My Cloud Services Portal Voice Admin

SIGN IN

To access the Admin Tools area within the My Cloud Services Portal:

Go to https://portal.momentumtelecom.com and enter your Administrator Username and Password credentials to Sign In. Note: During sign in you may be required to setup or use an MFA protocol and to acknowledge Terms and Conditions to proceed.

ADMIN TOOLS MENU

The Admin Tools Menu on the left side of the page offers permission-based access to at least some of the following sections. **Note**: Only those sections and tools the organization needs and the Admin is authorized to view will display.

- » Dashboard The site Home page displays account activity, and offers filtered quick access links to Admin Tools sections.
- » Locations & Groups Access to manage Department or Service level settings organized by Locations or Groups.
- » Services & Users Access to review and manage individual User level services and settings.
- » Trunking | IP Trunking | Enterprise Trunking General SIP or customized trunk information and setting administration.
- » Enterprise Settings Enterprise level feature and services management.
- » Contact Center Manage queues, schedules, assignments and the setup for Contact Center(s).
- *Billing Restricted Access. Authorized Admin access to account billing history and payment management tools.
- » *Microsoft Teams Restricted/Limited Access. O365 / MS Teams Admin access to manage hosted voice access for users.
- » *Call Recording Limited Access. Manage voice settings and portal access for Call Recording.
- » *Webex Webex Customers Only. Search/Review activation process status data for Webex licenses on the account.
- » *Support Tickets Restricted Access. View and (where fully authorized) submit minor tickets to Momentum's Retail Support.
- » *Devices Provider-Level Only. Manage devices currently in NEPS inventory and their user assignments.
- » *Service Changes Provider-Level Only. Advanced billing impacting single-process service and order management tools.
- » *Circuits Data Only Review list of active circuits/NIDs on the account. Some Admins may have access to ticketing tools.
- » *Manage MFA Review user MFA activation status and Reset MFA to assist users with MFA-related access issues.

ADMIN DASHBOARD

The Home page for Administrators.

The Admin Dashboard provides at-a-glance views of *Live* and historical account activity <u>AND</u> direct quick-access links from each card section to filtered views of your administrator-level tools, services, and features. Now you can track what's going on within your Enterprise account and access any area or service you need to manage from one web page - *fast*.

My Cloud Services Portal Voice Admin

Quick Reference Guide

LOCATIONS & GROUPS

Review and manage settings for the Users and Groups that are assigned to Locations.

The Locations page provides a searchable table listing of the Locations currently configured on the account. Authorized Admins may use the Section Search to locate specific terms within the table, use the column headers to sort the list alphanumerically, and access the following areas for each Location listed on the page:

- Location ID, Services, and Users Click on the number displayed for a Location in these columns to open the related list within the **Services & Users** page.
- Links to review and manage the Emergency Call Notification Email and See 911 Address List for each location.
- Edit icon (far right column) opens the Group Settings dialog for the selected Location.

SERVICES & USERS

Review and manage feature settings for individual users and services on the account.

Services & Users displays a searchable and sortable list of the user accounts currently defined on the account. The information is provided in a simple table format, and includes the Service Type, Name (First,Last), Service ID, Ext (Extension), MAC (Address), Location, Department and Number Assignment for each user, where defined. Links in the columns take users directly to the related area of the site where editing or review of filtered data may be performed. Admins may also select specific listings to display as Favorites 🖈 on the Dashboard for quick access to accounts that they manage frequently.

TRUNKING

Access for IT Admins to review and manage basic SIP Trunking settings.

The Trunking page allows authorized Admins to review current SIP Trunk settings for the account. The page prominently displays a sortable and searchable table listing the trunk group(s) with Location Name and ID, Trunk Group ID, Pilot DID, Enterprise Call Path, Location Call Path, and Service Number.

- Location ID Links directly to the Services & Users page to review or modify individual assignments.
- Pilot DID Provides a color code health indicator (Red = Issue) and links directly to the Services dashboard.
- Edit The Edit icon 🕢 opens the Group Settings page for administration of the SIP Trunk defaults.

ools	Location	Location ID	Trunk Group ID	Pilot DID	Enterprise CP	Location CP	Services Numbers	Edit

My Cloud Services Portal Voice Admin

IP TRUNKING

Advanced Access for IT Admins. Review and manage specialized IP Trunking information and settings.

For those organizations using **IP Trunking**, this page displays current and historical IP Trunking information, with easy access to the tools that allow authorized Administrators to manage IP Trunking location settings and create call log reports. IP Trunking tools include:

View/Edit Trunking Location Settings • View Call Logs • Create Call Log Reports

ENTERPRISE TRUNKING

Advanced Access for IT Admins. Review and manage Enterprise SIP Trunking settings for the account.

The **Enterprise Trunking** page provides access to the tools that allow specially trained and authorized Admins to manage and maintain specialized Enterprise trunk group settings.

View/Edit Trunk Group Settings • Manage DID Associations • Manage Routing/Priority/Weight

MICROSOFT TEAMS

Restricted Access for O365/MS Teams Administrators Only.

This section only displays for those organizations with integrated **MS Teams**, and offers specially authorized and trained Teams Administrators access to a simplified deployment wizard. Post-deployment, the wizard tabs offer readonly views. The User List and Resource Accounts tabs offer basic tools for MS Teams TN/Direct Routing setting management from this portal. *MS Teams setting and user administration tasks should be managed by an O365/MS Teams Admin with sufficient permissions via the organization's O365 / Teams Admin portal.* The available Microsoft Teams section tools (Post-Deployment) include:

MS Teams Connector Deployment Info • User TN / Derived Routing Assignment Access

CALL RECORDING

Access to review and manage Call Recording license holder settings and site access.

This section only displays in Admin Tools for those organizations with Call Recording licenses in place, and offers access to manage voice and 3rd party portal access settings for license holders.

*DEVICES

Restricted. Advanced additional training required prior to Admin access to review and manage devices in NEPS inventory, along with their settings and assignments.

The Devices section offers access to a searchable view of All, Assigned, and Unassigned Devices for management, with the ability to Export a detailed device listing report, and add new devices to inventory, and manage FQDN and VLAN assignments for Locations on the account. The device management tools provided here make it easy to Add new devices to inventory, Configure, Swap and Assign listed devices, Remove device assignments, Delete devices from inventory, and review the historical activity of actions performed on each device within the Portal.

*SERVICE CHANGES

Restricted. Advanced additional training required prior to Admin access. Manage simple orders and minor changes to services for the account.

The **Service Changes** page displays current account service orders, with easy access to the tools that allow specially trained Admins to Move, Add, Change and Delete account services and review order status information.

*MANAGE MFA

Access permissions based on admin role

The Manage MFA section offers access to a searchable and sortable list view of the user and admin portal access accounts along with a Reset MFA tool that lets the Admin disconnect a user's current MFA protocol thus allowing the user to access the portal without using MFA (if MFA is Optional) OR setup their MFA protocol again during the next sign in attempt (if MFA is Mandatory).

*Circuits

Data/Managed Network Customers ONLY.

The **Circuits** page displays a list of circuits that are currently in inventory and active with the Service Provider. If Monitored service was purchased, status indicators display red (down) or green (up).
