or simply click on an ► arrow under the View/Edit column adjacent to the desired Enterprise Service or the Contact Center feature to view the **Edit** dialog and manage the settings.

Enterprise FQDN Setup

Manage the default **Fully Qualified Domain Names (FQDNs)** to be used by the Enterprise's devices that are in inventory on the account. Any FQDNs that are defined here at the Enterprise level may be assigned to the devices in the organization's inventory, as necessary.

Add a Fully Qualified Domain Name (FQDN)

In the Enterprise Settings view:

1. Click the **Edit** icon adjacent to FQDN Setup.
2. Enter a new Fully Qualified Domain Name in the text field.
3. Click **Save** when finished to update the list of available FQDNs and close the dialog.

Delete a Fully Qualified Domain Name (FQDN)

Use caution. This action is immediate and cannot be undone. Any devices setup to use the deleted FQDN must be edited to select an existing FQDN.

In the Enterprise Settings view:

1. Click the **Edit** icon adjacent to FQDN Setup.
2. Click the **Delete** button adjacent to an existing FQDN listing.
3. Click **Save** when finished to update the system and close the dialog.

Enterprise Departments

SuperAdmin-level access to manage departments for the entire organization.

Add a Department

In the [Departments](#) edit view:

1. Click the [Add](#) button to create a new Department.
2. Type the Department Name.
3. Select the Parent Department from the drop-down menu options.
4. Click the [Save](#) button to submit the changes and close the dialog.

Edit a Department

1. Click on the [Edit](#) link next to a department.
2. Make the changes you wish to make.
3. Click the [Save](#) button to submit the changes and close the dialog.

Delete a Department

Caution: This action is immediate and cannot be undone

1. Click on the [Edit](#) link next to a department.
2. Click the [Delete](#) button to remove the selected department and return to Enterprise Settings.

Enterprise Emergency Call Notification Email

Manage the main (default) email address for notifications when a 911 call is made from a number/device within the Enterprise account. Administrators may review the current email address used for 911 call notifications if one has been defined for the Enterprise, add, or modify the address, send a test email to the address, and allow this default address to be overridden at the Location level by authorized Location/ Group Admins.

See also: [Locations & Groups - Emergency Call Notification Email](#)

In the *Enterprise Settings* view:

1. Click on the [View/Edit](#) drop-down arrow adjacent to **Emergency Call Notification Email** to review, add, or edit the default Enterprise email address that will receive notifications of 911 emergency calls from system users:

2. **Emergency Call Notification Email:** Enter one (1) email address that will receive emergency call notification messages when a user dial 911 from within the Enterprise system. This address is the default email address on file for receipt of these messages for the Enterprise.
 - ❖ **Optional: Override Email for Groups/Locations:** Click to place a check in the box to allow Location/ Group Administrators to override the Enterprise level email address and define alternate email addresses that will receive the notifications when calls to 911 are made from system phones assigned to the location. You may also click to remove the check mark and disable the override option in Locations. This also reverts all locations to use the Enterprise default email for 911 Call Notifications. **Note:** This check box disables the use of the Enterprise level email address. If all emails should go to the email entered here at the Enterprise level, do not click to enable this functionality.
3. Click the [Save](#) button when finished to submit the changes, update the system (and auto-populate the Locations email addresses), and close the Edit view. Synchronization is generally quick, but it can take up to 15 minutes to fully update all necessary areas within the system to display the email address defined here.

Optional: Test Email: Return to the [Emergency Call Notification Email Edit](#) view and click on the Test Email button to send a test email from the system to the address listed in the Emergency Call Notification Email field. A validation email is sent by the system to the address on file. No further action is needed or required when the email is received.

Note: A test email may only be sent **after** the address has been saved.

Tip: As a simple way to ensure that appropriate parties are notified via a single default email address, consider entering a distribution email address here at the Enterprise Level that includes all the management and supervisory staff in the organization who should be informed and leave the override option unchecked.

Enterprise Directory

The **Enterprise Directory** feature offers an online listing of all phone service information within the Enterprise directory for the account.

Print Enterprise Directory Summary

1. Click on the **Enterprise Directory Summary** Link to view a summary listing of the Phone List to print using your browser feature.

Print Enterprise Directory Details

1. Click on the **Enterprise Directory Details** link to view a detailed Phone List that is ready to print using your browser feature.

Enterprise Time Schedules

The **Enterprise Time Schedule** feature allows Admins to setup and manage the global business or holiday schedules that users can select for features that modify call behaviors, like Call Forwarding and Call Forwarding Selective.

Add a Schedule

1. Click to place a check mark next to the preferred option (☒ Business Hours or ☒ Holiday Schedule).
2. Click the **Add** button under that option.
3. Enter a unique **Schedule Name**.
4. Click the **Save** button when finished.

Time Schedule ON

Business Hours Schedule Edit

☐ Enterprise Test Edit

Cancel **Add** **Delete**

Holiday Schedules Edit

☐ Thanksgiving Edit

☐ Christmas Edit

Cancel **Add** **Delete**

[See Instructions](#)

Delete a Schedule

Caution: This action is immediate and cannot be undone.

1. Click within the check box ☒ adjacent to a Schedule to select it.
2. Click on the **Delete** button within that section to immediately delete the Schedule and any events attached to it. This will affect any features that have selected this Schedule to trigger call behaviors (for example: Call Forwarding, Call Forwarding Selective, etc.)

Add an Event

1. Click to place a check mark ☒ next to the preferred option (Business Hours or Holiday Schedule)
2. Click **Add Event** to review and define the following options, as needed for a specific event type:
 - ❖ **Event Name:** Type a short title for review in lists.
 - ❖ **Start Date:** Select the date the event begins.
 - ❖ Select the **All Day Event** check box ☒, OR define the **Start Time**, **End Time**, and/or **End Date**
 - ❖ **Recur:** (Never, Daily, Weekly, Monthly by Day, Monthly by Week, Yearly by Day, Yearly by Week).
 - ❖ **Recur every x** (Months or Year and/or the Numerical day of the month).
 - ❖ **End:** Never, After (x # of occurrences), or Date (set the end date).
3. Click on the **Save** button when finished to submit the data and close the pop-up dialog.

Edit an Event

1. Click on the [Edit](#) option next to the desired Time Schedule option.
2. Make changes to the Event Name, Date(s), Time(s) or recurrences.
3. Click [Save](#) when finished.

Delete an Event

Caution: This action is immediate and cannot be undone.

1. Click within the check box ☒ adjacent to a Schedule to select it.
2. Click the [Edit](#) option to view the Time Schedule Edit dialog and the list of Events.
3. Click within the check box ☒ adjacent to an Event to select it.
4. Click on the [Delete Event](#) button.
5. Click on the [Save](#) button to update the Schedule and close the dialog.

Enterprise Agent Default Settings

Define and manage the default level Contact Center settings for agents to handle Guard Time settings and Agent Unavailable behaviors.

Manage Enterprise Agent Default Settings

1. Select and define the following settings for Agents assigned to the Contact Center:
 - ❖ Use Guard Time Settings: Click within the radial button to enable either ☒ Default or ☐ Enterprise.
 - ❖ Click within the box ☒ to Enable guard time and select the amount of time in *Seconds* using the drop-down menu.
 - ❖ Use Agent Unavailable Settings: Click within the radial button to enable either ☒ Default or ☐ Enterprise.
 - ❖ Click within the box ☒ to enable Force Agent to unavailable on do not disturb activation.
 - ❖ Click within the box ☒ to Force Agent to unavailable on personal calls.
 - ❖ Click within the box ☒ to Force Agent to unavailable after x consecutive bounces and specify the number of bounces using the drop-down menu.
2. Click the [Save](#) button when settings are defined to submit the changes and close the dialog.

Enterprise Agent Unavailable Codes

Enable, add, and manage activation and usage of the codes that agents will use when unavailable for Contact Center calls. Click on the arrow ► under the View/Edit column next to this feature to open its [Edit](#) view.

Enable Agent Unavailable Codes

- Select and define the following settings, as needed:
 - Click within the box ☒ to Enable Agent Unavailable Codes.
 - Choose the Default Code on Do Not Disturb using the drop-down menu.
 - Choose the Default Codes personal calls using the drop-down menu.
 - Choose the Default Codes on consecutive bounces using the drop-down menu.
 - Click within the box ☒ to enable Force use of Agent Codes Unavailable with default code and select a code using the drop-down menu.

Active	Code	Description	Edit
<input checked="" type="checkbox"/>	55	test	Edit
<input checked="" type="checkbox"/>	71	1971	Edit
<input checked="" type="checkbox"/>	777	Assisting Others	Edit

- Click the [Save](#) button to submit the data and close the dialog.

Add Agent Unavailable Codes

- Click on the [Add](#) button to begin adding a new code.
- Click within the **Active** check box ☒ to enable the new code for usage.
- Type the new **Code** in the field provided.
- Type a **Description** / title that will be displayed for review in lists.
- Click the [Save](#) button and close the dialog.
- Optional:* Review the list of codes and click within the boxes adjacent to each to Activate ☒ or Deactivate ☐ individual items.
- Click the [Save](#) button to submit the changes and close the *Agent Unavailable Codes* edit settings dialog.

Edit Agent Unavailable Codes

- Make changes to the following, as needed:
 - Click to Enable/Disable Agent Unavailable Codes (all).
 - Choose alternate default code selections.
 - Click to ☒ Activate or ☐ disable individual codes.
 - Click on the [Edit](#) link next to a Code in the list to change the code or the description, or to Delete it.
- Click the [Save](#) button(s) to submit the changes and close the dialogs.

Active	Code	Description	Edit
<input checked="" type="checkbox"/>	55	test	Edit
<input checked="" type="checkbox"/>	71	1971	Edit
<input checked="" type="checkbox"/>	777	Assisting Others	Edit

Enterprise Call Disposition Codes

Add and manage the enterprise level Call Disposition codes that are used for your organization's Contact Center(s). Click on the arrow ► under the View/Edit column next to a feature to open its [Edit](#) view.

Add Call Disposition Codes

1. Click the [Add](#) button to create a new Call Disposition Code.
2. Click within the **Active** check box to Enable ☒ (default) or Disable ☐ the new code.
3. Enter the new **Code** in the field provided.
4. Type the **Description** (name) in the field provided.
5. Click the [Save](#) button to submit the new data and close the dialog.

Edit Call Disposition Codes

1. In the Call Disposition Codes [Edit](#) view, you may make the following changes:
 - ❖ **Activate/Deactivate Call Disposition Codes:** Click within the **Active** check box to Enable ☒ or Disable ☐ the selected code.
 - ❖ **Edit Call Disposition Code information:** Click on the [Edit](#) option next to an item in the list to review and modify the **Code** and **Description** information.
2. Click the [Save](#) button(s) to submit all changes and close dialogs.

Delete Call Disposition Codes

Caution: This action is immediate and cannot be undone.

1. Click within the check box ☒ in the [Select](#) column next to a listed code.
Example: Agent Unavailable Code.
2. Click on the [Delete](#) button to remove the code from the system.
3. Click the [Save](#) button(s) to submit all changes and close dialogs.

Enterprise Contact Center Routing Policies

Administrator access to define and manage the type of call routing and/or the call priority level(s) to be used for each of your organization's Contact Center(s). Click on the arrow ► under the View/Edit column next to a feature to open its [Edit](#) view.

The screenshot shows a configuration window for 'Routing Policy'. At the top, there are two radio buttons: 'Longest Wait Time' (which is selected) and 'Priority Order'. Below this, there is a table with two columns: 'Contact Center Name' and 'Priority'. The table contains one row with the text 'Call Center Renamed2' in the first column and the number '1' in the second column. At the bottom left of the window is a blue 'Save' button.

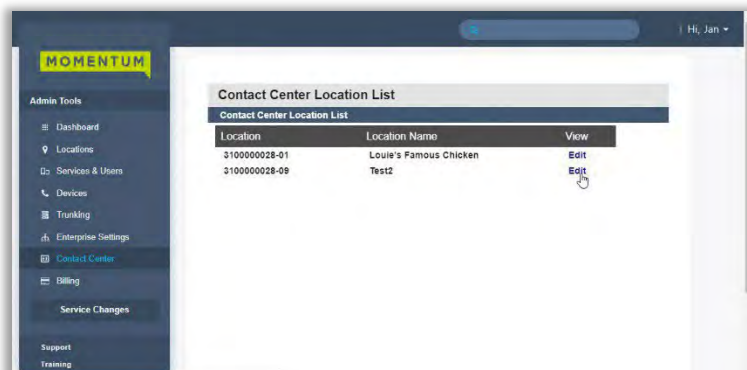

Contact Center Name	Priority
Call Center Renamed2	1

Manage Enterprise Contact Center Routing Policies

1. Select an overall Routing Policy:
2. Click the radial button next to ☒ Longest Wait Time (default) or Priority Order.
3. If Priority Order is selected, define the order of priority (1, 2, 3...) for each of the listed Contact Centers.
4. Click on the [Save](#) button to submit the changes and Exit.

*CONTACT CENTER

The **Contact Center** page provides authorized Admins with access to manage call flow and queue configurations and edit Contact Center settings. Simply select a Contact Center in your list and click the adjacent **Edit** link to manage its settings, or click the **Configure** link to define the Basic, Advanced, and Routing Policy features.

Edit Contact Center Queues

The **Edit** option for a listing in the **Contact Center** page opens the **Contact Center Queue List Edit** view where the fundamental activation, call behavior, Quality of Service, queuing, reporting, and log in requirements are defined.

Edit Contact Center Basics

- Make changes to the following, as needed.
 - Name:** Type the name of the Contact Center that will display in lists and reports.
 - Calling Line ID:** Type the Last Name and the First Name
 - Department:** Choose the appropriate department from the drop-down menu.
 - Language:** Select a language from the drop-down menu.
 - Time Zone:** Choose the appropriate option for the location of the contact center.
- Click the **Save** button or continue to the next section.

Edit Contact Center Group Policy Settings

Group Policy section:

- Define as needed:
 - ☐ **Circular:** hunt agents in order listed on queue profile, starting where the last call left off.
 - ☐ **Regular:** Send calls to first available agent on list, always beginning at the top of the list.
 - ☐ **Simultaneous:** Ring all agents at the same time; first user to answer handles the call.
 - ☐ **Uniform:** Send calls to the agent that has been idle the longest.
 - ☐ **Weighted Call Distribution:** (enables Skills-based routing) Distribute calls to idle agents per their Contact Center profile skill percentage assignments.
- Click the **Save** button or continue to the next section.

Edit Contact Center Bandwidth and QoS Settings

1. Select from the following setting options, as needed:
 - ❖ Preferred announcement / music codec for external calls: Use the drop-down menu to select from None, G.711, G.726, G.729 or AMR
 - ❖ Preferred announcement / music codec for internal calls: Use the drop-down menu to select from None, G.711, G.726, G.729 or AMR
2. Click the [Save](#) button to submit all changes and close the dialog - or continue to the next section.

Edit Contact Center Settings

1. Select and/or define the following Setting options, as needed:
 - ❖ Queue Length calls: Enter the minimum number of calls for the queue to trigger.
 - ❖ Enable video support: Click within the check box to ☒ enable/ ☐ disable
 - ❖ Play Ringing when offering call: Click within the check box to ☒ enable/ ☐ disable.
 - ❖ Allow callers to dial to escape out of queue: Enter the digit(s) a caller may dial to exit the queue.
 - ❖ Reset caller statistics upon entry to queue: Click within the check box to ☒ enable/ ☐ disable.
2. Click the [Save](#) button to submit all changes and close the dialog - or continue to the next section.

Edit Contact Center Reporting

1. Select or define the following Reporting options, as needed:
 - ❖ Enable Contact Center External Reporting: Click within the check box to ☒ enable/ ☐ disable.
 - ❖ CCRs: Choose an option from the drop-down menu.
2. Click the [Save](#) button to submit all changes and close the dialog - or continue to the next section.

Edit Contact Center Agent Settings

1. Select or define the following Agent Setting options, as needed:
 - ❖ Allow agents to join Contact Centers: Click within the check box to ☒ enable/ ☐ disable.
 - ❖ Allow Call Waiting on Agents: Click within the check box to ☒ enable/ ☐ disable.
 - ❖ Enable calls to agents in wrap-up state: Click within the check box to ☒ enable/ ☐ disable.
 - ❖ Enable maximum ACD wrap-up timer_MM_ : _SS_ : Type the ADC wrap-up time limit in Minutes and/or Seconds
 - ❖ Automatically set agent state to ____ after call: Click within the check box to ☒ enable/ ☐ disable.
2. Click the [Save](#) button to submit all changes and close the dialog.

Reset Contact Center Queue Password

Manage the password for the Contact Center.

1. Click on the [Reset Contact Center Queue Password](#) link at the bottom of the dialog.
2. Type a new Password.
3. Retype the new Password.
4. Click the [Save](#) button to submit the change to the Call Center queue password.

Configure Contact Center Queue Features

The [Configure](#) option for a listing in the Contact Center page opens the *Contact Center Queue List* where the Basic, Advanced and Routing Policy feature settings may be managed. Activation for usage of many of these features must also be defined in the [Edit Contact Center Queue](#) section.

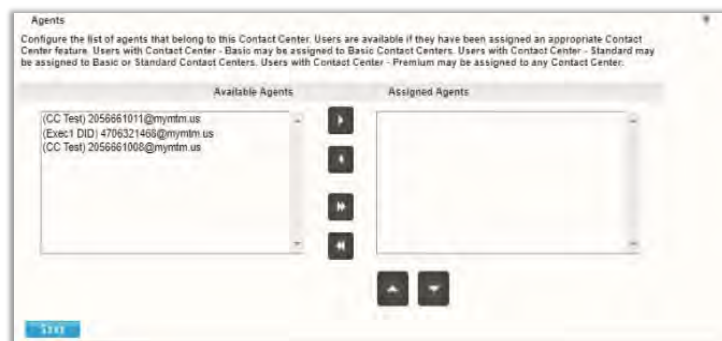

1. Click on the [Configure](#) link for a Contact Center listing to open the [Configure Contact Center Queue](#) dialog and review the features that may be administered.
2. Click on the arrow ► under the View/Edit column next to a feature to open its [Edit](#) view.

Contact Center Agents

Configure the list of agents that belong to the selected Contact Center. Users are available for selection if they have been *assigned* an appropriate Contact Center feature level.

- *Users with a **Contact Center - Basic** license may be assigned to Basic Contact Centers.*
- *Users with a **Contact Center - Standard** license may be assigned to Basic or Standard Contact Centers.*
- *Users with a **Contact Center - Premium** license may be assigned to any Contact Center.*

1. Use the ◀▶ arrows to move selected Available Agents to/from the Assigned Agents section.
2. Use the ▲▼ arrows to select and reorder the agents in the Assigned Agents list.
3. Click the [Save](#) button when finished to submit the data and close the dialog.

Contact Center Status & Statistics

Configure how the status and statistics of this Contact Center's activity are viewed and setup the email recipient(s).

1. Select or enter required information for the following options for statistics and reporting, as needed:
 - ❖ **Daily Report:** Click to enable/disable.
 - ❖ **Statistics Source:** Select the appropriate option from the drop-down menu list.
 - ❖ **Reporting Period:** Select the appropriate number of days from the drop-down menu list, as needed.
 - ❖ **Email Addresses:** Enter email addresses in the fields provided, as needed.
2. Click the **Save** button when finished to submit the data and close the dialog.

Contact Center Supervisors

Manage the Supervisors and Agent assignments for this contact center.

1. Select Available Supervisors and use the arrows to move the selections to the *Assigned Supervisor's* section.
2. Click on the Assign Agents tab.
3. Choose a Supervisor from the drop-down menu.
4. Select from the Available Agents and use the arrows ◀ ▶ to move the selections to the Assigned Agents section.
5. Repeat steps 3+4 for other Supervisors.
6. Click on the **Save** button when finished to update the system and return to the Configure Contact Center Queue dialog.

Contact Center Announcements

Basic and Premium. Define the Announcement types and audio file selections for the Contact Center.

Entrance Message

1. Select and define the following Entrance announcement options, as needed:
 - ❖ ☒ **Play Entrance Message**
 - ❖ ☒ **Entrance Message is mandatory** when played.
 - ❖ **Audio:** Select desired option:
 - ⊙ **Default** – play the system message.
 - ⊙ **URL** - enter the URL(s) in order of play.
 - ⊙ **Custom** - select File(s) in order of play.
2. Click the **Save** button when finished to submit the data and close the dialog.

Estimated Wait Message

1. Select the **Estimated Wait Message** tab and define the following setting options:
 - ❖ Enable estimate message for queued calls: Click to place a check in the box ☒ to enable Estimate Wait Messages.
 - ❖ Announce Queue Position.
 - Play message for callers in queue positions: X (or lower): Enter the highest number in queue that will hear the queue position announcement.
 - ❖ Play high volume message: Click to place a check in the box ☒ to enable.
 - ❖ Announce Wait time: Click to ☒ enable/ disable
 - ❖ Play message to callers with a wait time of X (minutes or lower): Enter the highest number of minutes a caller will be waiting when the wait time message will be allowed to play.
 - ❖ Play high volume message: Click to place a check in the box ☒ to enable.
 - ❖ Default handling time: X (minutes per call): Enter the default handling time per call.
2. Click the **Save** button when finished to submit the data and close the dialog.

Comfort Message

1. Select the **Comfort Message** tab and define the following setting options:
 - ❖ Play Comfort Message: Click to place a check in the box to enable Comfort Messages.
 - ❖ Time between messages X (seconds): Enter at least 10 (seconds) in the field.
 - ❖ Audio:
 - Default: Click to ☒ enable the use of system messages.
 - URL: Select to enter specific URLs for audio files which will be played to callers in the order shown (1, 2, 3, 4)
 - Custom: Select to enable and choose from the files in the Announcement repository which will be played to callers in the order shown (1, 2, 3, 4)
2. Click on the **Save** button when finished to submit the data and close the dialog.

Music On Hold

1. Select the **MusicOn Hold** tab and define the following setting options:

- ❖ Enable Music or video on hold for queued calls: Click to enable ☐ Music On Hold.
- ❖ Audio
 - Default: Click to ☐ enable the use of system messages.
 - URL: Select to enable and enter specific URLs for audio files or video which will be played to callers in the order shown (1, 2, 3, 4)
 - Custom: Select to enable and choose from the files in the Announcement repository which will be played to callers in the order shown (1, 2, 3, 4).
 - ExternalSource: Click to select and enable external source.

2. Click on the **Save** button when finished to submit the data and close the dialog.

Call Whisper Message

1. Select the **CallWhisper Message** tab and define the following setting options:

- ❖ Play Call Whisper Message: Click to enable CallWhisper Messages.
- ❖ Audio
 - Default: Click to enable the use of system messages.
 - URL: Select to enable and enter specific URLs for audio files which will be played to agents in the order shown (1, 2, 3, 4)
 - Custom: Select to enable ☐ and choose from the files in the Announcement repository

2. Click on the **Save** button when finished to submit the data and close the dialog.

Contact Center Announcement Repository

Manage the announcements and greeting files used by this Contact Center. As with the Announcement Repositories for any Locations, Groups or Departments, the file requirements and current usage amounts for the Contact Center's announcement files are displayed to the

Admin, and basic instructions for uploads and management are provided via the [See Instructions](#) link. See also: [Announcement Repository](#)

Contact Center Distinctive Ring

Manage distinctive ringing policies for Contact Center calls routed to agents that have Distinctive Ring setup for use.

1. Click to ☒ Enable distinctive ringing for Contact Center Calls.
2. Ring Pattern: Select the desired ring tone pattern from the drop-down menu options.
3. Click the **Save** button when finished.

Contact Center Bounced Calls – Queue

Configure the Contact Center routing policy for unanswered calls.

1. Enable the following options, as needed:
 - ❖ ☒ Bounce Calls after x Rings: Enter the number of rings if enabled.
 - ❖ ☒ Bounce Calls if agent becomes unavailable while routing the call.
 - ❖ ☒ Alert Agent if call is on hold for longer than x seconds. Enter 30+ seconds if enabled.
 - ❖ ☒ Bounce Calls after being on hold by agent for longer than x seconds. Enter an amount of time in seconds.

2. Click the **Save** button when finished to submit the data and close the dialog.

Contact Center Overflow – Queue

Configure the Contact Center routing policy, including announcements or videos for unanswered calls.

1. Select and define the following action and file options, as needed:
 - ❖ ☐ Perform busy treatment.
 - ❖ ☐ Transfer to phone number SIP URI.
 - ❖ ☐ Play ringing until caller hangs up.
 - ❖ ☒ Enable Overflow after calls wait x Seconds and select the amount of time (seconds) from the drop-down menu.
 - ❖ ☒ Play announcement before overflow processing and define the audio file(s)/types below.
 - ❖ Audio: Select desired option:
 - ☐ Default - Use the default BW announcement
 - ☐ URL and enter the URL(s) in order of play
 - ☐ Custom and select File(s) in order of play

2. Click **Save** when finished to submit the data and close the dialog.

Contact Center Stranded Calls – Queue

Configure the Contact Center routing for calls stranded in queue when all agents are signed-out.

1. Select one of the following action options, as needed for the Contact Center Queue:
 - ❖ ☐ Leave in queue
 - ❖ ☐ Perform busy treatment
 - ❖ ☐ Transfer to phone number SIP-URI: Click to enable and enter the appropriate 10-digit number to which calls will be forwarded.
2. Click the **Save** button when finished to submit the data and close the dialog.

Contact Center Distinctive Ring

Basic and Premium. Configure special ringtone policies for calls routed to the agent(s).
Click on the View/Edit arrow adjacent to this setting to begin.

1. Select the following setting options, as needed:

- ❖ Enable distinctive ringing for Contact Center calls: Click to enable ☒ distinctive ringing.
- ❖ Ring Pattern: Choose a ring pattern option from the drop-down list.
- ❖ Ring Pattern for forced delivered Contact Center calls: Choose a ring pattern from the drop-down list.

2. Click **Save** when finished to submit the data and close the dialog.

Contact Center Queue Status Notification

Turn on/off queue volume status notifications sent to agent devices and control the thresholds for high volume notifications.

While working in *Contact Center > Edit > Configuration*, click on the View/Edit link adjacent to **Queue Status Notification** to begin.

1. Select the following setting options, as needed:

- ❖ Enable notification of queue status to agent devices: Click to enable ☒ or disable ☐ the setting.
- ❖ High volume notification thresholds: Click to enable ☒ the volume threshold type you wish to agents to receive a notification about and define the value as needed. The options are:
 - ☐ Number of calls in Queue: Click to enable ☒ (as needed) and enter the number of calls in the queue that will trigger a notification.
 - ☒ Longest waiting time: _____ Seconds - Click to enable (as needed) and enter the amount of time (in seconds) that a call waiting in queue the longest will automatically trigger a notification.

2. Click **Save** when finished to submit the data and close the dialog.

Contact Center DNIS

Authorized Administrators may have access to manage the Contact Center DNIS configurations. DNIS, or Dialed Number Inbound Service, refers to the called or dialed number. Within the call center application, it is used only to refer to the case where multiple dialed numbers have been associated with a single queue or call center. The system allows configuration of up to 64 DNIS numbers to a single queue. When they are configured, someone calls into a call center and is ultimately directed to a particular DNIS number within a queue. They hear entrance messages associated with that DNIS and the agent receiving the call sees (and/or hears) that DNIS name when the call is delivered so they too know where the caller. DNIS configurations and settings take precedence over related Contact Center Announcement settings.

See also: [Contact Center Announcements](#)

While working in *Contact Center > Edit > Configuration*, click on the View/Edit link adjacent to **DNIS** to begin.

DNIS
Configure the Contact Center DNIS to distribute calls to agents.

DNIS Display settings:

- ☐ Display DNIS Number to agent when presenting call instead of calling number
- ☐ Display DNIS name to agent when presenting call instead of calling name

DNIS Priority settings:

- ☒ Automatically promotes calls with Priority 1 to Priority 0 after waiting 100 Seconds
- ☒ Automatically promotes calls with Priority 2 to Priority 1 after waiting 100 Seconds
- ☒ Automatically promotes calls with Priority 3 to Priority 2 after waiting 100 Seconds

Name	Phone Number	Extension	Priority	Edit	Select
Call Center 2430485(Primary)	2059187200	7200	0 - Highest	Edit	<input type="checkbox"/>

Save Add Delete

Manage DNIS Display Settings

- Select and define the following DNIS Display settings, as needed for DNIS numbers:
 - ☐ Display DNIS Number to Agent when presenting call instead of calling number – Click within the adjacent box to enable ☒ or disable ☐.
 - ☐ Display DNIS name to agent when presenting call instead of calling name – Click within the adjacent box to enable ☒ or disable ☐.
- Click [Save](#) when finished to submit the data and close the dialog.

Manage DNIS Priority Settings

- Enable ☒ and define the following DNIS Priority settings, as needed for DNIS numbers:
 - Automatically promotes calls with Priority 1 to Priority 0 after waiting X Seconds.
 - Automatically promotes calls with Priority 2 to Priority 1 after waiting X Seconds
 - Automatically promotes calls with Priority 3 to Priority 2 after waiting X seconds
- Click [Save](#) when finished to submit the data and close the dialog.

Add DNIS

While working in the *Contact Center Configuration – DNIS Edit view*:

1. Click on the **Add** button to begin creating a new DNIS listing.

The DNIS *Edit* view offers tabs for defining multiple setting options.

Configure DNIS

1. Enter or select the following settings options, as needed:
 - ❖ **DNIS Name (required):** Enter a name in the field.
 - ❖ **DNIS Phone No:** Select a phone number from the drop-down list.
 - ❖ **Extension:** Enter an extension that is defined in your system.
 - ❖ **Priority:** Select an option from the drop-down list.
 - ❖ **Calling Line ID:** Enter the display information.
 - ❖ **Use custom calling line name settings:** Click within the check box to enable ☒ and enter the following:
 - **Calling Line ID Last and First Name:** Enter the custom last and first names to be displayed for this line (caller ID)
 - ❖ **Use Custom DNIS announcement settings:** Click within the check box ☒ to allow the setup and use of settings found in the other tabs at the top of the view.
 - ❖ **Allow outgoing Contact Center Call:** Click to enable and allow agents to dial out using this DNIS.
2. When finished, click on the **Save** button to update the system with the new information and close the view, or continue on to define additional settings in the other tabs where their use is enabled or available.

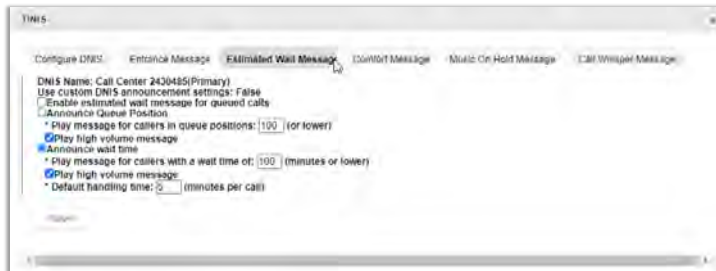

DNIS Entrance Message

1. Select and define the following Entrance announcement options, as needed:
 - ❖ ☒ **Play Entrance Message:** Click within the check box to enable or disable ☐.
 - ❖ ☒ **Entrance Message is mandatory when played:** Click within the check box to enable or disable ☐.
 - ❖ **Audio:** Select and define the desired option(s):
 - ☒ **Default** – Select if you wish to use the system's default message.
 - ☐ **URL** - Enter the URL(s) in the fields – these define the order of play (1,2,3,4)
 - ☐ **Custom** - Select the custom file(s) to be played in the order shown (1,2,3,4).
2. Click the **Save** button when finished to submit the data and close the dialog or continue on to define additional settings in the other tabs where their use is enabled or available – as needed.

DNIS Estimated Wait Message

1. Select the **Estimated Wait Message** tab and define the following setting options:

- ❖ Enable estimate message for queued calls: Click to place a check in the box ☒ to enable Estimate Wait Messages.
 - ❖ Announce Queue Position: Click within the radial button to ☒ enable and define:
 - Play message for callers in queue positions: X (or lower): Enter the highest number in queue that will hear the queue position announcement.
 - ❖ Play high volume message: Optional. Click to place a check in the box ☒ to enable.
 - ❖ Announce Wait time: Click to ☒ enable/ ☐ disable and define:
 - Play message to callers with a wait time of X (minutes or lower): Enter the highest number of minutes a caller will be waiting when the wait time message will be allowed to play.
 - ❖ Play high volume message: Click to place a check in the box ☒ to enable and define:
 - Default handling time: X (minutes per call): Enter the default handling time per call.
2. Click the **Save** button when finished to submit the data and close the dialog or continue on to define additional settings in the other tabs where their use is enabled or available – as needed.

DNIS Comfort Message

1. Select the **Comfort Message** tab and define the following setting options:

- ❖ Play Comfort Message: Click to place a check in the box to enable Comfort Messages.
- ❖ Time between messages X (seconds): Enter at least 10 (seconds) in the field.
- ❖ Audio:
 - Default: Click to ☒ enable the use of system messages.
 - URL: Select to enter specific URLs for audio files which will be played to callers in the order shown (1, 2, 3, 4)
 - Custom: Select to enable and choose from the files in the Announcement repository which will be played to callers in the order shown (1, 2, 3, 4)

2. Click on the **Save** button when finished to save the data, close the dialog, and return to the DNIS list view.
3. Click **Save** to submit the new list information and update the system.

DNIS Music On Hold Message

1. Select the **Music On Hold** tab and define the following setting options:
 - ❖ Enable Music or video on hold for queued calls: Click to enable ☒ Music On Hold.
 - ❖ Audio
 - Default: Click to ☒ enable the use of system messages.
 - URL: Select to enable ☒ and enter specific URLs for audio files or video which will be played to callers in the order shown (1, 2, 3, 4)
 - Custom: Select to enable ☒ and choose from the files in the Announcement repository which will be played to callers in the order shown (1, 2, 3, 4).
 - External Source: Click to select and enable ☒ external source.
2. Click on the **Save** button when finished to save the data, close the dialog, and return to the DNIS list view.
3. Click **Save** to submit the new list information and update the system.

DNIS Call Whisper Message

1. Select the **Call Whisper Message** tab and define the following setting options:
 - ❖ Play Call Whisper Message: Click to enable Call Whisper Messages.
 - ❖ Audio
 - Default: Click to enable the use of system messages.
 - URL: Select to enable and enter specific URLs for audio files which will be played to agents in the order shown (1, 2, 3, 4)
 - Custom: Select to enable ☒ and choose from the files in the Announcement repository
2. Click on the **Save** button when finished.
The Add DNIS dialog closes and the DNIS list displays.
3. Click **Save** to submit the new list information and update the system.

Edit DNIS

While working in Contact Center DNIS settings view:

Note: The primary DNIS listing cannot be edited and is read only to protect that configuration. Contact your Account Manager or Customer Support if the primary DNIS configuration requires changes.

1. Click on the Edit link adjacent to the desired non-primary DNIS in the list to open the edit view.
2. Make changes to the available settings and options, including any message options, as needed.
3. Click on the **Save** button to submit the changes and return to the DNIS list view.
4. Click on the **Save** button to update the system with the new information and close the view.

Delete DNIS

Use Caution. All related underlying settings for the selected DNIS number are deleted as well and must be recreated if deleted in error. **Note:** The primary DNIS listing cannot be deleted in the Portal and is read-only to protect that configuration. Contact your Account Manager or Customer Service for assistance if the primary DNIS configuration requires changes.

While working in Contact Center DNIS settings view:

1. Click to place a check mark in the Select box adjacent to the desired DNIS in the list.
2. Click on the **Delete** button and click **OK** when prompted to remove the selection from the list.
3. Click **Save** when finished to update the system with all changes and close the view.

Contact Center Call Disposition Codes

Premium. Manage the Call Disposition Codes used to identify things like marketing promotions or special characteristics pertaining to the call. The disposition codes contain two elements: an identification value and a description.

Disposition codes can be used to address multiple scenarios, for example:

- ❖ Capturing the result of the call ("Requires Follow-Up", "Issue Resolved", "Contacted Sales Rep"),
- ❖ Capturing customer comments ("Angry", "Happy", "Called Multiple Times")
- ❖ Capturing marketing campaign feedback ("Print Advertisement", "Web Site", "Direct Mailing").

Disposition codes may be entered by the call center agent while the call is in progress or once the call has been finished and the call center agent is in Wrap-up state.

Call Disposition Codes can be entered at the Contact Center queue level and at the Enterprise level. See also: [Enterprise Call Disposition Codes](#)

To access this setting while working in Contact Center go to *Edit > Configuration*, click on the *View/Edit* link adjacent to **Call Disposition Code** to begin.

Call Disposition Code

Add or Modify Call Disposition Codes. Disposition Codes are attributes applied to a call to identify marketing promotions or other topics pertaining to a call.

Note: Add or modify call disposition codes are attributes applied to a call to identify marketing promotions or other topics pertaining to a call.

☐ Enable call disposition codes
☒ Use group codes in addition to Contact Center codes
☐ Force use of call disposition codes with default codes (None)

Manage Call Disposition Code Usage

1. Select and define the following basic service usage setting options, as needed:
 - ❖ **Enable call disposition codes:** Click within the box to enable ☒ / disable ☐ the use of Call Disposition codes.
 - ❖ **Use group codes in addition to Contact Center Codes:** Click within the box to enable ☒ / disable ☐ the use of Group Codes along with Contact Center Codes.
 - ❖ **Force use of call disposition codes with default codes** ____ Click to enable ☒ and select the default code that will be entered automatically if for some reason an agent does not enter one manually from the list of options provided in the drop-down menu.
2. Click [Save](#) to update the system with the new information for Call Disposition Codes.

Add a Call Disposition Code

Authorized Admins may create a custom call disposition code at the Contact Center Queue level while working in the Call Disposition Code *Edit* view:

1. Ensure that Call Disposition Codes are Enabled.
2. Click on the [Add](#) button.
3. Select and define the following:
 - ❖ **Active:** Click to place a check in the box ☒ to set this new code to Active when saved.
 - ❖ **Code:** Enter a code in the field provided.
 - ❖ **Description:** Enter a concise description of the purpose of the code - e.g., 'MKTG Campaign 6.20'
4. Click the [Save](#) button when finished to add the custom disposition code to the list in the Edit view and close this dialog.

Activate a Call Disposition Code

The system offers several ways to manage whether call disposition codes are active and may be used by call center agents.

- ❖ **Enable Call Disposition Codes:** Click to place a check in the box to allow call disposition codes to be used.
- ❖ Click to place a check in the **Active** check box that is offered when Adding or Editing a call disposition code. Note: Always click the [Save](#) button after making changes.

Edit a Call Disposition Code

The list displayed in Call Disposition Codes offers access to Edit individual code description and activation information. The code cannot be edited.

1. Click on the [Edit](#) link adjacent to a Call Disposition Code within the table list.
2. Make changes to the **Description** or to the **Active** setting.
3. Click [Save](#) when finished to update the system with the changes.

Delete a Call Disposition Code

Caution! This action is immediate and cannot be undone. While working in the Edit view for Call Disposition Codes, an Admin may delete a contact center queue level Call Disposition Code. Please note, the codes defined at the Enterprise level cannot be deleted at the Contact Center level.

1. Select the code you wish to remove by clicking to place a check in the box ☒ in the far right column adjacent to the code.
2. Click on the [Delete](#) button to immediately remove the code from the list.

Contact Center Routing Policies

Call Centers temporarily hold calls in the cloud when all users assigned to receive calls from the queue are unavailable. Call Centers provide an automated “answer” with customizable greetings, comfort messages, and hold music for the caller to listen to.

Queued calls are routed to an available agent when he/she is no longer on an active call. Each call queue is assigned a lead number, which is a telephone number outside callers can dial to reach the agents assigned to the call queue. Call Centers are also assigned an internal extension, which can be dialed internally to reach the agents assigned to the call queue.

The following sections offer examples of the types of routing policies that may be managed.

Forced Forwarding – ACD

Premium. Configure the Contact Center to temporarily divert new incoming calls to a different route independent of the Night Service route. Enabling Forced Forwarding does not affect calls already in the queue.

Note: The URLs/files for audio or video that are defined will be played in the order they are listed.

While working in *Contact Center > Edit > Configuration*, click on the Edit/View drop-down to open this setting for management.

1. Select and/or define the following setting options as needed for **Forced Forwarding – ACD** usage:

- ❖ **Forced Forwarding On | Off:** Click within the appropriate radio button to turn on ☒ or ☐ off.
- ❖ **Call Forwards to phone number/SIP URI:** Enter the phone number or SIP-URI in the field provided.
- ❖ **Allow feature access codes to configure forced forwarding:** Check this box if you would like the Call Center Supervisor to use their phone to activate (*51) and deactivate Redirect (*52) through the use of a star code / feature access code.
- ❖ **Play announcement before forwarding:** Click to enable ☒ and complete the following setting options as needed for the audio to be played...

Audio:

- **Default** - Click to set as the default system message.
- **URL** - Click to use specific files and enter up to 4 URLs in order of play.
 - **Custom:** Click to use custom files that have been entered into the system and select up to 4 in the order of play from the drop-down selection tools.

2. Click **Save** when finished to update the system with the new information.

Holiday Service – ACD

Premium. The Holiday Service - ACD allows an optional message to be played and a different routing treatment for special days and Holidays where workers may not be present. To access while working in *Contact Center > Edit > Configuration*, click on the *Edit/View* drop-down to open this setting for management. Select or define the following actions and setting options, as needed:

1. Select and define the following: **Action:**
 - ❖ ☐ None: Calls are left in queue.
 - ❖ ☐ Perform Busy Treatment: Click to use the busy treatment.
 - ❖ ☐ Transfer to phone number/ SIP-URI: Click to route calls to an alternate phone number/SIP- URI and enter the correct destination information.
 - ❖ Holiday Schedule _ : Select a schedule from the drop-down list. This list displays the Holiday Schedules defined in [Enterprise Time Schedules](#).
 - ❖ ☐ Default: Click to use the default announcement, which is “Your call is very important to us, but you have reached us on a scheduled holiday. Please call back during normal business hours or wait to leave a message.”
 - ❖ ☐ URL: Click to use an alternate audio or custom message and select accordingly below.

Audio:

If URL was selected above, choose from the following and define as necessary:

- URL: Click to use specific files and enter up to 4 URLs in order of play.
- Custom: Click to use the custom announcement files that have been entered into the Announcement Repository and select up to 4 in the order of play via the drop-down selection tools.

2. Click the [Save](#) button when all changes are complete to update the system and close the dialog.

Night Service – ACD

Premium. The Night Service option configures the routing, treatment, and announcement behaviors for calls received after normal business hours (Night service).

1. Select and define the following setting options for Night Service actions, as needed:

- ❖ ☒ **None:** Default. Calls are left in queue.
- ❖ ☐ **Perform busy treatment:** Click to select this option and set the service to perform busy treatment for calls during non-business hours.
- ❖ ☐ **Transfer to phone number / SIP-URI:** Click to select this option and route calls to an alternate phone number/SIP-URI then enter the correct destination information in the adjacent text field.
- ❖ **Force night service regardless of business hour schedule** ☐ On ☒ Off ☒ (default)
Click within the ☒ On radio button to enable this option and allow the supervisor or administrator to override the Business Hours schedule (defined below) and manually initiate Night Service for the queue. This manual override can also be activated by a Call Center supervisor using their phone interface if the feature access code option is enabled below, as well.
- ❖ **Business Hours:** Select the appropriate schedule from the drop-down to define business hours.
- ❖ **Allow feature access codes to manually override night service:** Click to enable and allow Call Center Supervisor(s) to use their phone to activate (*53) and deactivate (*54) the Night Service via star code/FAC.
- ❖ **Play Announcement before night service action.** Click to enable for use with busy treatment or transfer actions. This option can be configured to play an announcement prior to proceeding with the action Night Service. In this case, the announcement is played once to completion before the action is processed.
- ❖ **Announcement to play in manual override mode:** Click to enable either ☒ Normal announcement or ☐ Manual mode announcement and continue to define the setting options in the corresponding section below for audio behaviors:
- ❖ **Audio Mode sections:** Based on the selection made for Announcement to play, make option selections in either Normal Mode Audio or Manual Mode Audio for the following:
 - **Default:** Click to use the default messaging - “Your call is very important to us, but you have reached us outside of business hours. Please call back during normal business hours or wait to leave a message.”
 - **URL:** Click to enable the use of URLs and enter up to 4 URLs for the files in the order you wish them to play (1, 2, 3, 4.).
 - **Custom:** Click to enable and use the selection tools to choose up to 4 files from the Contact Center’s Announcement Repository in the order they will play (1, 2, 3, 4.).

2. Click **Save** when finished to update the system with the changes for Night Service -ACD.

Bounced Calls – Queue

Standard. Configure the routing policy for calls that are sent to an available agent but go unanswered by the agent in this queue. To access while working in *Contact Center > Edit > Configuration*, click on the *Edit/View* drop-down adjacent to this setting to open the *Edit* view.

1. Select and define the following setting options, as needed:

- ❖ ☒ **Bounce Calls after _x_ Rings:**

Click to enable and enter the number of rings to allow before the call is bounced.

- ❖ ☒ **Transfer to phone number :**

SIP- URI _: Click to select this option and route calls to an alternate phone number/SIP-URI then enter the correct destination information in the adjacent text field.

- ❖ ☒ **Bounce Calls if agent becomes unavailable while routing the call:** Click to enable this option to bounce calls being sent to an agent if the Agent transitions to an *unavailable* state while the call is en route.

- ❖ ☒ **Alert Agent if call is on hold for longer than — seconds:** Click to enable this service option if you wish for the system to notify the Agent if a call sent to them from the queue was put on hold for longer than the time defined here (in seconds).
Note: 30 or more seconds are required here.

- ❖ ☒ **Bounce Calls after being on hold by Agent for longer than seconds.** Click to enable this service option if you want the system to automatically bounce a call that has been on hold for longer than the time defined here (in seconds).

2. Click **Save** when finished to update the system with the changes made for Bounced Calls – Queue.

Comfort Message Bypass – Queue

Premium. This service policy offers the use of an alternate audio message if calls are expected to be answered quickly. When enabled, the usual comfort/Music-On-Hold treatments are bypassed, and the settings defined here are used. **Note:** This policy applies after the entrance message has finished playing(if applicable). While working in *Contact Center > Edit > Configure*, click on the *View/Edit* drop-down arrow adjacent to this setting to open the *Edit* dialog:

1. Select and/or define the following setting options:

- ❖ **Comfort Message Bypass** ☐ On | ☒ Off (default): Click within the ☒ On radio button to enable this service.

- ❖ ☒ **Bypass Comfort message when estimated wait time is less than _____ seconds:** If the wait time is less than the amount entered here, the Bypass Comfort Message will be used. Enter the desired wait time in seconds.

- ❖ ☒ **Play announcement after ringing for _____ Seconds:** Click ☒ to Enable and set the number of seconds to allow ringing before the alternate message will be presented to the caller, then set the message **Audio** source below.

- ☒ **Default:** Click to use “Please hold while we transfer you to an agent.”

- ☐ **URL:** Click to select the use of URLs and enter up to 4 URLs in the order you wish them to play (1, 2, 3, 4.).

- ☐ **Custom:** Click to select and use the selection tools to choose up to 4 files from the Contact Center’s Announcement Repository in the order they will play(1, 2, 3, 4).

2. Click on the **Save** button when finished to submit the changes and close the *Edit* dialog.

Overflow – Queue

Basic, Standard, and Premium. Overflow treatment is applied to calls when the Call Center reaches its size limit or when callers have been in the Call Center for a specified amount of time. For example, if the Call Center queue size limit is set to 20, the twenty-first caller will be routed to the overflow destination. Likewise, if the overflow timer is set to two minutes, after two minutes, callers will be routed to the overflow destination. Use this section to define the routing policy and/or message behavior when a large number of calls have been received or calls have been waiting longer than a configured threshold.

While working in *Contact Center > Edit > Configure*, click on the drop-down arrow adjacent to **Overflow – Queue** to open the edit dialog.

1. Select and/or define the following options as needed for Overflow routing:

Action:

- ❖ ☒ **Perform busy treatment:** Click to select this action – the caller hears a fast busy tone when Overflow treatment is in effect.
- ❖ ☐ **Transfer to phone number SIP-URI:** Click to select this option and route calls to an alternate phone number/SIP-URI when Overflow treatment is in effect, then enter the correct destination information in the adjacent text field. This entry can be an extension, another phone number/queue, or even an external number.
- ❖ ☐ **Play ringing until caller hangs up:** Click to select this option and callers will hear ringing until they disconnect when overflow treatment is in effect.
- ❖ ☒ **Enable Overflow after calls wait ___ Seconds:** Click to select this option and apply overflow treatment to queued calls after a certain amount of time. Enter the amount of time in seconds. If the maximum number of queued calls is met, the next call to be presented to the queue is treated with the Overflow actions that are also defined in this area once the call has waited the specified amount of time.
- ❖ ☒ **Play announcement before overflow processing:** Click to select and then define the audio selection that will be played prior to performing the overflow action setting(s) defined above.

Audio:

- ☒ **Default:** Click to select and use the default system message - “Your call is very important to us, but due to the high volume of calls we cannot answer your call. Please hold while we transfer you to Voice Messaging so that we can help you as soon as possible.”
- ☐ **URL:** Click to select the use of URLs and enter up to 4 URLs in the order you wish them to play (1, 2, 3, 4.).
- ☐ **Custom:** Click to select and use the drop-down tools to choose up to 4 files from the Contact Center’s Announcement Repository in the order they will play(1, 2, 3, 4).

2. Click on the **Save** button when finished to submit the changes and close the *Edit* dialog.

Stranded Calls – Queue

Standard and Premium. Configure the processing / routing policy for any calls that are left stranded in queue when there are no agents currently signed in. (An agent is said to be staffing a queue if the agent has joined the queue and is not in the Sign-out state.) If the last agent staffing a queue “unjoins” the queue or signs out, then all calls in the queue become stranded and will be handled as described by the settings defined here. If an incoming call is received by a queue with no agents staffing the call center, then the call is initially put in the queue.

Once the queued call should be offered to an agent, and if there are no agents staffing the queue, then the call is processed as a stranded call. In particular, if the [Entrance Message is mandatory...](#) option is enabled or the queue elsewhere, then the entrance message is played to completion before the call is handled as a stranded call. See also: [Entrance Message](#); [DNIS Entrance Message](#)

While working in *Contact Center > Edit > Configure*, click on the drop-down arrow adjacent to **Stranded Calls – Queue** to open the *Edit* dialog.

1. Select and/or define the following action options, as needed for Stranded Calls:

- ☒ **Leave in Queue:** (default)
Click to select this action option. Calls will simply remain in the queue.
- ☐ **Perform busy treatment:** Click to select this action option, and calls will be removed from the queue and receive a fast busy tone.
- ☐ **Transfer to phone number / SIP-URI _:** Click to select this action option and enter the destination information in the data-entry field. Calls stranded in queue are removed from the queue and transferred to the configured destination.
- ☐ **Night Service:** Click to use this action option. Calls will be handled according to the [Night Service](#) configuration. Note: If the Night Service action is set to None, then the Stranded Calls policy will perform similarly, and calls remain in the queue.
- ☐ **Play ringing until caller hangs up:** Click to select. Calls are removed from the queue and provided with ringing until the caller disconnects.
- ☐ **Play announcement until caller hangs up:** Click to select and then choose/define the audio selection below. The calls will be removed from the queue and the message selection(s) will be played on a loop until the caller disconnects/ends the call.

Audio:

- ☒ **Default:** Click to select and use the default system message - “Your call is very important to us, but no agents are available.”
- ☐ **URL:** Click to select the use of URLs and enter up to 4 URLs in the order you wish them to play (1, 2, 3, 4.).
- ☐ **Custom:** Click to select and use the drop-down tools to choose up to 4 files from the Contact Center’s Announcement Repository in the order they will play (1, 2, 3, 4.).

2. Click on the [Save](#) button when finished to submit the changes and close the *Edit* dialog.

*IP TRUNKING

Only organizations that have specialized Trunk Groups will see this section and only Authorized Administrators who manage their system's specialized SIP Trunks should access to this section's management tools.

Trunk ID	Location	Start Date	IP Address 1	IP Count	Assigned DID's	Group Policy	Service State	Direction	Call Logs	Edit
72385	IP Trunking test location	05/22/2019 11:37:07 AM	1.1.4.100	4	0	round_robin	inactive	both	Call Logs	Edit
72385	IP Trunking test location	05/22/2019 11:44:06 AM	1.1.4.9	3	0	top_down	block	both	Call Logs	Edit

Trunking Information

The **IP Trunking** page offers a searchable table view of the current specialized Trunk Group(s) on the account and offers access to review call logs and manage Trunk Group settings. The display provides views of the **Trunk ID**, **Location**, **Start Date**, **IP Address1**, **IP Count**, **Assigned ID's**, **Group Policy**, **Service State**, and **Direction** (Calls) information for each location.

Section Search

Locate data found within the IP Trunking table.

Column Tools

Click the Column *Name* to **↓sort↑** data by column contents.

Click the *Links* provided within some of the columns to access useful information and/or manage the editable Trunk Group settings.

Edit

The **Edit** button opens the selected Trunk Group settings for maintenance.

Trunk Group IP Count

The **IP Count** column displays the current count of IPs and a click on the number listed within the **IP Count** column for the Trunk Group opens a dialog to display a listing the current IPs.

Manage Associated DIDs

Use Caution. Any association changes are committed immediately upon clicking [Submit](#). Authorized Administrators may assign DIDs for IP Trunk Groups. When assigning DIDs to a trunk group or un-assigning DIDs from a trunk group, the selected DIDs are held in the *Pending DID(s)* bucket until Administrator clicks [Submit](#) for the order.

While working in the IP Trunk Group page:

1. Click on the [Manage Associated DIDs](#) link at the top of the IP Trunking page (top right) to open the IP Trunk Management dialog.
2. Complete the following tasks, as needed:
 - ❖ Select the appropriate Trunk Group Location from the drop-down list. *The current Un-Assigned, Pending, and Assigned DIDs for that IP Trunk Location display below.*
 - ❖ Select a DID and use the Assign>, <Undo and <Unassign buttons to move the selected DID(s) to the new status section(s); repeat as needed.
3. Click on the [Submit](#) button when DID assignment changes have been made.

View Trunk Group Call Logs

The Call Logs offer an informative listing of all calls to and/or from a trunk group within a defined time frame. The Call Logs view provides filter options that allow the user to reduce or expand the data set. Access to review call log information is provided in two places within the IP Trunk Group section:

- [Call Logs for Locations](#) (IP Trunking page - top right) – This link opens the IP Trunking Call Logs for Location selection and review.
- Individual Locations - The [Call Logs](#) links displayed within the table for each listing open the call log containing data for the selected location.

Export Call Logs

While working within the Call Logs view, Admins are provided with access to the Export Call logs link to download the current call log display to a report ready .csv spreadsheet format which may be saved to a useful file format in a local folder.

Manage Trunk Group Settings

Click on the [Edit](#) icon  adjacent to the IP Trunk Group listing (far right column) to open the *IP Trunk Group* page. Fields that cannot be edited display the  icon when the cursor is placed over the field. Make changes to the editable fields.

Manage IP Trunk Call Paths

See: IP Trunking Call Path

*ENTERPRISE TRUNKING

Only organizations that have specialized Enterprise SIP Trunk Groups will access this section and only experienced Trunk Administrators should attempt to work with these management tools.

Enterprise Trunking

Enterprise Trunk Name: 2100017914-MSTeams [Manage Associated DIDs](#)

Max # of Reroute Attempts (max 10): 10

Max # of Reroute Attempts within a Priority (max 10): 8

Route Exhaustion Action: ☒ None ☐ Forward to Phone

*Trunk Group Weight must be an Integer between 1 and 99999
*Trunk Group Priority must be an Integer between 1 and 10

Trunk Group	Available / Assigned	Priority	Weight	Manage Trunk
2100017914-att01	Assigned	10	10	
2100017914-phi01	Assigned	10	50	
2057300443TRUNK	Assigned	0	0	

The **Enterprise Trunking** page offers tools for working with the any Enterprise SIP Trunks on the account. The Administrators with access to this section must have expertise with PBX/BroadSoft Enterprise SIP Trunk management.

A simple table view also displays the basic setup for any Trunk Group(s) on the account and tools to change priority and weight settings. The **Edit** button adjacent to a Trunk Group in this table also offers access to review and/or manage additional available settings and options.

The table display lists the **Trunk Group (Name)**, whether it is currently **Available/Assigned**, its **Priority** and the **Weight** assignments for each trunk group.

Other tools on this page include:

Manage Associated DIDs

[Manage Associated DIDs](#)

Click to open a new view and manage DID associations for Trunk Groups.

Save / Cancel

When changes are made to the data in the table, these tools display at the top of the page. Click **Save** to submit the changes or click **Cancel** to remove the changes.

Column Tools

Click the Column *Name* to sort data by column contents.

Data within the *Available/Assigned*, *Priority* and *Weight* columns may also be edited using the tools provided.

Edit

The **Edit** button opens the selected Trunk Group's settings dialog for review or maintenance.

Manage Enterprise Trunking Routing

The top section of the Enterprise Trunking page offers some general call routing settings that are applied to the listed Trunk Groups below.

1. Make changes to the following settings, as needed:
2. Max # of Reroute Attempts (max 10): Use the number selection tool within the field to define the appropriate amount for this setting (0-10).
3. Max # of Reroute Attempts within a Priority (max 10): Use the number selection tool within the field to define the appropriate amount for this setting (0 to 10).
4. Route Exhaustion Action: Select from ☒ **None** (default) or ☐ **Forward to Phone** and enter the 10-digit phone number in the field below when it becomes available (do not add special characters or spaces).
5. Click **Save** when finished to submit the change.

Assign Enterprise Trunk Group

Each Trunk listed in the table offers a tool to assign available trunks. This tool is a button under the column titled **Available/Assigned** which shows the current availability status.

To manage this setting while working in Enterprise Trunking:

1. Locate the Trunk Group in the table listings.
2. Click the button when it shows as **Available** to set it to **Assigned** or click the button when it shows as **Assigned** to set it to **Available**.
3. Click **Save** (top right) when finished to submit the change.

Manage Associated DIDs

Manage Associated DIDs

This link at the top of the Enterprise Trunking page opens a dialog that allows the Admin to manage the DID associations (Users) for the Enterprise Trunk Groups on the account.

1. Click on the link to open the Enterprise Trunk Management dialog.
2. Select a Trunk ID from the drop-down selection tool.
3. Select one or more DIDs you need to manage in either the **Available DIDs** or **Assigned DIDs** section.
4. Choose an action:
 - ❖ Click on the **Assign >** button if you wish to move the selection(s) to the **Assigned DIDs** section.
 - ❖ Click **< Unassign** to move selections in the **Assigned DIDs** section to the **Available DIDs** section.
5. Click **Submit** when finished to save the change(s).

Moved items are placed in the **Pending DID(s)** section until the user clicks **Submit**.

- ❖ Click **< Undo | Undo >** to return selected items in **Pending** to their original section.
- ❖ Click **Cancel** to quit and exit without making changes.

These changes are committed immediately and the items in **Pending** are moved to the appropriate section for review as the system updates.

Manage Enterprise Trunk Group Priority

Each Trunk listed in the table offers a tool to define the priority. This tool is a data entry field under the column titled **Priority** which shows the current entry for the setting per Trunk Group. An individual Trunk Group's Priority must be an integer between 1 and 10.

To manage this setting in the Enterprise Trunking page:

1. Locate the Trunk Group in the list.
2. Click within the **Priority** field.
3. Select a value (1-10) using the selection tool.
4. Click **Save** (top right) to submit the change.

The screenshot shows a table with columns: Trunk Group, Available / Assigned, Priority, and Weight. The 'Priority' column contains a dropdown menu with the value '10' selected. A mouse cursor is hovering over the 'Assigned' button in the 'Available / Assigned' column for the same row.

Trunk Group	Available / Assigned	Priority	Weight
2100017914-ab01	Assigned	10	
2100017914-ph01	Assigned	10	
2057300443TRUNK	Assigned	0	

Manage Enterprise Trunk Group Weight

Each Trunk listed in the table offers a tool to define the weight. This tool is a data entry field under the column titled **Weight** which shows the current entry for the setting per Trunk Group. An individual Trunk Group's weight must be an integer between 1 and 65536.

An individual Trunk Group's weight must be an integer between 1 and 65536.

1. Locate the Trunk Group within the table list.
2. Click within the **Weight** field.
3. Define a value (1-65536) using the selection tool.
4. Click **Save** (top right) to submit the change.

The screenshot shows the 'Enterprise Trunking' page with a table. The 'Weight' column contains a dropdown menu with the value '10' selected. A mouse cursor is hovering over the 'Assigned' button in the 'Available / Assigned' column for the same row.

Trunk Group	Available / Assigned	Priority	Weight	Manage Trunk
2100017914-ab01	Assigned	10	10	
2100017914-ph01	Assigned	10	50	
2057300443TRUNK	Assigned	0	0	

Manage Enterprise Trunk Group Settings

Each Enterprise Trunk Group listed also provides the Admin with access to review and manage many of the more advanced settings. The Manage Trunk column offers this access via the **Edit** icon  adjacent to the listing.

The screenshot shows the same table as before, but with a green circle highlighting the 'Manage Trunk' column. The 'Manage Trunk' column contains an 'Edit' icon (a pencil inside a circle) for each row.

Trunk Group	Available / Assigned	Priority	Weight	Manage Trunk
2100017914-ab01	Assigned	10	10	
2100017914-ph01	Assigned	10	50	
2057300443TRUNK	Assigned	0	0	

1. Click on the **Edit**  icon adjacent to the selected Enterprise Trunk group within the table to open a new dialog for setting review and maintenance.

Use caution. Erroneous modifications to these settings can result in negative service impacts.

3. Click on the **Save** button (top right) when finished to submit any changes and close the dialog.

*MICROSOFT TEAMS

Limited/Restricted Access. Only organizations that have Microsoft Teams connector integrations may see this section and only Authorized Microsoft Teams Administrators should access and use these management tools.

The **Microsoft® Teams** section requires advanced permissions for MS Teams Admins and offers access to administration tools for managing the basic user voice network TN assignments for MS Teams users. Post-deployment, Teams Admins with access to work in this area are auto-directed to the **User List** tab when *Microsoft Teams* is clicked in the left Navigation Menu panel. The User List area displays the licensed Teams users that have been loaded into the account from Microsoft Office 365 and offers access to the tools provided for managing Teams User TN assignments within this portal.

The tabs listed at the top of the Microsoft Teams section include:

Deployment Tabs:

- **Connect to Microsoft 365** - Restricted/Limited access for Teams Admins to connect to MS Teams
- **Setup Domains** - Restricted/Limited access for Teams Admins to setup domains on correct zones
- **DNS Configuration** - Restricted/Limited access for Teams Admins for DNS configuration
- **Setup Temp Users** - Restricted/Limited access for Teams Admins to create example temp users
- **Derived Routing** - Restricted/Limited access for Teams Admins for Derived Routing setup

Post-Deployment Tabs:

- **User List** - Restricted/Limited access for Teams Admins to manage TN / Derived Routing assignments for integration with the service provider's network

Note: Only a limited set of tasks may be completed in this portal. MS Teams Admins can review useful deployment / setup information and manage settings limited to Call Routing access or TN assignment changes within these sections. To complete management and maintenance tasks that cannot be performed in this application, Microsoft Teams Admins may access the full set of the assigned user and account administration tools for their MS Teams instance by logging into the appropriate **Microsoft Teams/Microsoft 365/O365 Administration Portal** directly.

User List

This Microsoft Teams tab section is the default post-deployment view for Authorized Teams Admins.

The **User List** provides tools to review basic Teams User information and  **Edit** each Teams user's TN assignment or call routing setting from this portal and offers read-only access to select additional Teams User information that is entered by the Teams Admin via the Microsoft 365/O365 Teams account Admin portal. This section is the default view when opening the Microsoft Teams section once deployment is done.

First Name...	Last Name...	Principal...	Phone	Street	State	Last Up...	User State	Usage L...	Sip Proxy	User Type	Manage User
		...					US		...		
		...					US		...		
			
		...					US		...		
			
		...					US		...		
			
		...		1200 CORPO DR	AL	2021-04-30T13:2...	US		...		

Section Search

Enter terms to locate data specific to the **User List** section.

Columns

The column headers can be clicked to sort list contents alphanumerically. The **Phone** column contents offer a link to each User's Dashboard after TN assignment for easy access to view or edit any non-Teams voice services/settings available for management in this portal.

Edit

Teams Admins Only.
The **Edit** button next to each listing in the table opens the Edit dialog for TN assignment or Call Routing maintenance.

Export Users

Teams Admins Only.
Click this link to export a correctly formatted .csv file template containing current TN data for Teams Users to your local system to edit specific Teams User account data. **Note:** Use with caution. Customer Support should be contacted for assistance.

Import Users

Teams Admins Only.
Click this link to import a correctly formatted .csv file containing specific User data from your local files into the portal to update TN assignment or routing enable/disable settings. Use with caution. Or - simply use the **Edit** feature for a specific user listing. Contact Customer Support for assistance.

Search Teams User List

The section **Search** field at the top of this tab allows the Admin to enter terms to find within the User List. Matching listings display for review or selection. Remove the search term from the field to redisplay the full default list view.

Export List

The Export Users link creates a pre-formatted .csv spreadsheet file containing the current list of Teams Users that can be opened for review/edit and saved locally. This data is imported from Microsoft Teams. Only the TN assignment and routing on/off setting can be updated using this form.

1. Click the **Export Users** link (top right). The system will create a file for review and download locally.

2. Click on the **MSUser (x).csv** file that displays at the bottom of the browser to open or save the file locally. This file is useful for reporting or to update the following information for multiple users at once and then import into the portal: TN Assignment and Derived Routing On/Off.

3. Use the browser or application tools to Save the copy to a local folder or system file.

Import List

Click this link at the top right of the **User List** view to import a correctly formatted .csv file containing specific User data from your local files into the portal. This is useful when there is a need to update the TN Assignment of a large number of Teams Users. Otherwise, the **Edit** icon next to a User in the list offers access to complete this task for individual Teams Users. Use caution. See also: Export List.

Manage Teams User - TN Assignment

Authorized Admins may have access to assign and edit Teams User TN assignments within Microsoft Teams > User List. Please note, that the majority of the information displayed to Admins in this section is read-only and offered as a reference. Fields that display a red circle with a slash icon  when the cursor is hovered are read-only.

1. Click on the Edit icon  adjacent to the desired User in the far-right Manage User column.

While working in Microsoft Teams > User List:

The Update Microsoft Teams User dialog displays. In this view, only the TN Search field at the top of the list allows the Admin to make changes, but the other fields are read-only.

2. Click within the TN Search field to use the dynamic search tool to locate unassigned telephone numbers in your inventory that can be selected for this user.
As you type a useful search entry, the list will filter to show any available TNs that contain matching information for review and selection.
3. Click on an item within the search results to select it and assign it to the user.
The system will automatically update this Teams User's settings to use this new TN for Teams calls.

Upon completion, click on **Microsoft Teams** in the left Navigation Menu or the **User List** button at the top of the view to return to the User List - or select another area of the My Cloud Services Portal to review.

Manage Teams User - Routing

Authorized Teams Admins may have access to manage the Teams User call routing setting within this portal. Please note, that the majority of the information displayed to Admins in this section is read-only and offered as a reference for settings/features that may be managed in MS Teams portal.

While working in Microsoft Teams > UserList:

1. Click on the [Edit](#) icon  adjacent to the desired User within the list in the far-right *Manage User* column.
The Update Microsoft Teams User dialog displays. In this view there is a button to Enable or Disable Direct Routing for the Teams User. Only the TN Search field can be edited.
2. Click on the Enable/Disable Derived Routing button (top right).
This button is dynamic and shows the action that can be taken currently.
For example, when Derived Routing has already been setup the button displays *Disable Derived Routing*.

 - **Enable:** Ensure a TN has been assigned and confirmed and then click [Enable Derived Routing](#).
 - **Disable:** Click the [Disable Derived Routing](#) button to turn routing off.
Use Caution: This action also removes the current TN Assignment.
Once clicked, the system will display a confirmation dialog.
3. Click on the [Yes](#) button to continue and make the change - or click [No](#) to stop and return to the list view without making a change.

The system will update and display a message upon successful completion, or in the case of an error, will offer an error message. Contact your organization's MS Teams Admin for assistance. Upon completion, the Admin may exit this dialog and click on Microsoft Teams in the left Navigation Menu to return to the User List - or select another area of the Cloud Services Portal to review.

Teams Deployment Tabs

Connect to Microsoft 365

Teams/Microsoft 365 Administrators Only. This Microsoft Teams section tab is for deployment of the connection to the MS Teams instance and use should be restricted to MS Teams Administrators. It allows an authorized Teams Admin to begin the setup and deployment process by securely entering and verifying the correct Admin Username/Password access credentials for their Microsoft 365 or O365 Teams account to create the connection. Other fields in this tab are pre-formatted to contain the correct information and cannot be edited. The Notes section displays instructions and information about tasks performed at this step in the deployment process.

During Deployment: The User Name and Password fields need to be completed with the Microsoft365/O365/Teams account access credentials, Saved, and then Verified. All other fields are read-only and pre-formatted to contain the correct information for setup. The password credentials are secured and obscured.

Read-only fields display a red icon when the cursor is hovered over the field.

Post-Deployment: The User Name and Password may be updated (and verified) by an authorized Teams Admin when necessary. All other fields remain read-only.

Only a Teams Admin should attempt to make changes in the Microsoft Teams section.

Add Microsoft Teams Account Admin Access Credentials

1. Enter Microsoft 365/O365 Administrator User Name and Password credentials using the secured fields provided.
2. Click **Save** to update.
3. Click **Verify Credentials** - the system will verify the connection and provide a **success** or **failure** notification.
Check the account information in Microsoft 365/Teams and retry entry of credentials as necessary until a successful connection is made.
4. If this is the initial deployment, click **Continue** (or click on the **Setup Domain** tab) to proceed to the next deployment step - or select another Admin Tools menu option to complete other tasks.

Edit Microsoft Teams Account Admin Access Credentials

Only Authorized Teams Administrators should be permitted to edit the account access credentials for the organization's Teams instance connection within the Cloud Services Portal when they have been updated/changed in the Microsoft 365 account.

1. Enter new Microsoft 365/O365 Administrator User Name and Password credentials
2. Click **Save** when the new credentials are entered.
3. Click **Verify Credentials** and wait for the success notification.
Check the credentials in MS Teams and try again if the verification process is unsuccessful.

Setup Domain

During the deployment process, this tab section provides access for an authorized Teams Admin to submit the domain information and complete the first step for enabling Derived Routing for the account. The Notes section offers brief instructions and information about the task performed at this step.

Microsoft Teams

Connect to Microsoft 365 **Setup Domain** DNS Configuration Setup Temp Users Derived Routing User List

In this Deployment Step:
The SBC Primary and Secondary FQDN domains will be added to the Office 365 / MS Teams Tenant for Derived Routing.

View Domain Information for Derived Routing Continue

Domain Created: 10/27/2021, 3:52:24 PM

Support Notes
In this step, the Deployment Wizard helps the Admin by setting up the SBC Domains in the Teams Tenant for Derived Routing. The Primary and Secondary FQDN domains are pre-formatted using the Enterprise ID.
Click on the Setup Domain Routing button to add the information to the Microsoft 365 Tenant. Once the green Domain Created status notification appears (or after deployment is completed) the Admin may elect to click on the View Domain Information for Derived Routing button to review the setup information.
When completed and verified, click the Continue button to move on to the next deployment step.

The information in this deployment tab is read-only and cannot be edited.

An authorized Teams Admin may click the [Setup Domain Information for Derived Routing](#) button to perform this deployment task. A creation timestamp displays at the bottom of the tab when completed.

Click [Continue](#) to move on to the next step in the deployment process.

View Domain Information for Derived Routing

Post-Deployment, an authorized Teams Admin may review the setup completion notification and click [View Domain Information for Derived Routing](#) to see the setup information in this tab.

DNS Configuration

This deployment wizard tab allows an authorized Teams Admin submit a request for DNS domain creation and configuration on the correct zone for the account. The Notes section displays brief instructions and information about the tasks performed in this tab for deployment.

Microsoft Teams

Connect to Microsoft 365 Setup Domain **DNS Configuration** Setup Temp Users Derived Routing User List

DNS Ticket ID: 01213531
DNS Ticket Created On: 10/27/2021, 7:45:27 PM
Ticket Status: Closed

Create Ticket Continue

DNS Ticket Created: 10/27/2021, 7:45:27 PM
DNS Ticket Completed: 10/27/2021, 7:52:48 PM

Support Notes
In this step the Deployment Wizard allows the Admin to submit a prepared ticket to the Support Team containing the correct information (collected from the previous steps) requesting the update for DNS entries in preparation for the next deployment steps for the connection with the Microsoft 365 Tenant and the provider network.
Click the Create Ticket button to submit the setup request to Support.
Note the DNS Ticket ID when it is created.
The Ticket Status field will update to indicate progress.
Once completed (Ticket Status = Closed) and the green DNS Ticket Completed confirmation with time-stamp displays at the bottom of the tab, click the Continue button to move to the next deployment step.

The information in this tab is read-only cannot be edited.

An authorized Teams Admin may click the [Create Ticket](#) button during this step in deployment to auto-submit a prepared ticket to the correct department and then review ticket number and subsequent completion notifications when that process is complete and the ticket is closed.

Once the [Ticket Completed notification](#) displays below the buttons in the tab, click [Continue](#) to display the next tab and the next deployment step.

Create DNS Configuration Ticket

An authorized Teams Admin may click the [Create Ticket](#) button during deployment to submit the prepared ticket to the correct department for DNS Configuration. Once submitted, the MS Teams Admin may review ticket number and subsequent completion notifications when that process is completed, and the ticket with the Service Provider has been closed.

Click [Continue](#) when configuration is complete to display the next deployment step.

Post-Deployment: Authorized Teams Admins may access this tab to review the setup completion notification data and the ticket closure date/time information for this step in the deployment process.

Setup Temp Users

During the deployment process, this tab allows an authorized Teams Admin to specify the correct License type and then generate the pre-defined temporary users for the account. The system will take some time to replicate and update completely before further deployment tasks can be performed.

The **Notes** section displays instructions and information about for the tasks performed in this section for deployment.

The screenshot shows the 'Microsoft Teams' deployment wizard. The 'Setup Temp Users' step is highlighted with a green box. The wizard includes a progress bar with steps: 'Connect to Microsoft 365', 'Setup Domain', 'DNS Configuration', 'Setup Temp Users', 'Derived Routing', and 'User List'. Below the progress bar, a message states: 'This step creates Microsoft Teams Temp User 1 and Temp User 2 using the License Type selected.' There is a 'License Type' dropdown menu currently set to '-Select-'. Below this are two buttons: 'Create Temporary Users' and 'Continue'. A status message at the bottom indicates: 'WAIT 24 HOURS FOR REPLICATION ACROSS THE SYSTEM' with a timestamp '8/15/2021, 1:36:16 PM' and 'Temporary Users Created: 8/12/2021, 1:36:16 PM'. On the right side, there is a 'Support Notes' section with instructions: 'In this step, the Deployment Wizard allows the Admin to select the correct License Type and create Temporary users (as shown in the Temp User 1 and 2 fields) within Microsoft 365 to validate the domain configuration setup completed in the previous steps and prepare for Derived Routing setup. Select the License Type from the drop-down list of options. Click on the Create Temporary Users button. Please wait for 24 business hours to allow Microsoft 365 to replicate the domains across their systems. When completed (and after 24 business hours have elapsed to provide time for propagation through the Microsoft system), click Continue to move on to the next step. Note: A Microsoft 365 Tenant Admin can remove these temporary test users in the Microsoft 365 portal after the Derived routing setup is completed and it has been verified that it is working.'

During deployment, the two Temp Users displayed in this tab are auto-populated from those set up in MS Teams and cannot be edited. The Teams Admin may complete the following tasks here:

- ❖ Select the correct License Type from the drop-down list of supported licenses.
- ❖ Click the [Create Temporary Users](#) button. This submits the information for creation. *Upon completion, Authorized Teams Admins can review the creation notification data.*
- ❖ Check back after 24 hours to review and click the [Continue](#) button to move on to the next step.

Post-Deployment: Teams Admins may review the setup completion notification / task completion date/time information for this step in the deployment process.

Derived Routing

This Microsoft Teams section is for deployment and has restricted/read-only access for Admins.

During the deployment process, it provides access for an authorized Teams Admin to Verify the domain information and complete the step for enabling Derived Routing.

The **Notes** section offers brief instructions for the task that can be performed in this tab.

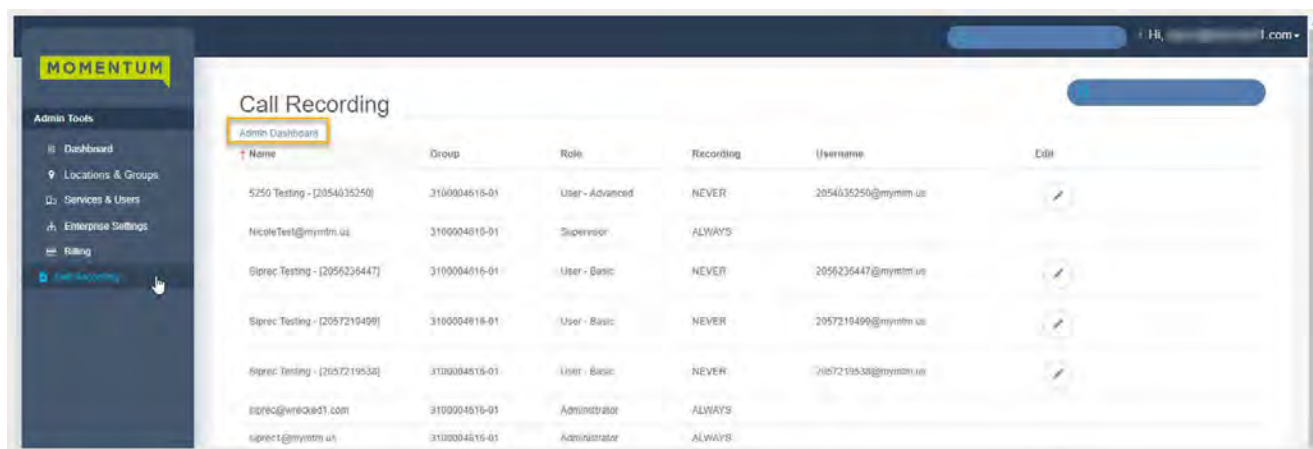

The screenshot shows the 'Microsoft Teams' section of a deployment wizard. At the top, a progress bar contains six steps: 'Connect to Microsoft 365', 'Setup Domain', 'DNS Configuration', 'Setup Temp Users', 'Derived Routing' (which is highlighted with a green box and a mouse cursor), and 'User List'. Below the progress bar, the text reads 'Submit the request to setup and enable Derived Routing.' On the left, there are two buttons: 'Setup Derived Routing' and 'Continue'. Below these buttons, a green message states 'WAIT 24 HOURS FOR REPLICATION ACROSS THE SYSTEM' followed by a timestamp 'Derived Routing Setup: 4/12/2021, 5:42:52 PM'. On the right, a 'Support Notes' box contains the following text: 'In this step, the Deployment Wizard helps the Admin enable Derived routing of voice traffic between the Microsoft Teams Tenant and the Voice Network. Click on the Setup Derived Routing button. Wait 24 hours for this process to be completed. Once this step is complete, Derived routing and TN assignments may be setup for the individual Teams users already added and assigned licenses in the Microsoft Teams Tenant.'

During Deployment: The fields in this tab are auto-populated with the correct information and cannot be edited. An authorized Teams Admin may click the [Setup Derived Routing](#) button during Deployment to initiate the setup process. Note: this process takes approximately 24 business hours to complete and replicate across the system. Once the setup process is finished, a notification of setup completion displays with a timestamp. At that point the Admin may click [Continue](#) to move on to the next step (User List) in the deployment process.

Post-deployment: Authorized Teams Admins may review the setup completion notification data and the derived routing readiness verification information in this tab.

*CALL RECORDING

Limited Access section for Call Recording voice setting and access administration tasks. Authorization required. The Call Recording section displays to authorized Administrators only if Call Recording licenses have been provisioned for users on the account.

The display within the Call Recording page offers useful information about the users on the company's account that have been granted Call Recording licenses. This area offers tools to search the list of users in the display, view or manage the basic BroadSoft voice settings related to Call Recording for each licensed user, and a link at the top of the page for the Administrator (who is currently logged into the Cloud Services Portal) to access their Call Recording portal Admin account (if enabled) within a new web page.

Search Call Recording Users

The Search bar within the Call Recording page offers a useful way to filter the page and find a user based on the data displayed within the table. Like the general site search bar, this field offers a dynamic search. As the Admin enters text into the page search field, the system locates all matches in the table below and displays them as a list for review. The Admin may click on the Edit icon next to a listing to make changes.

Manage Call Recording-Related Voice Settings

While viewing the Call Recording page:

1. Locate the user in the list.
2. Click on the listing's Edit icon (far right column).

The User Voice Settings dialog displays.

3. Select and/or enter information as needed in the following sections within the Voice Settings dialog:

Record Call - Click to select one of the following record options:

- ☐ Always - (Default) Call recording is always on and saved and the user cannot pause or stop recording. This option is best for basic agent/users who should not have access to the Call Recording portal and do not need to control when or whether calls to or from their line are being recorded.
- ☐ Always with Pause/Resume - Call recordings are always on, and the user can pause and resume from their device as needed for privacy compliance. This option is good for basic agent/users who should not have access to the Call Recording portal and have need to occasionally pause the recording on their device to accept private information and then resume recording.

- ☐ On Demand - Call recordings will be saved from the start of the call when the user manually starts recording. This option is good for any licensed user (typically Advanced Supervisor/Admin) who should be able to control whether calls are being recorded on their extension.
- ☐ On Demand with user initiated start - Call recordings are started by the user and the recording is saved only during the time the user initiates and ends recording during the call. This option is often assigned to advanced license users (Supervisors or Administrators) who should be able to control whether their calls are recorded and when recording should occur within a call.
- ☐ Never – If selected, the user's calls will not be recorded or saved until a different option is selected.
- ☒ Play Call Recording Start/Stop Announcement - Click to enable the use of an automated announcement when recording is manually started or stopped by the user (when Pause/Resume or an On Demand setting is selected). *See also the Play Announcement Notification below.*
- ☒ Record Voice Messaging - Option displays for Executive+ Seats only if enabled for use in BroadWorks. Click to enable call recording of voicemails left by callers.

Pause Resume Notification - Select one of the following options for notifications when using the pause feature:

- ☐ None – Default. No notification is played when Pause or Resume are applied for call recording
- ☐ Beep - A beep plays when Pause or Resume are used if selected.
- ☐ Play Announcement – If enabled, a brief automated announcement plays at Pause/Resume.

Recording Notification - Elect to use warning tones, as desired:

- Optional: ☒ Click to enable the use of a repeating warning tone during recorded calls and set the number of seconds between the tones being played. Minimum = 10 sec | Maximum = 1800 sec. Example: 120 = every 2 minutes. The defaults for this = **OFF** and 15 seconds.

- ☐ Display Call Recording Connect Access Link in User Dashboard. **Default = OFF.**

This is an optional access control setting to manage access link display within the My Cloud Services Portal. Click to add a check mark in the box to **allow authorized and licensed** Call Recording Portal Supervisors or Admins to view a link to the Call Recording site when logged into their My Cloud Services Portal account in the Dashboard (or within the Call Recording section if enabled for a My Cloud Services Portal Admin's account).

Important Note: Most Call Recording License holders should not have access to the Call Recording site. Those who will not be accessing the 3rd party Call Recording Portal as a licensed Supervisor or Admin to work with recorded calls should have not have this setting turned on and it should be kept disabled/turned **OFF**.

- Click the **Save** button at the bottom of the dialog when finished to update the settings. Or click the **Cancel** button, or the X (top right) to exit the dialog without making changes.

Access the Call Recording Portal

Authorized Call Recording portal Admins logged into the My Cloud Services portal as an Admin may have access to a direct link to the Call Recording portal from the **Call Recording** section in Admin Tools.

Note: Links to open the Call Recording portal will only allow the level of access the user has (if any) to work in it. If a My Cloud Services Portal Admin does not have sufficient access permission to work in the Call Recording portal, the system will not allow automatic sign in. If the license holder is a call recording portal admin or supervisor, but NOT a My Cloud Services Portal Admin, they can be allowed to see an link in their User Dashboard. (Refer to the "Display Call Recording Connect Access Link in User Dashboard" setting described above.)

While viewing the Call Recording section:

Click on the **Admin Dashboard** link (top left above the list).

This opens the Call Recording portal in a new browser window tab.

***WEBEX**

Limited Access section for accounts with Webex application licenses only.

The Webex section displays to authorized Admins only if Webex licenses have been purchased for users on the account. The Webex page displays the current Webex Self-Activation process state for each licensed user (as of the last refresh of the data) in a searchable and sortable table. This is useful for tracking each user's self-activation status. The information displayed in the table is read-only. A listing with an email entry in the Email column has at least begun the Self-Activation process.

MOMENTUM

Webex

Review progress of Webex activation for your users:

Section Tools

- **Drop-Down Selection Tool** (top right) - allows the Admin to filter the table contents by useful Webex Self-activation process states, as needed. Filter options here can include:
 - **All** - (Default) Displays the licensed Webex users on the account at any self-activation process state.
 - **Provisioned** - Displays the licensed users that have completed self-activation and are provisioned in Webex.
These users are able to download and install Webex, or may have done so and completed the Self-Activation and installation process.
 - **Pending Email Input** - Displays the licensed users that have not begun self-activation by submitting their email address for validation in the Webex activation portal.
 - **Pending Email Validation** - Displays the licensed users that have entered their email in the activation portal and Webex is in the process of validating that the email address is not already in use, or has instructed the user to delete old account(s) using that email address and is awaiting completion of that task to proceed with validation for use with this license.
 - **Provisioning** - Displays the licensed users that have validated their email with Webex and Webex is in the process of preparing the account to allow download and install of the Webex application.
- **Section Search Tool** (top right in the page) - search terms found in the table below.
- **Column Headers** - sort the table data below alphanumerically by the column contents.
- **Refresh Status** - click this button adjacent to a listing in the table to check for the latest Webex self-activation process status of an individual license holder.

- **Directory Sync** Click the **Directory Sync** button (top right) to manually request contact directory synchronization with Webex.

Directory Sync

- The Directory Sync button can be clicked by an authorized Admin once every 24 hours as long as the button is active. If the button is not active/grayed out, the 24 hour period has not yet elapsed.
- A status message under the button shows last time attempted and the current status until completion.
- While processing, the notification displays to identify that a request is in queue and processing.
- Upon completion of processing, the date/time of the sync completion displays as a notification to Admins.
- The amount of time to complete the sync is dependent on the number of requests already in queue for the Service Provider and Webex, as well as the size of the data to be updated in all of those requests. The status notification message will indicate when the process had finished for the latest request.

The Directory Sync button becomes unavailable for any Admin to click while a request is in queue processing and for 24 hours after a request to synchronize was completed.

Please Note:

- At least **one** (1) Webex license holder on the account (and listed in the table) must have completed self-activation on the Momentum control hub and completed login within their desktop application in order for Webex to identify the enterprise for directory synchronization. If no licensed users have activated at the time an Admin clicks the Directory Sync button, the Directory Sync will add the request to the queue, attempt to process, and then will eventually return an error message since a sync can't be performed until there is at least one licensed user who has activated and logged into their Webex application.
- Directory Synchronization is automatically performed by Webex at least once every seven (7) days for activated enterprises. There are no notifications displayed in the Webex applications or this portal when these automated syncs performed by Webex occur. The automated Webex Directory Syncs do not impact the usage of the Directory Sync button in the Webex section.

Important Note: A license holder that does not have an email address listed in the **Email** column, and/or one that has a **Status** of **Pending Email Input**, has not yet begun the process of Self-Activation in the Webex activation portal and has not installed the Webex application.

- **Export** link (top right) allows the Admin to download the listings in the current table view (Filtered or Sorted) to a .csv spreadsheet file that can be saved locally.
- **Additional Filters** Helpful table filtering fields below the sortable column headers allow the user to filter by Location, License Type, Service ID, Ext(ension), First or Last Name, Email address, and/or Email Validation Status

*CIRCUITS

Data Customers only. Limited Access section that displays to authorized Admins on accounts with circuit devices in inventory (monitored/unmonitored).

The Circuits section displays to authorized Admins only if networking circuit devices have been purchased on the account. This section offers a searchable list of the circuits on the account with tools that allow an Admin to sort the list **↑** alphabetically **↓** by clicking on the column headers, Edit  some circuit information, and view performance data for an item in the table. This section provides authorized Admins with helpful information about the circuits on the account.

Circuit ID	Circuit Name	Speed (Mbps)	Location	Status
R02228	D60002	100	1 Concourse PKWY, ATLANTA, GA 30328	Open Ticket 
R02130	D60003	500	3286 N Park BLVD, ALCOA, TN 37701	Open Ticket 
R02126	D60004	100	111 S Independence Mall E, PHILADELPHIA, PA 19106	Open Ticket 
8993208010326875	D60001	250	1200 Corporate DR, BIRMINGHAM, AL 35242	Open Ticket 
NP20002-PIT-PA	D60005	200	1200 Corporate DR, BIRMINGHAM, AL 35242	Open Ticket 

Section Search

Enter terms to locate data specific to the **Locations & Groups** section listings

Status

Up | Down color coded indicators for **monitored** circuits

Edit

The Edit icon adjacent to each listed item opens the *Edit Circuit Item* dialog

Open Ticket

Where visible, click to create and submit a ticket for the adjacent device

Graphs

The Graph Icon opens a new view with graphic displays of useful performance metrics for the adjacent item

The table in the Circuits List provides the following information for each listing:

- Circuit ID – The circuit identifier
- Circuit Name – The circuit type name - can be changed to display in lists within this portal
- Speed (Mbps) – General upload/download speed of the circuit displays (where applicable)
- Location – The location information on file for the item
- Status – If monitored, this column displays an up/down status indicator. Green ● = UP | Red ● = Down
- Open Ticket – If visible, click to create and submit a ticket for the adjacent device - Ref: Support Tickets
- Graphs – Click to view graphical performance metrics
- Edit – Click to edit information shown in this portal related to the adjacent device

Edit Circuit Information

While viewing the Circuits List, some information can be modified for each listing.

1. Click on the Edit  icon adjacent to the desired listing to open the Edit Circuit Item dialog.
2. As needed, make changes to the following (where authorized and/or if the system allows edits for the item):
 - Circuit ID: Read-Only. The assigned identifier for the circuit
 - Circuit Name: The circuit type name
 - NID MAC: Read-Only. The mac address for the device
 - Download Speed (Mbps) and Upload Speed (Mbps) - Enter/edit the speed displayed for the device.
 - Location: Read-Only. The item's location address on file.
 - Notification Email: Enter an email address for receipt of automated notifications from the service provider - if it is monitored.
3. Click **Save** when finished to update the system with the new information and exit the dialog or click **Cancel** to quit and exit the dialog without making changes.

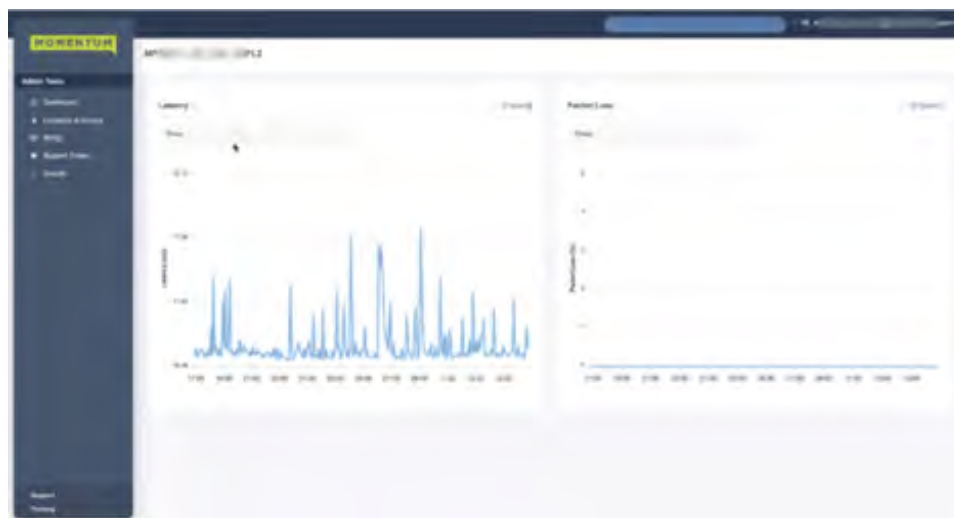

View Performance Metrics

While viewing the Circuits List:

Click on the name of the desired item where it is listed in the **Circuit ID** column to open a view with performance metrics for that item. Interactive graphics show useful metrics data and historical information like Latency history and Packet Loss data.

Use the filter tools above each chart section in view to review performance metrics for specific time periods or data types.

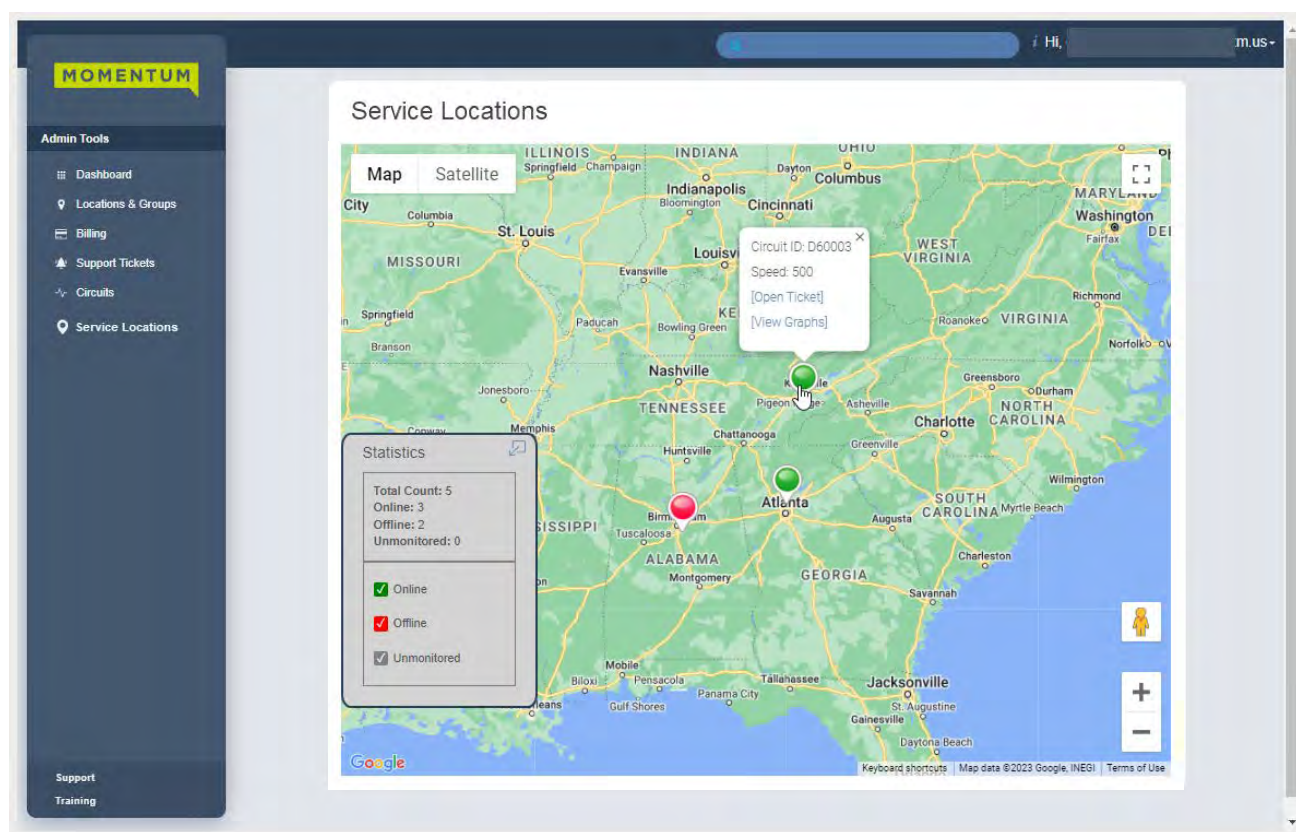

Hover the cursor over the graph to view more precise metrics.

Click the [Expand] tool to increase the size of the selected section for a better view and click the dashboard link in that view to return.

Service Locations

The [Service Locations](#) menu link opens a user-friendly map view of circuits currently being monitored.

- The map view can be expanded and moved around using the + | - tools (lower right) or the cursor.
- The map can be displayed in Map Terrain view or Satellite view.
- Basic Statistics display - select specific circuits to refine the data or minimize the statistics dialog view.
- Click on a pin in the map to view more information about a specific circuit noted in the map.

*ADVANCED PERMISSION SECTIONS

Restricted Access and Provider-Level Sections

The Service Provider in conjunction with the organization's management will define the SuperAdmin for the account, who will then define permissions for other Administrators (if any) who may be granted access to one or more provider-level or advanced permission sections and any tools that may be found within them. As a best practice, access to provider-level tools will not be granted by the Service Provider until well after implementation and system stabilization have been completed. These are areas where improper usage can negatively impact billing or services, and Administrators should have time to develop more advanced expertise and completed specialized additional training *prior* to access being granted by the Service Provider. As a rule such access can be discussed about 6 months after hand-off to AM/Support following implementation completion.

By default, these areas are only made available to an organization's SuperAdmin and all other Administrators have no access permissions set up.

Only Authorized Administrators should be provided with access to view or work with any of the tools in the following restricted access sections.

- Billing (Default: SuperAdmin = FULL, Billing Admin = FULL, all others equal NONE)
- Service Changes (Default: ALL = None. requires Service Provider approval/training)
- Devices (Default: All = None. requires Service Provider approval/training)
- Support Tickets (Default = SuperAdmin = FULL, all others = NONE)

Note:

Momentum Telecom provides expert, 24/7 assistance and maintenance for our customers. This exceptional level of service is how we make sure each and every customer is well taken care of and their systems continue to be healthy and problem-free.

The Advanced Permission areas are 'use at your own risk'. Great caution should be used when planning to offer access to any of the tools in these Advanced Permission areas to any members of your staff.

Should the leadership of your organization decide to discontinue that hands-on support service experience and attempt to implement self-management of additional billing and service impacting areas of the telephony and integrated services on your system instead, it is recommended that caution should be used when deciding whether to allow Admins to be trained to use and then granted access to one or more of the Advanced Permission Sections. Enabling access to these sections requires the assistance of the Service Provider. To protect customers' accounts from accidental misuse, completion of additional training on the proper use of the provider-level tools in each of these areas is often a prerequisite prior to the Service Provider enabling access and setting up individual Admin tool access to those areas.

It is also *recommended* that additional 'self-management' not be attempted until well after the system's implementation has been completed and has been live and in stable use for some time. The typical period to allow for confirmation of the system's health and Administrator proficiency with all other tools is approximately 6 months post-implementation for billing/service impacting Provider-Level Advanced Permission sections.

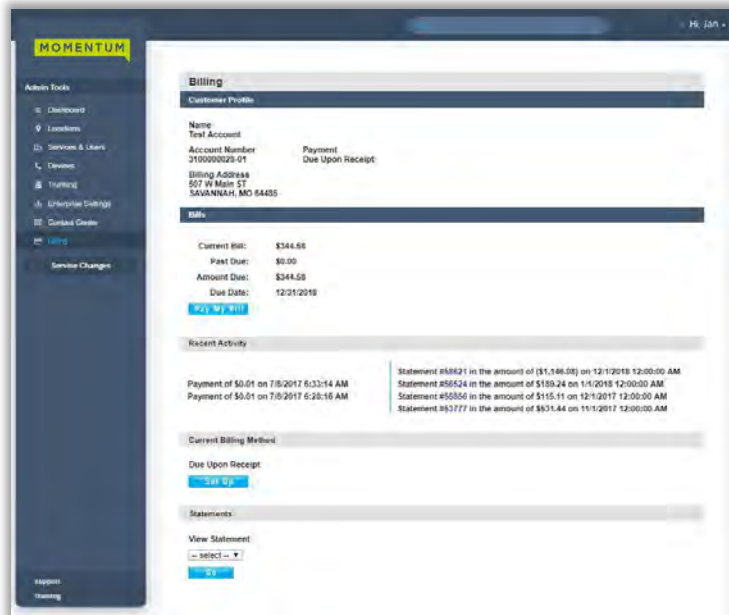

Please contact your Account Manager or Customer Care Management to discuss whether additional access to advanced permission provider-level tools should be attempted or to whom it might be made available.

While additional access to self-manage many tasks that are typically handled by the Service Provider is made available in these Advanced Permission Sections, not all related tasks can be performed by an Admin within this portal. Tasks that cannot be performed from the Portal will still need to be performed by the Service Provider, and, in those cases, an authorized contact for the organization will still be required to contact the Service Provider for assistance with the provider-level actions or tasks that cannot be performed within the My Cloud Services Portal.

*BILLING

Restricted Access. Only Authorized Billing Administrators should access or manage tools in the **Billing** page.

The Billing page provides tools for reviewing and managing the monthly billing and payments for the Enterprise account or Locations on the Enterprise Account (where enabled and authorized for use by the organization).

Authorized Billing Admins may also be notified of billing changes, additional charges, or issues in this view.

Note: A drop-down selection tool may display in the Billing page that allows specially authorized Billing Admins who manage accounts payable (AP) for one or more locations to choose the billing data they wish to review and administer by selecting the appropriate location.

View Customer Profile

The **Customer Profile** section displays an overview of the current billing address, account number, and the current payment method in use.

Billing	
Customer Profile	
Name	Best Company, Inc
Account Number	3100001951-01
Billing Address	880 Montclair RD BIRMINGHAM, AL 35213
Payment	Due Upon Receipt

View Bills

The **Bills** section of the page offers up-to-date information for the Current Billing Cycle, any amounts Past Due, and the option to pay the current bill or setup payments. A drop-down selection tool may display allowing Billing Admins to choose specific data to review and manage.

Amount Due:	\$157.00
Due Date:	7/15/2018
Pay My Bill	

View Recent Activity

The **Recent Activity** section in **Billing** displays the current payment information and [links](#) to review the most recent payment statements.

Recent Activity	
Payment of \$0.50 on 5/16/2018 3:35:10 PM	Statement #70850 in the amount of \$157.00 on 5/15/2018 12:00:00 AM Statement #68699 in the amount of \$223.56 on 5/15/2018 12:00:00 AM Statement #66503 in the amount of \$828.58 on 4/15/2018 12:00:00 AM

View Current Billing Method

The **Current Billing Method** section displays the payment method of record and offers another link to **Set Up** alternate payment methods.

Current Billing Method	
Due Upon Receipt	Set Up

Pay My Bill

Once an authorized Admin is viewing the billing data, the **Bills** and **Current Billing Method** sections of the page offer access options to set up payments.

The **Pay My Bill** button and **Set Up** buttons both open the **Bills** page where you may select from the following payment method options:

1. Fill in the requested information to make a payment and/or create a recurring payment schedule.

Bills

Pay by credit/debit card

[Setup a recurring credit card payment>](#)

[Make a one time credit/debit card payment>](#)

[Setup a recurring bank draft>](#)

Note: Eligible debit cards will be transacted through the Electronic Funds Transfer network. Momentum can process debit cards on the STAR and PULSE networks or debit cards as credit cards provided there is a Visa, MasterCard, or American Express logo on the front of the card.

2. Click **Save** or **Submit** to fill out the forms and complete the payment process you selected.

Setup a Credit Card Payment

Pay By Credit/Debit Card

Please fill in the following information to make a payment. Eligible debit cards will be transacted through the Electronic Funds Transfer network. Please note that Momentum can only process debit cards utilizing the STAR and PULSE networks. If your debit card is not supported either of these networks (see logos on the back of your card for applicable networks), you will not be able to successfully complete a debit card transaction. However, you may utilize your card as credit card, provided there is a Visa, MasterCard, or American Express logo on the front of the card.

*SERVICE CHANGES

Restricted Access - Provider level.

The Service Changes section of the My Cloud Services Portal is an advanced Administration tool that requires additional authorization and recommended training prior to access.

The **Service Changes** page provides a searchable list of the current service orders for the account and the current status of each. Tools are provided to view services by Location, **Add Services**, **Manage User Add-Ons**, **View All Service Changes** (historical activity), **Edit** or **Terminate** incomplete orders, or **Delete** open service change orders. Information and useful system notifications are provided throughout this area to assist trained and specially authorized Admins with Service Change tasks.

The primary Service Change tools listed at the top of the page include:

Select the Location to be managed/reviewed from the drop-down selection tool above the tabs and then choose a tab or action button to begin performing tasks.

Add Services

Opens the **Add Service** view to allow selection and configuration of new service requests/orders.

Manage User Add-Ons

Opens the **Manage User Add-ons** view of the current Add-on assignments, sortable by location and Un-Assign Add-ons to allow reassignment/Change.

[View All Service Changes](#)

Opens the **All Service Changes** view to display a sortable list of all service change requests that have been entered and their status (Open, Submitted, Discarded, Processing). Context sensitive tools are provided to View, Edit, Delete and/or Terminate, based on the current status of the order.

The default view when the Service Changes page displays is the **Open Requests** tab for *All Locations*. Information is provided in a sortable table view. Tabs above the table offer access to all of the service change areas the Admin may access, and the tools to perform related actions and tasks.

The Change Management areas can include Seat Type, Caller ID [CNAM], Block, Extension, Line Type, Listing, Virtual Terminating Number, and IP Trunking Call Path.

Open Requests

The default view when the Service Changes section first displays is Open Requests for All Locations.

Order Number	Account	MACD Type	Customer Name	Created Date	Created By	Modified Date	Modified By	Status	Location

OPEN

PROCESSING

Filter the list by selecting or entering a specific order status type – Open, processing, closed, etc.

Clear Filters

Click the Clear Filters [link](#) above the columns (far right) to remove any applied filters and return to the default sort and display order.

View a Service Change Order

When a service is added and in an Open or Processing status, it is listed for review in the Open Requests tab.

1. Click the [View](#) link adjacent to the item in the far right column to open the read-only *Order Details* view.

278478	3100000028-01	ASSIGN_USER_ADDON	Test Account	02/07/2019	matt.warren	02/07/2019	matt.warren	OPEN	View
--------	---------------	-------------------	--------------	------------	-------------	------------	-------------	------	----------------------

2. Click [Close](#) when finished to exit the dialog and return to the review the list of Service Change requests.

Edit a Service Change Order

If a service change order can be edited, the option to do so is provided.

1. Click on the [Edit](#) link adjacent to an item in the far right column to open the item in *Edit* mode.

Order	Account	MACD Type	Customer Name	Created Date	Created By	Modified Date	Modified By	Status	
	Select ▼	Select ▼							
282861	3100000028-01	ADD_SERVICES	Test Account	03/01/2019	Cloud Services Portal	03/01/2019	Cloud Services Portal	OPEN	Edit

2. Make changes to the order, service configuration, quantity, etc., as needed.

Note: Each service change type requires specific information for configuration. The system will assist users and notify if any missing information is discovered during the auto-confirmation process it completes prior to allowing the order to be submitted.

3. Click [Save](#) when finished to submit the updates/changes for processing.

Delete a Service Change Order

If a service change order can be deleted, the option to do so is provided.

1. Click on the [Delete](#) link adjacent to the desired item in the far right column.

282786	3100000028-01	ADD_SERVICES	Test Account	02/28/2019	Cloud Services Portal	02/28/2019	Cloud Services Portal	OPEN	Edit Delete
282545	3100000028-01	ADD_SERVICES	Test Account	02/28/2019	Cloud Services Portal	02/28/2019	Cloud Services Portal	OPEN	Edit

2. Click [Yes](#) when prompted to confirm the action.

The service change order is deleted, and the system updates the list of Open Requests. The history of the action is also recorded and may be reviewed by clicking on the [View All Service Changes](#) link at the top of the Service Changes section.

Terminate a Service Change Order

If a service change order can be terminated, the option to do so is provided.

1. Click on the [Terminate](#) link adjacent to an item in the far right column.

Cloud Services Portal	PROCESSING	View Terminate
Cloud Services Portal	OPEN	Edit Delete

2. Click [Yes](#) when prompted to complete the termination.

It is important to note that while additional access to perform many self-management tasks is provided here, some order and change related tasks cannot be performed by a Customer Admin within the portal and contacting the Service Provider for assistance will still be required for those actions.

Add Services

Specialized Authorization Required. Advanced access to create a new service order for a location on the account. New charges (recurring and/or non-recurring) that can affect billing will be incurred when adding products that have NRC/MRC charges.

Add Services

Pricing is listed and a full Price Book is provided to assist Admins.

Part Name	Product Description	Monthly	One-Time	
DS013	Call Center Number	\$0.00	\$0.00	Add
DS028	Virtual Number	\$0.00	\$0.00	Add
DS014	Call Center CRM Number	\$0.00	\$0.00	Add

Add a Service Change Order

1. Click the **Add Services** button to open the *Add Services* view.
2. Choose a **Location** from the drop-down selection tool.

3. Locate desired items via:
 - a. The **Search** tool above the list.
 - b. Scroll through the list.

Add

4. Click the **Add** button adjacent to the desired item to select it.

The selected item is displayed at the top of the page to allow for **configuration**.

Most service change types require specific configuration information in order to

submit for processing. The system will assist users and notify when missing information is discovered during the auto-validation process it completes prior to allowing the order to be saved and/or submitted.

Note: At any time, users may stop the add process. Click **Remove** to delete the item from the order and click **Yes** to confirm and re-select something else; or click **Cancel** to discard the order and click **Yes** to confirm.

5. Click **Configure** to view configuration details.
6. Enter all **required** and any useful information for configuration of the selected item.
7. Click **Save**. The system will review and then either display a **Success!** message or indicate that there is missing/required configuration information and provide an opportunity to revise and **Save** again.
8. Repeat steps 3 – 7 for any other services to be added to the location in this order.
9. Click **Continue** to proceed to order submission.
10. Enter or select a **Service Date**.

11. Click **Submit Order** when finished to send the new service order and view the *Order Confirmation* page.

During configuration, the system will note any current services or products that are inconsistent or incompatible with a selection, including those that already exist and do not need to be re-ordered, and inform the user if the order is not required.

Part Name	Product Description	Monthly	One-Time	
DS013	Call Center Number	\$0.00	\$0.00	Add
DS028	Virtual Number	\$0.00	\$0.00	Add
DS014	Call Center CRM Number	\$0.00	\$0.00	Add

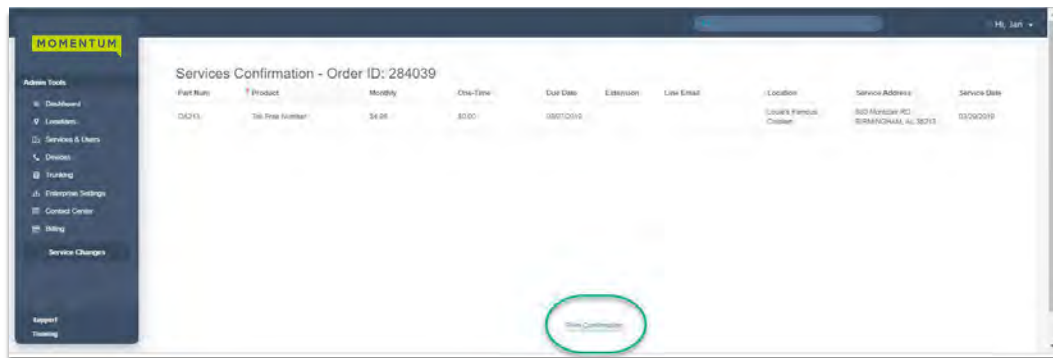

Part Name	Product Description	Monthly	One-Time	Location	
DS027	Single IN	\$0.00	\$0.00	Local's Famous Chicken	Configure

Service Date:

Desired Date is mandatory.

Print Service Change Confirmation

While viewing the *Services Confirmation* page after submitting a Service Change, the option to **Print Confirmation** is provided at the bottom of the page.

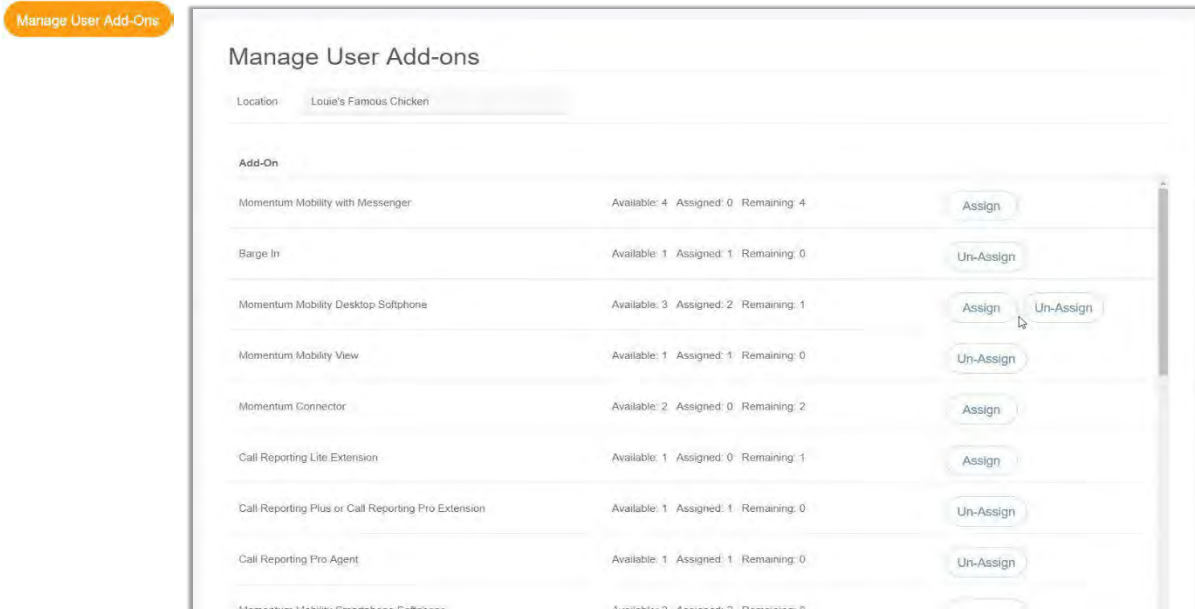

1. Click on the **Print Confirmation** link (bottom of the page) to open the Print dialog.
2. Accept the default settings (PDF, All pages, to local file...) to print all that is displayed per page, or select from the following print options:
 - **Destination:** Click **Change** to specify the print type and file location on your local system.
 - **Pages:** Specify the number or range of pages to print.
 - **Pages per sheet:** Specify the number of pages to print on each page, as needed.
 - **Margins:** Define new top, bottom, and side margins, as needed.
 - **Options:** Click to place checkmarks in the checkboxes for Headers and Footers and Background Graphics to include in the final print copy.
3. Click **Save** when finished to download a copy of the order confirmation.

Manage User Add-Ons

The [Manage User Add-Ons](#) button (at the top of the Service Changes page views) opens the *Manage User Add-Ons* section where users have access to review current user-level add-on services for each location on the account and assign and un-assign those add-ons.

- ❖ This view provides access to lists of the current user add-on services.
- ❖ Filter the view using the Location selection tool at the top of the page (required).
- ❖ Each item in the list offers details that include:
- ❖ [Add-On](#) (service name)
- ❖ Available, Assigned and Remaining add-on counts
- ❖ Management tools to [Assign](#)  available add-ons and [Un-Assign](#)  add-ons.

Note: Any currently assigned User Add-Ons that may conflict with a new add-on must be [Un-Assigned](#) prior to a new Service Change request.

Assign a User Level Add-On

The **Assign** management tool is available to use for User Add-ons that have a count of 1 or more under **Remaining**.

Assign

1. Click the **Assign** button adjacent to an Add-On (far right column).

The list of available users with compatible services displays.

2. Use one of the following methods to locate the user(s) to be assigned the Add-On:
 - Scroll through the list to locate the appropriate user.
 - Use the Search tool at the top of the list to filter the list by name or telephone number(TN).
3. Click on the **Assign** button next to the desired user to assign the add-on.
4. Repeat for any other users if there are multiple Add-Ons available.
5. Click **Save** when finished to submit the change in User Add-On assignment(s), close the dialog and return to the **Manage Add-Ons** view.

The system updates the counts under Available, Assigned and Remaining for the User Add-On changes just entered.

Assign User Add-On

Available: 4 Assigned: 1 Remaining: 5

Un-Assign a User Level Add-On

The **Un-Assign** management tool becomes available for User Add-ons that have a count of 1 or more under the **Assigned** column.

Un-Assign

1. Click on the **Un-Assign** button adjacent to an Add-On (far right column).
2. Click on the **Un-Assign** button next to the desired user to remove the assignment.
3. Repeat for any other users if there are multiple Add-Ons to be unassigned.
4. Click **Save** when finished to submit the change in User Add-On assignment(s), close the dialog, and return to the **Manage Add-Ons** view.

The system updates the counts under Available, Assigned, and Remaining to account for the User Add-On changes just entered.

Un-Assign User Add-On

Available: 3 Assigned: 2 Remaining: 1

Information for the Service Changes that have been made is listed in an easy-to-read table format showing the most recent service changes first by default.

Data within the table includes:

- ❖ **Order**– The ordernumber for the Service Change
- ❖ **Account** – The Location identifier
- ❖ **Service Changes Type** – The service change type
- ❖ **Customer Name** – The parent account
- ❖ **Created Date** – The day the service change was created
- ❖ **Created By**– The Admin who created the service change
- ❖ **Modified Date**– The date of the last change to the order
- ❖ **Modified By** – The Admin who last modified the order
- ❖ **Status**– The current status (Open, Submitted, Processing, Discarded) of the order

Admins with appropriate access can perform the following administrative activities in this view:

- ❖ **Sort** – The column headers may be used to sort the data in ascending/descending alphanumeric order.
- ❖ **Filter**– The data in the table may be filtered using the tools above the table to modify the view by **Order** (*number*), **Account** (*select*), **MACD** (change) **Type** (*select*), **Created By** (*name*) and by **Status** (*Open, Submitted, Processing and Discarded*).
- ❖ **Clear Filters**– This link removes any filter selections and resets the table to the default sort order.
- ❖ **Actions** – The link options to **View**, **Add**, **Delete**, **Terminate** that are adjacent to each listing dynamically provide available actions based on the current status of the service change order.

View Service Change Order Details

1. Click [View](#) next to an item to review the read-only information about the service change order.
2. Click [Cancel](#) when finished.

Edit an Active Service Change Order

This action is available when editing is permissible.

1. Click on the [Edit](#) link next to the desired item to open the Add Services view where editing is permitted.
2. Click the [Configure](#) button to update or modify quantity, name, numbers etc.

Note: Each service change type requires specific information for configuration. The system will assist users and notify if any missing information is discovered during the auto-confirmation process it completes prior to allowing the order to be submitted.

3. Locate, select, and configure additional services (as needed).
4. Click [Save](#) when finished.

Delete a Service Change Order

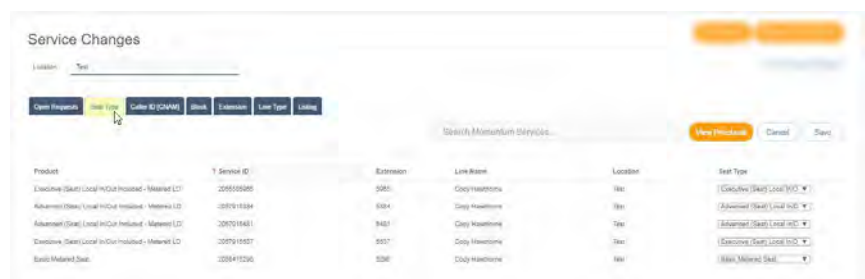

Use Caution: This action cannot be undone. This action is available to select when permissible within the process. **Note:** Completed orders cannot be deleted.

1. Click the [Delete](#) link option adjacent to a Service Change order listing.
2. Click [Yes](#) to confirm the action when prompted.

Seat Type

Change (upgrade or downgrade) seat types for lines in locations on the account. In this tab, Column headers may be used to sort the list alphanumerically by the column contents. A section Search tools provided to allow users to filter the list by entered terms. The details provided for each of the items in the list include the Product (name), Service ID, Extension (current), Line Name, and Location. The *Seat Type* column displays the current seat type and allows the user to select another type to order from the drop-down list.

Note: Recurring and/or Non-Recurring fees may be incurred by changes made here. A link to a copy of the Price Book is provided as a reference.

1. Click on the [Seat Type](#) tab to open the section for review.
2. Choose a Location.
3. Locate the user seat to be changed.
4. **Seat Type:** Click to choose from the drop-down list of available seat type change options for the selected user seat.
5. Repeat for any additional seat changes to other listings for the selected Location.
6. Click [Save](#) when finished to submit the Seat Type change request(s).

Caller ID (CNAM)

Manage/*change* the Caller ID to be displayed for lines in each location on the account. In this tab, Column headers may be used to sort the list alphanumerically. A section search tool is provided to allow users to filter the list by entered terms. The details provided for each of the items in the list include the Product (name), Service ID, Extension (current), Line Name, and Location.

1. Click on the **Caller ID [CNAM]** tab.
2. Select the appropriate Location.
3. Select the service to be receive a CNAM change within the list.

4. **Caller ID [CNAM]:**
Type the name to be displayed to call recipients when *Caller ID* is in use.

Product	T Service ID	Extension	Line Name	Location	Caller ID [CNAM]
Auto Reception	205502049	0049	Realtor Test	Test2	<input type="text" value="Realtor Test"/>
Call Center CRM Number	205502056	0056	Realtor Test	Test2	<input type="text" value="Realtor Test"/>
Premium Contact Center Queue DDO	205502072	3372	Realtor Test	Test2	<input type="text" value="Realtor Test"/>

5. Repeat for any additional Caller ID [CNAM] changes to other listings.
6. Click **Save** to submit the changes for processing,
Or to discard the changes, click **Cancel** and choose **Yes** when prompted to confirm the action.

Block

Manage/*change* settings that block specific call types from lines in each Location on the account. In this tab, Column headers may be used to sort the list alphanumerically. A section search tool is provided to allow users to filter the list by entered terms. The details provided for each of the items in the list include the Product (name), Service ID, Extension (current), Line Name, and Location. Simple On/Off check box tools for the block setting options are provided.

1. Click on the **Block** tab to display the section.
2. Select a Location at the top of the page to display the assigned lines.
3. Locate the line to be changed. **Block:** Click within a check box to ☒ enable/ ☐ disable the setting options, as needed.

These settings include:

- ❖ **Directory Assistance:** ☒ Enable to block calls from the line to directory assistance (USA = 411).
- ❖ **Operator Assistance:** ☒ Enable to block calls from the line to operator assistance.
- ❖ **International Calling:** ☒ Enable to block international calls from the line. (Enabled by default)
- ❖ **Domestic Long Distance:** ☒ Enable to block domestic long-distance calls from the line.

4. Click **Save** to submit the changes for processing.
Or click **Cancel** and confirm when prompted to discard changes.

Product	T Service ID	Extension	Line Name	Location	Block
Auto Reception	205502049	0049	Realtor Test	Test2	<input type="checkbox"/> Directory Assistance (411) <input type="checkbox"/> Operator Assistance (0) <input checked="" type="checkbox"/> International Calling <input type="checkbox"/> Domestic Long Distance

Extension

Manage/[change](#) extension assignments for lines in each location on the account. In this tab, a section search tool is provided to allow users to filter the list by entered terms. The details provided for each of the items in the list include the Product (name), Service ID, Extension (current), Line Name, and Location, and Extension (new). Column headers may be used to sort the list alphanumerically.

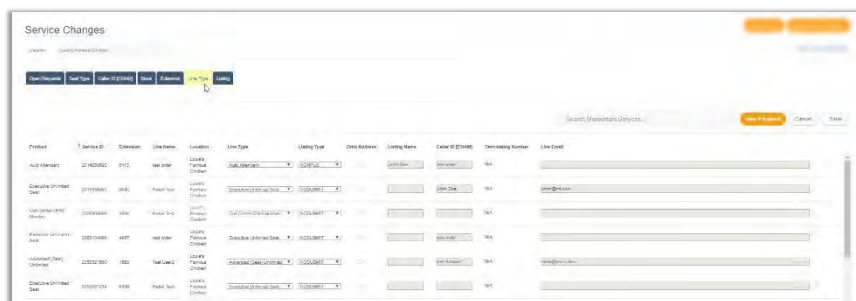

1. Click on the [Extension](#) tab.
2. Select a [Location](#) at the top of the page to view the assigned lines in a simple table format.
3. Locate the item to be changed.
4. Type a new extension number in the [Extension](#) field adjacent to the item in the far-right column.
5. Repeat as needed for other lines.
6. Click [Save](#) when finished to submit the change(s) to the extension(s). Or click [Cancel](#) and confirm when prompted to discard changes to extensions.

Line Type

Manage/[change](#) line type assignments for services assigned to locations on the account. The data in this section is listed in a simple table format. The details provided for each of the items in the list include the Product (name), Service ID, Extension (current), Line Name, and Location. A section search tool is provided to allow users to filter the list by entered terms. Column headers sort the list alphanumerically. The editable fields update dynamically based on previous selections. Be aware that a short loss of service may also occur when [Line Type](#) changes are made. Ref: [Seat Type](#).

Note: Recurring or Non-Recurring fees may be incurred by changes made here. A link to a copy of the [Price Book](#) is provided as a reference. Service changes here may also be subject to a short loss of service while the number is reconfigured in the switch. Devices sharing call appearance may auto-reboot or require a manual reboot after the update. Recommended: Use the [Seat Type](#) tab to upgrade or downgrade seat types to avoid loss of service.

1. Click on the [Line Type](#) tab to open the section for review.
2. Select a [Location](#) at the top of the page to view assigned lines in a simple table format.
3. Locate the line to be changed.
4. Select or define the following as needed to change the [Line Type](#) settings:

Product	Service ID	Extension	Line Name	Location	Line Type	Line Type	Call Address	Line Name	Caller ID (CNAM)	Terminating Number	Line Email
Advanced (Seat)	2007300600	0000	test user	test	[Exclusive Unlimited Seat]	[LISTED]	96	User X	User X	N/A	email@domain.com

- ❖ **Line Type:** Select a new Line Type from the available options in the drop-down. The other listing fields also become available for edit.

Note: If there are User Add-Ons assigned, the system notifies the user that they must be Un-assigned prior to a Line Type change.

- ❖ **Listing Type:** Select an option in the drop-down once changes are made to the Line Type. Options include LISTED, NONLIST, NONPUB and NONSUBMIT (default)

- ❖ ☐ **Omit Address:** Available for edit when *Listed* is selected for the *Listing Type*. Click to place a check mark in the check box ☒ to omit Address in the listing.
- ❖ **Listing Name:** Type the assigned name to be displayed for the service.
- ❖ **Caller ID [CNAM]:** Type the name or term used for outgoing Caller ID (displayed to receivers).
- ❖ **Terminating Number:** Used with Virtual Number Line Type. Enter the 10-digit number (no spaces or special characters)
- ❖ **Line Email:** Enter the full email address (e.g., name@email.com).

5. Click **Save** to submit the change(s) for processing - Or click **Cancel** and confirm to discard changes.

Listing

Make **changes** to the *Listing Type*, *Omit Address*, and *Listing Name* options for the ordered products for each location on the account. The data in this section is listed in an easy to use format. The searchable details provided for each of the items in the list include the Product (name), Service ID, Extension (current), Line Name, Location, Listing Type, Omit Address, and Listing Name.

Product	Service ID	Extension	Line Name	Location	Listing Type	Omit Address	Listing Name
Auto Answer	201420500	5113	test order	Local's Famous Chicken	NONPUB	<input type="checkbox"/>	John Doe
Executive Unlimited Seat	201448882	8802	Retail Test	Local's Famous Chicken	NOSUBMIT	<input type="checkbox"/>	
Call Center CRM Number	202093088	3808	Retail Test	Local's Famous Chicken	NOSUBMIT	<input type="checkbox"/>	
Executive Unlimited Seat	202014888	4887	test order	Local's Famous Chicken	NOSUBMIT	<input type="checkbox"/>	

1. Click on the **Listing** tab to open the section for review.
2. Select a **Location** at the top of the page. The list for the location displays.
3. Make changes to the following Listing option edit fields, as needed:

- ❖ **Listing Type:** Choose from:

- **LISTED** – Select to enter information and list.
- **NONLIST** – Select to enter information but not include in directory listings.
- **NONPUB** – Select to enter information but not include for publishing.
- **NOSUBMIT** – *Default. Read-Only.* Select another Listing Type to make changes.

- ❖ **Omit Address:** Click to place a check mark in the box to omit the Address in the listing.
- ❖ **Listing Name:** Type the name for the listing.

4. Repeat as needed to make changes to additional listings for the location.
5. Click **Save** when finished to update the Listing(s) with the change(s). Or click **Cancel** and confirm to discard changes to Listing Types.

Virtual Terminating Number

This Service Changes tab provides access for authorized Admins to make *changes* to the terminating number assignment for any Virtual Terminating Number lines that have already been added to the account. (Ref: [Add Services](#) and [Line Type](#))

The screenshot shows the 'Service Changes' interface. At the top, there's a 'Location' dropdown set to 'Louie's Famous Chicken'. Below it are several tabs: 'Open Requests', 'Seat Type', 'Caller ID (CNAM)', 'Block', 'Extension', 'Line Type', 'Listing', and 'Virtual Terminating Number' (which is highlighted). A search bar labeled 'Search Momentum Services...' is present, along with 'Cancel' and 'Save' buttons. Below the tabs is a table with the following data:

Product	Service ID	Line Name	Location	Terminating Number
Virtual Number	3048079517	8 8	Louie's Famous Chicken	2057219534
Virtual Number	2085088329	3 3	Louie's Famous Chicken	2057219538

1. Click on the **Virtual Terminating Number** tab in the Service Changes page.
2. Select a **Location** from the drop-down list at the top of the page. *The list for the location displays.*
3. Identify the correct virtual number line within the table. *The Search tool and column headers are available to assist in sorting or filtering the list.*
4. Click within the corresponding field under the **Terminating Number** column (far right).
5. Enter the new 10-digit telephone number (**no spaces/special characters**) to define a new number to which all calls will be directed.
6. Click on the **Save** button when finished to submit the changes and update the system with the new terminating number information.

While the system updates the data for the VTN(s), the change request information may be reviewed in the **Open Requests** tab, and within the **View All Service Changes** page. The *History* of this service change activity may be reviewed in both of those pages, as well.

IP Trunking Call Path

If specialized Trunking is in use within the organization's system, Authorized Admins may see the **IP Trunking Call Paths** tab in the **Service Changes** section. This area provides tools to modify the Call Path Plan and TrunkLimit settings for each TrunkLocation.

1. Click on the **IP Trunking Call Path** tab. 
2. Select a **Location** from the drop-down menu at the top of the page.
The list for the selected location displays. 
3. Identify the correct Location within the table.
The Search tool and column headers are available to assist in sorting or filtering the list.
4. Once the Location has been identified, make changes to the following fields, as needed:
 - ❖ **Call Path Plan** – Click on the drop-down menu to select a new plan option.
 - ❖ **New TrunkLimit** – Type a new amount in this field to update the trunk limit (whole numbers only – no special characters or spaces).

5. Repeat as needed to update any other Trunk Groups listed under the selected Location.
6. Click on the **Save** button to submit the change request(s).

The information for this change request may be reviewed in the **Open Requests** tab, and within the **View All Service Changes** page. The **History** of this service change activity may be reviewed in both of those pages, as well.

*DEVICES

Restricted Access - Provider Level.

Specially trained and authorized Administrators may be granted permission to work with these advanced tools.

The **Devices** section offers a searchable table list view of All Devices, as well as individual lists of the **Assigned** and **Unassigned** devices. These will only display if they have been added into the *inventory* of the account. Admins may also have access to **Add**, **Configure**, **Unassign/Remove** devices, or **Export** the list of devices and their current setting information to a **.csv** spreadsheet. Function icons to the right of each device listing offer access to review the device's activity **History**, **Configure** the device (where allowed), **Unassign** the device, **Edit** unassigned device inventory data, or **Remove** an Unassigned device.

Section Search

Locate data found within the table view below.

Add Device

Add Device

The **Add Device** button allows an authorized Admin to add new devices to inventory one at a time. Once added, the device(s) may be configured and assigned to users.

Export Devices

Export Devices

The **Export Devices** link downloads a .csv spreadsheet containing the list of devices and their current settings for review or reporting.

Tab Views

All Devices Assigned Unassigned Group VLAN Settings Group VLAN Settings

Click a tab to review listed information for **All Devices**, **Assigned** or **Unassigned** Devices, and **Group VLAN** or **FQDN Settings**

Column Link(s)

Assigned To and **TN Count** links provide access to review the device's assignments/numbers and link to the **Services & Users** page listing.

History

Provides access to review the entire history of activity for the selected device.

Configure

Configure

Opens a new view where the user may define or edit the configuration data for the selected device.

Check Registration Status

Poll NEPS / BroadSoft and update registration information.

Unassign

Unassign

Allows authorized users to delete the current assignment for a device, or un-assign and remove the device from inventory.

Remove

Remove

Delete unassigned devices from inventory.

Edit

Edit

Modify unassigned device inventory data.

View Device Lists

Access to review and manage the account's devices in inventory is provided in the Admin Dashboard via the Devices card and the Quick View card for authorized administrators. The Devices section is also accessible via the menu listing in the Navigation panel on the left. The tabs at the top of the **Devices** page offer access to review the device lists for **All Devices**, **Assigned** and **Unassigned** devices.

The default view is **All Devices**.

1. While in the **Devices** section, click on a tab at the top of the page to view related lists of devices in inventory (if any) and to access the inventory management tools for those devices.

Group VLAN Settings

This **Devices** page allows an Admin to manage the default **Virtual Location Area Network (VLAN) ID**, **IP Transport Protocol**, and **Audio and Signaling Encryption** for each location's devices.

Note: Individual devices within the Group may be setup with alternate VLAN IDs or Encryption during provisioning or configuration, and changes to some settings in this tab may require all devices assigned to the Group to be re-provisioned prior to configuration updates taking effect.

1. Click on the **Group VLAN Settings** tab.
2. Select a **Location** from the drop-down menu options.
3. Enable and define the following settings, as needed to define defaults for the group:

Set Group VLAN ID

Use VLAN ID?

On/Off setting. Click to slide the toggle to **ON** and enter the VLAN ID in the field provided. Must be between 2 and 1001, or between 1006 and 4094.

Set Group IP Transport Protocol for Devices

Use TCP? On/Off setting. Click to slide the toggle to **ON** as needed to use TCP as the IP transport protocol rather than UDP (default).

Note: TCP is not the typical transport protocol for voice traffic and should only be used when there are 20 or more Busy Lamp Fields (BLF) configured for one or more individual devices in the group (E.g., Receptionist sidcar device). If the current IP transport protocol settings for this group are changed (Enabled or Disabled), all devices within the group must be re-provisioned before the new setting will be pushed to device configuration files. Contact Technical Support for assistance, as needed.

Set Group Encrypted Audio & Signaling for Devices

Enable Encrypted Audio & Signaling? On/Off setting.

Click to slide the toggle to **ON** as needed for usage.

4. **Save** - Click the **Save** button to update the system with any changes.

Group FQDN Settings

The default Fully Qualified Domain Name (FQDN) can be defined for each Location/Group in the Devices page. The FQDN can also be managed at the individual device level when editing the configuration. While working in [Devices](#):

1. Click on the Group FQDN Settings Tab.
2. Location - Choose a location option from the drop-down menu list.
3. Current FQDN – Read Only. Displays the current default FQDN assignment.
4. Available FQDN – Click within the field to open the drop-down selection list and choose an option from the FQDNs that are available for selection.
5. **Save** - Click the **Save** button to update the system with the new information.

 A screenshot of the 'Group FQDN Setup' form. It shows tabs for 'All Devices', 'Assigned', 'Unassigned', 'Group FQDN Settings', and 'Group VLAN Settings'. The 'Group FQDN Settings' tab is active. Below the tabs, there's a 'Location' dropdown menu, a 'Hosted IP PBX' dropdown, and a text area for 'Setup a Fully Qualified Domain Name (FQDN) as default FQDN for the location'. The 'Current FQDN' is displayed as '192.168.05.1'. There is an 'Available FQDN' field with a dropdown arrow. At the bottom, there are 'Save' and 'Cancel' buttons.

Add a Device

The [Add Device](#) button opens a new view where an authorized Admin can enter new device information into inventory, including the type, MAC address, and location for its usage.

Add Device

While working in [Devices](#):

1. Click on the [Add Device](#) button to begin.
2. Enter or select the correct options for the following:
 - ❖ **MAC Address** – Type the MAC address in the correct format. Assistance is provided if the entered format is incorrect.
 - ❖ **Device Type** – Select the correct type in the drop-down menu.
 - ❖ **Location** – Select the correct location from the drop-down menu.
 - ❖ **Device Notes** – Optional. Enter any useful information about the new device in the field provided.
3. Click the **Save** button to update the system with the new information and close the dialog,
or
Click the **Save & Add Another Device** button to save the information and define the settings for another device in inventory.

 A screenshot of the 'Add Device Inventory' form. It has a title bar with a close button. The form contains fields for 'MAC Address', 'Device Type' (with a dropdown arrow), 'Location' (with a dropdown arrow), and 'Device Notes'. At the bottom, there are three buttons: 'Save', 'Save & Add Another Device', and 'Close'.

Export Device Setting/Configuration Information

The [Export Devices](#) link at the top of the [Devices](#) section view allows users to download the current list of devices along with the information shown within the Devices list to a .csv spreadsheet format (comma-delimited) for reporting or distribution.

Export Devices

View Device Activity History

The History column of the Devices page offers access to review the activity (provision, configuration, and assignment) history of each device.

While working in Devices:

1. Click on the **History** button adjacent to a device to instruct the system to open a new dialog and load the device's activity history for review.
2. Click the **Close** button to exit the dialog and return to the Devices list view.

Check Registration Status

The Check Registration Status link (top right of the main Devices page) polls NEPS and BroadSoft for the latest registration information and updates the devices in the list with that new data, as needed. The date and time of the latest check is displayed to Admins. This database review and update process may take a few moments to complete.

Check Registration Status

Configure a Device

Configure

The **Configure** button next to a device in the list opens a dialog that allows an authorized Admin to define the configuration or make modifications to the current configuration settings for a selected device. The information icons in the dialog offer helpful setting information.

Note: Device configuration options are dependent on the BroadWorks features and services that are enabled for use by the organization.

While working in Devices:

1. Select a device within one of the Devices Tab lists.
2. Click on the **Configure** button adjacent to it to open the Configure Device dialog.
3. Select or specify the device configuration options, as needed, or required. The information displayed in darker gray fields is read-only.
4. Select or define the Telephone Number, Label (extension), and service/feature behavior options for each Line. (Numbers and names are displayed/searchable)
Information about each service setting is provided by clicking on the adjacent **i** icon.
5. Click **Save** when all necessary configuration information for the device has been defined. The system updates and the dialog closes.

Swap Device

While working in Configure Device:

1. Click to toggle the Swap Device setting switch to **ON**.
2. Select the New MAC ID from the drop-down list.
3. Select the New Device Type from the drop-down list of available options. OR – Click the setting toggle switch to **disable**.
4. Click **Save** to update the information and close the dialog or click **Close** to exit.

Modify Current Device VLAN Set to TCP

While working in Configure Device:

1. Click to toggle  the switch to **Enabled**.
2. OR - Click the setting toggle to disabled 
3. Click to set to None (default), or
4. Click to enable and Enter a **VLAN ID** in the field (must be between 2 and 1001 OR between 1006 and 4094).
Where in use, the current Group VLAN ID default is provided as a reference. In this example the current Group VLAN ID is 45.
5. Click **Save** to update the information, OR – Click **Close** to exit the dialog without making changes.

Set Device FQDN Assignment

While working in Configure Device:

1. Click within the **FQDN** field to select from the available *Fully Qualified Domain Name* options in the drop-down list.
2. Click **Save** to update the information, OR – Click **Close** to exit the dialog without making changes.

Set Device Line Assignments

While working in Configure Device:

1. Define the following information for each line on the device (line 1, line 2, etc.), as needed:
 - ❖ **Telephone Number** – Select a ten-digit telephone number for the line from the drop-down list of available options.
 - ❖ ☒ **Label** – Enter the extension or select from the drop-down list of available options.
 - ❖ ☒ **BLF** – Click to place a check in the corresponding check box to enable *Busy Lamp Field* (presence information) for any secondary line(s).
 - ❖ ☒ **SCA** – Click to place a check in the corresponding check box to enable *Shared Call Appearance* for the line. SCA is not available to be selected for a line if the service (telephone number) is not already provisioned on another device.
 - ❖ ☒ **MWI** – Click to place a check in the corresponding check box to enable *Message Waiting Indicator* on the line. Recommended.
 - ❖ ☒ **LK** – Click to place a check in the corresponding check box to enable *Line Key Span* on the line.
 - ❖ ☒ **CC** – Click to place a check in the corresponding check box to enable / require *Contact Center Agent Sign-On* for the line.
 - ❖ **Span** – Enter the number of line keys (digits) to be used for agent login in the space provided.
2. Click **Save** when all necessary configuration information for the device has been defined.

Line	Telephone Number	Label	BLF	SCA	MWI	LK	CC	Span
1	2056661008	1008	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	
2	2056661018	1018	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	

Modify Device Configuration

While working in Devices:

1. Select a device within one of the Device Tab lists.
2. Click the **Configure**  button adjacent to it.
3. Make changes to the current device settings or line features, as needed.
4. Click **Save** when all necessary configuration changes for the device have been defined.

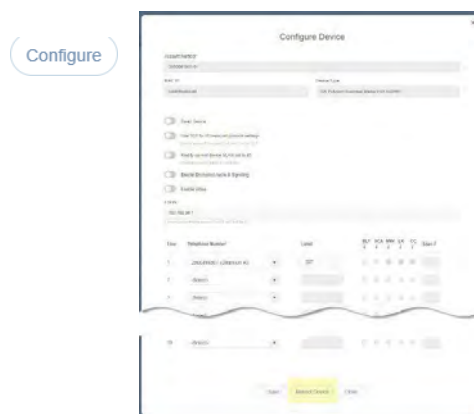

The system updates and the dialog closes and returns focus to the Devices list view.

Reboot a Device

While working in Devices:

1. Select a device in the list.
2. Click on the adjacent **Configure** button for the listing.
3. Make any changes needed to device configuration.
4. Click Save to submit the new configuration data.
5. Click the **Reboot Device** button.

The device is directed to reboot and update configuration data.

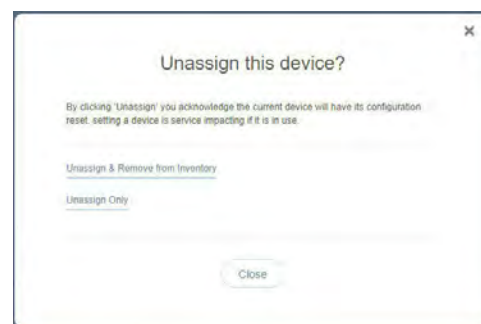

Unassign a Device

While working in Devices:

1. Click on the **Unassign**  button adjacent to the device to be unassigned to begin. Admins have two options when Unassigning devices – to remove the assignment **or** to remove the assignment **and** delete the device from inventory.

Unassign Only

1. Where available, click on the **Unassign Only** link in the Unassign this device? dialog to *remove* current line/service assignments but keep the selected device available in inventory to allow for reassignment/configuration.

Unassign and Remove a Device from Portal Inventory

Use Caution. This action cannot be undone. The device will be removed from active inventory and once the configuration is updated, will not function within the network unless re-Added, configured, and assigned again.

1. Click on the **Unassign & Remove from Inventory** link in the Unassign the device? dialog to remove the assignments **AND** delete the selected device from inventory.
2. Click **Yes** to confirm the action if prompted.

Manage Unassigned Devices

Devices that are not currently assigned are listed in the **All Devices** and the **Unassigned** tabs when reviewing the **Devices** section. Besides the **History** and **Configure** tools, additional management tools are provided for any currently **Unassigned** devices to assist Admins with device management tasks.

The additional tools include:

- Edit** – Select this button to edit the device inventory information before configuring and assigning it.
- Remove** – Select this button to remove the unassigned device from inventory immediately.

Edit Unassigned Device Inventory Data

Once a device has been added, or has been unassigned, an authorized Admin may edit the associated inventory data (MACAddress, Type, and Location assignments).

While working in Devices:

- Select an Unassigned device in the list.
- Click the **Edit** button adjacent to it to begin editing the inventory information.
- Select or specify the following:
 - ❖ **MAC Address** – Enter or Edit the MAC Address. Correct formatting information is provided if data is entered in error.
 - ❖ **Device Type** – Select the correct device type from the drop-down list of options.
 - ❖ **Location** – Select the correct Group/Location via the drop-down list of options.
 - ❖ **Device Notes** – Enter short notes about the device.
- Click **Save** to update the system with the new device information, close the dialog, and return to the Devices list.

Edit

Remove an Unassigned Device from Portal Inventory

Use Caution. This action cannot be undone. The device will be removed from active inventory and once the configuration is updated, will not function within the network unless re-Added, configured, and assigned again.

While working in Devices:

- Select an Unassigned device in the list.
- Click on the adjacent **Remove** button for the listing.
- Click the **Remove from Inventory** link to delete the unassigned device from inventory and return to **Devices**.

Remove

For assigned devices, Ref: [Unassign and Remove a Device from Portal Inventory](#)

*SUPPORT TICKETS

The Support Tickets section and related tools require authorization to view or use.

Support Ticket submitters need to be Authorized Contacts for Customer Support communications for the organization.

Full access permission to Support Tickets is required to submit tickets and access the related Dashboard tools.

*Tickets entered via the Portal should be requests for information or assistance with **non-emergency issues**. Requesting assistance with multi-step change processes, billable changes, or urgent issues should always be requested by an Authorized contact for your organization via a **call** to Customer Care or the Account Manager to ensure that the specialized expert assistance needed for more complex issues is provided quickly.*

Ticket	Status	Subject	Contact	Priority	Opened	Closed	Escalated	Category	Contact Method
01888671	New	TEST - DO NOT CLOSE		Minor	08/05/2023 10:55 AM CST		no		
01854293	New	QA Test - Do not close		Minor	05/11/2023 10:18 AM CST		no	Other	Email
01803712	New	test	QA Tester	Minor	05/10/2023 10:42 AM CST		no	Mobility	Email

The Support Tickets section Search tool for finding any information within the Ticket list.

Create New Ticket

Opens the **New Ticket** view to allow the Admin to define and submit a new minor request for assistance to Customer Service.

Export Tickets

Creates and downloads a copy of the Support Ticket list currently in view to a .CSV spreadsheet format. That downloaded file may be saved in a local folder.

Enabled/Disabled - Click the Star icon in the first column to set the adjacent Ticket as **Starred** (watched) in the Support Tickets page and to add the selection to the **Starred Tickets** card on the Dashboard for easy access and review upon login. Click the Orange Star icon again to remove the star and stop 'watching' that ticket in the Portal.

Where provided for an open ticket, the **Edit** icon opens the selected Ticket for detailed review and/or new comments or updates. This tool is available until the ticket is closed.

Each submitted ticket is listed in a simple table view that is sortable (alphanumeric column sorting), filterable (drop-down selections), and searchable (Search field). The columns include: Starred (watched), Ticket Number, Status, Subject, Contact, Priority, Opened, Closed, Escalated, Category and Contact Method. For Authorized Admins, this page can also provide tools to create new tickets, set tickets as Starred (watched/favorites), Edit (comment, update, or request closure for) any open tickets within the list, and to Export the list of tickets within the view to a .csv spreadsheet file that can be saved locally.

Ticket Submission Types

My Cloud Services Portal provides those granted Read-only access with a place to view eligible support ticket information, or if granted Full access, the tools to submit tickets to customer service for **non-emergency** issues and requests for information while working within the Portal. This submission method does **not** replace the need to call Customer Support to report outages, or anything you might consider a major or critical issue that requires immediate assistance.

Tickets requesting multi-step change processes, billing changes, or urgent issue reports should **always** be submitted by placing a call to Customer Service or the Account Manager to ensure that the specialized expert assistance needed for those requests is always provided in a timely manner for speedy resolution.

Search for Tickets

Section Search – The **Search** field within the *Support Tickets* section (top right) offers a full-featured text search of all information found within the Support Tickets section table.

Filter or Sort the Ticket List

- The **Column Headers** offer sorting and filtering tools to make it easy to find specific ticket types or information.
- Click on the **Column Header Name** to sort the list ↑alphanumerically↓ by the column contents.
- Beneath some of the column headers are drop-down selection tools to **filter** by the specific types of information displayed within the table. The default selection for the drop-down menus is **All**.
- Click on the **Clear Filters** link in the table header section (far right) to remove any applied filters and return to the default list view.

Watch Tickets

The first column in the Support Tickets section view offers Admins the ability to set a ticket as **Starred** (watched). When Enabled, the watched tickets display first in the list while open/closed within the past 7 days **and** within the **Starred Tickets** dashboard section for at-a-glance access on login (if authorized to view that widget).

Simply click on the ★ star icon adjacent to a selected ticket listing in the Support Tickets page to turn it orange ★. The list will display watched tickets first and add the selected ticket to the Dashboard **Starred Tickets watch** list as well.

Download the Ticket List

1. Click on the **Export Tickets** link (top right) to create and download a .CSV format (comma-delimited) spreadsheet containing the ticket information as currently filtered or displayed within the table view.
2. Click on the file download when it is completed to open the file in your spreadsheet application.
3. Save the file to a location within your local system and in the appropriate format for creating reports.

Create a New Ticket

Authorized Admins may be granted access to create and submit minor issue/question support tickets. This tool is available from the Dashboard in the **Support Tickets** card and in the Support Tickets section.

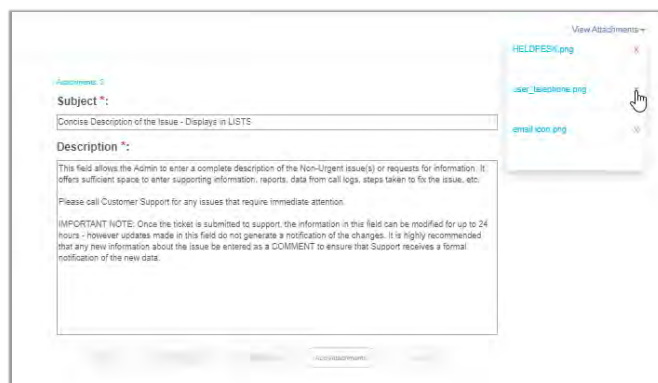

- Click on the **Create Ticket** link in the Support Tickets card on the Dashboard or at the top of the page.
- Select or enter the following information for the new support ticket. * = a Required Field
 - Type***: Drop-down that displays only to hybrid Voice and Data customers. A selection is **required** if allowed. If displayed, choose the appropriate type (Voice, Data, or Both) from the drop-down selection options. *The display updates dynamically to offer useful fields for the ticket and can include:*
 - Category**: Data Tickets Only - Optional: Selection drop-down of data-related issue/request categories.
 - Location**: Optional: If displayed, you may select a Location or Group from the drop-down list.
 - Contact**: Optional. Select an authorized contact's name from the drop-down. If you are not listed here, it is likely you are **not** an authorized customer support contact for your organization. You may elect to use the Write-In Contact and enter your information, however the action is logged and upon receipt, Customer Care will follow the process to verify your request/report to determine whether you are eligible to make such reports/requests on behalf of your organization and request authorization to proceed.
 - Contact Method**: Optional. Select the best method of initial Support response from the drop-down menu options (Email or Phone). The contact method you select will be appended to the description information to ensure speedy response times. *Please note, once a ticket is entered via the portal, updates to it will also be displayed within the Portal Support Tickets section and it will remain for read-only review in the list for up to seven (7) days after it is closed. If nothing is selected here, your organization's Authorized Contacts' corresponding information for the selected method (as it is currently on file with Customer Support) will be used. If you are not an authorized support contact, Support will verify your request/inquiry/report with an authorized contact for your organization before proceeding.*
 - Subject***: Required. Type a short, concise, descriptive subject line for the ticket – this information will be the first indication of the issue or request that Support will see and will be displayed for review within the Ticket lists. *Example: Main Office - 2 Yealink T46 phones are intermittently dropping calls.*
 - Description***: Required. Enter a complete description of the issue or request. Include all relevant information about the issue or request such as times the event happened and steps taken to fix, along with any other information that could help Customer Support quickly resolve the issue for you or respond to you with the information you require as quickly as possible. Ticket Description contents may be edited in this portal for up to 24 hours, however such changes to the description field are **not** noted or included as updates to customer care representatives. Recommendation: Add **Comments** to update tickets with new information after submitting rather than the Description field. Using Comments ensures that all ticket contacts are notified of changes and are updated appropriately.
- Click on the **Submit** button when all information has been included to send the ticket to Support and make a note of the new ticket # that displays upon successful submission and make note of the Ticket #.
 - You may also click the **Cancel** button to quit and return to the last view without submitting a ticket.

OR - Complete the steps outlined below as needed to also attach .txt, .pdf, or image files (.gif, .tif, .png...) file(s) to the ticket and/or append more information about a device, etc. prior to clicking **Submit**.

Add Attachments to a Ticket

Admins may attach individual PDF or Image files to a ticket to include screenshots or reports that may assist Customer Service with issue resolution.

- Click on the **Add Attachments** button to open a local file selection form.
- Browse to, select, and click **Open** to add an Image (.jpeg, .gif, .tiff, .png) or PDF file from your system that will be submitted along with the ticket.
- Repeat the steps above to include more file attachments, as needed. *The system will notify users if the selected attachment file size limits are exceeded or the attachment file types are incompatible.*
- Select the **View Attachments** link (top right) to review or remove **X** attachment(s) before submission.
- Click **Submit** when all ticket information is included to send the ticket with attachment(s) to Support. Or click **Cancel** to clear all selected/entered information and quit the ticket creation process.
- Make a note of the new ticket # for future reference or if you wish to contact Support via phone for faster resolution.

Manage Ticket Attachments

While working in the Support Tickets page:

- Click on the Ticket Number in the table, Or click on the **Edit** icon adjacent to a Ticket to open the **Edit View**. *The number of attachments is listed above the Description field as a reference.*
- Click on the **View Attachments** link (top right in the Ticket Edit view) to: *A pop-up dialog displays a list of the files that were attached from within the portal.*
- Click on the desired file name within the pop-up dialog to download and then open a copy of the attachment. Or - Click on the red **X** adjacent to the item to remove the attachment.

View Ticket Updates

Basic information about each ticket is displayed within the Support Tickets table in the Support page.

The Support Tickets page list also offers access to a read-only view of ticket information by clicking on the Ticket Number's link.

See also: [Starred Tickets Dashboard Card](#) and [Support Tickets Dashboard Card](#)

Add Affected Devices, Services, or Circuits to a Ticket

Admins may use these selection tools to identify one or more Services, Devices, or Circuits (if a Data customer) to add to the ticket comments during submission or while editing if that information will assist Customer Service with issue resolution.

Simply click on the button and use the selection tools to locate and choose one or more items and then click on the **Add** button provided to include this information on the ticket.

Edit a Ticket

The initial information defined for the ticket should not be modified, however new information, attachments, or Affected Devices and Services & User selections may be added at any time while the ticket is *Open*.

While working in the *Support Tickets* page:

1. Click on the [Edit](#)  icon adjacent to the desired Ticket within the list.
2. Complete the following as needed to add information to the Ticket:
 - [Add a Comment](#)
 - [Add Affected Devices \(Circuits/Data\)](#)
 - [Add Services & Users](#)
 - [Add Attachments](#)
3. Click the [Submit](#) button when finished to send the Ticket update(s) to Support or click on the [Cancel](#) button to remove the latest changes and revise your edits or exit.

Add a Comment to a Ticket

To notify Customer Support of changes or additions to the original request or issue description, submit a **Comment**. **Note:** Changes made to the description information (if still allowed) are not identified as 'updates' and will *not* be included by Salesforce in notifications to ticket owners/team members or the ticket submitter. Use a comment to provide new information or to respond to requests for information from Support.

While working in the *Support Tickets* page:

1. Click on the [Edit](#)  icon (Far right column) adjacent to the ticket you wish to update with a new comment.
The Ticket's Edit View displays.
2. Click on the [Add Comment](#) button to open a *New Comment* field.
3. Type up to 3000 characters and spaces in the New Comment field.
4. Click on the [Submit](#) button to send your latest comment to Support or click on the [Cancel](#) button to remove the latest changes and revise your edits or exit.

Request Closure of a Ticket

Once submitted, only Customer Care can close the ticket, however if the viewer of an open ticket has Full access, they can request that Customer Care close a ticket at any time once it has been opened.

While working in the *Support Tickets* page:

1. Click on the [Edit](#)  icon adjacent to the desired Ticket within the list.
2. Click on the [Request Close](#) button within the Edit Ticket dialog. *The request to close this ticket will be sent to Customer Care and upon receipt they will finalize their work, add notes about the ticket as necessary, and then close the ticket. After closure, the ticket will remain visible and available for review in the Support Tickets page list within the portal for up to 7 days.*

Starred Tickets Dashboard Card

If the Admin has sufficient access permissions to Support Tickets, this dashboard widget displays. Tools in this section of the dashboard can include the following (based on access permissions):

- ❖ A simple search tool for the list contents.
- ❖ Column Header alphanumeric sorting
- ❖ Click the ticket # link to see ticket information (read-only)
- ❖ Click an adjacent Orange star to stop watching the item and remove it from the list upon refresh
- ❖ [View All Tickets](#) link - Go to the Support Tickets section.
- ❖ [Enter New Ticket](#) link - opens the New ticket dialog for submission of a new Support Ticket (Full access only)

Advanced Permission Settings

LIMITED ACCESS - SuperAdmin Only

CAUTION. Additional Administrator permissions are required for access to review and manage the information and tools within the provider-level restricted access sections. By default, most of those restricted area features are ***not*** enabled for use by *any organization* and the permissions to enable those restricted sections must be managed by the Service Provider.

If any of those areas are enabled for use by the Service Provider, the organization's SuperAdmin must discuss the organization's responsibilities and liabilities for usage with their Service Provider contact (and potentially receive additional training) prior to attempting management of this additional access for their organization's My Cloud Services Portal Admins.

SuperAdmin - While working in Locations & Groups > Manage Users:

1. Locate the Portal account in the list. Note: Do not attempt to change user accounts into Admin accounts. Always create/Add a separate Admin account for the user.
2. Click on the [Edit](#) option next to the selected account.
3. Click on the [Advanced Admin Permissions](#) link to review and edit the *Advanced Admin Permission* settings.
4. Choose the areas and relevant level of access to the following provider-level access tools and sections that may be visible, depending on the account type and the Service Provider's authorization:

The screenshot shows the 'Edit User' dialog box with the following fields: User Name (billingadmin2), Password (masked), Re-enter Password (masked), and Password Recovery Email (empty). The 'Advanced Admin Permissions' link is highlighted with a green box.

Service Changes - (AKA MACD) If enabled: Click within the listed check boxes to ☒ enable or ☐ disable the appropriate **Service Changes** section and feature access level for this account. Use Caution.

Best Practice: When in doubt, do not enable the **Add** access options for any Admins who should not have the ability to increase billing costs.

Devices – If enabled: Click within the listed check boxes to ☒ enable or ☐ disable appropriate administrative device management access in the restricted *Devices* section. Use Caution.

Billing – (RESTRICTED ACCESS) *Note: This option only displays in systems that have Location level Billing enabled for use by the provider and the selected Admin has permissions as a Location/ Group level Admin.* Click within the adjacent check box to ☒ enable or ☐ disable this Admin as a location level billing admin with the ability to review and manage bill payments for specifically assigned locations.

Support Tickets – Default Initial Setting = NONE for all accounts except the SuperAdmin. Other options are Read Only and FULL Access. Use Caution as access to these tools can be a security risk.

Best Practice: **NONE** is the default because the vast majority of portal account holders should not have access to review or submit tickets to the provider as a security precaution for all Organizations.

Read-Only authorization allows portal accounts with this permission level to view some tickets submitted by those authorized to contact the Provider's Customer Service department on behalf of the Organization. **Full** access allows the account holder to view and submit tickets to Customer Care.

Please note, very few portal account holders should ever be granted **FULL** access.

Best Practice: Do not provide Full Access to any portal account holder that does not have the full authorization of your Organization to review all eligible support tickets for the organization, or who are not authorized to communicate with or make requests of the Service Provider on behalf of the Organization that could impact billing or service.

5. Click the [Save](#) button to submit the changes, close the dialog, and return to the *Edit User* view. Upon their next login, the restricted access section(s) will display to that Admin per the level of access that was granted.

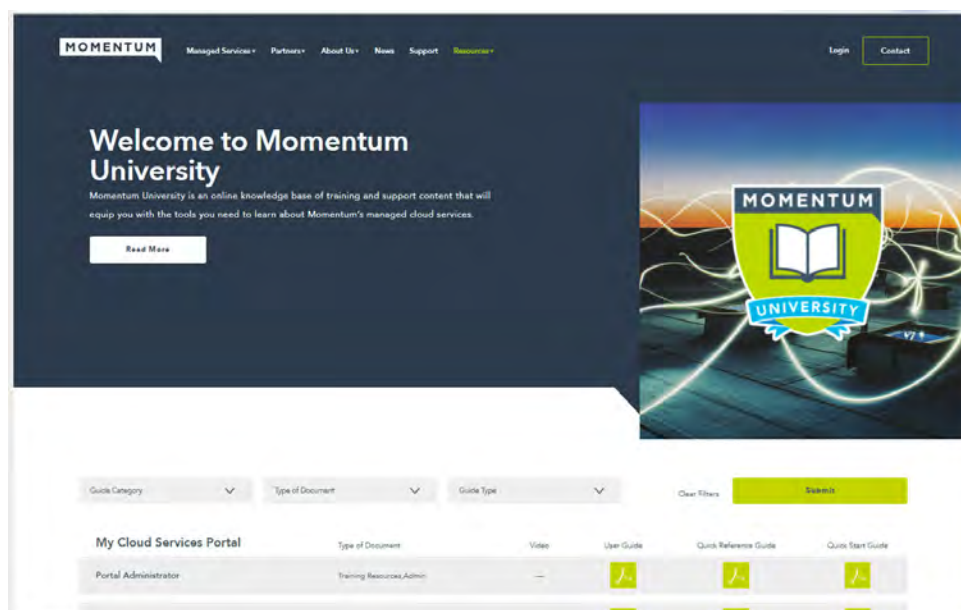

SUPPORT

The **Support** option in the left navigation *Menu* panel (and in the quick access drop-down menu at the top of the screen) offers quick access to the Support page information at GoMomentum.com.

TRAINING

The **Training** option in the Menu panel (and in the quick access drop-down list at the top of the screen) opens the Momentum University library in a new browser page. This web page offers links to useful Momentum University documentation, information, and videos about Momentum products and services that are available to customers 24/7. The **My Cloud Services Portal** section offers comprehensive documentation to help you work in the portal, or to download copies of the documentation for future use. Please note, all documentation and resources provided in Momentum University are updated frequently to keep the information up to date - so check back often.

CONTACT US

A team of expert support professionals are here to assist with technical issues, questions related to billing, feature usage, service upgrades, and any other general inquiries you may have.

Simply contact us and a representative will help you with your request.

SUPPORT BY PHONE

General Line

888.538.3960

Live phone support is available 24/7 for speedy assistance and issue resolution.
Calling Customer Care is the fastest way to get help when you need it.

Have your Momentum Telecom account number handy to help us better assist you when you need us.

Important: In order to provide *optimal* support, we recommend that the Account Owner or an Authorized Contact contact us via our toll-free support number (above) regarding any critical issues that may require quick troubleshooting for resolution. Support Tickets submitted via the subscriber portal or email are considered minor issues or requests for information by default and will be worked as quickly as possible by the team in order of receipt. A call to customer care always ensures speedy assistance.

ONLINE SUPPORT

GoMomentum.com/support

Online options are provided to access Customer Support quickly and easily, including contact information and helpful tools to submit a support request ticket. For fast resolution, include the issue, details of your efforts to resolve (if any), methods to reproduce the issue, along with your account number and contact information.

USER RESOURCES

GoMomentum.com/MU

Momentum University is an online library of training and support resources that will equip you with all you need to learn about Momentum's best-in-class cloud services and their features. This library includes frequently updated product user guides, FAQs, quick reference tools, tips, videos, and more - and it is always available for you to reference on the Momentum Telecom website 24/7/365.

Check Momentum University often for the latest product information and helpful resources.
