

# Webex Audio Only Conferencing 101

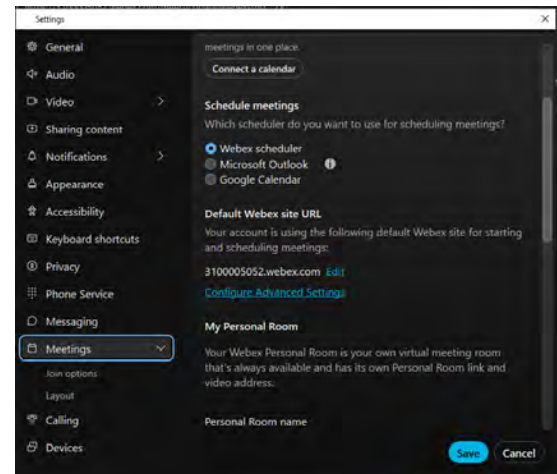

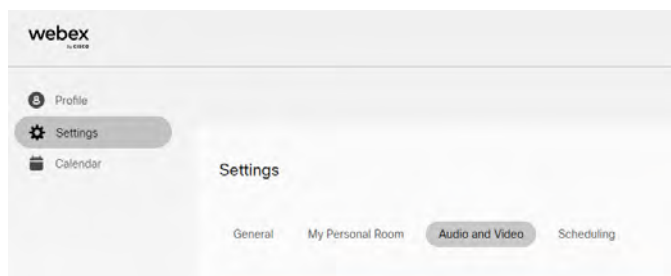

**Webex Standard or Premium can allow Meetings users to create up to three (3) basic Webex Personal Conference accounts that can be used for audio only conference calls.**

## Webex Personal Conference Setup

In your Webex desktop application:

1. Navigate to **Settings > Meetings**
2. Click the **Configure Advanced Settings** link.

*This action opens the online Webex site for your account in a new browser window.*

While viewing the Webex Online site:

3. Click **Settings** on the left.
4. Click on the **Audio and Video** tab
5. **Audio PIN** - scroll down to this field and enter a 4-digit PIN per basic requirements. This entry can be the same 4-digits defined as the HOST PIN if you like. *This will act as the 'HOST' PIN for your personal conferencing audio only conference calls.*
6. **Personal Conferencing** - Click the **Generate an account** link.

Host PIN:

Your host PIN must be exactly 4 digits. It can't contain sequential digits, such as 1234, or repeat a digit 4 times, such as 1111.

Audio PIN:

Your PIN must be exactly 4 digits. It can't contain sequential digits, such as 1234, or repeat a digit 4 times, such as 1111.

Personal conferencing

Personal conference number	
United States Toll (Jacksonville)	+1-904-900-2303
United States Toll (Dallas)	+1-469-210-7159
United States Toll	+1-650-479-3208

You can set up three Personal Conferencing accounts in your settings.

Account	Default
Account 1 <input type="text"/>	Default
Host access code	139 <input type="text"/> 243
Attendee access code	139 <input type="text"/> 011

[Generate an account](#)

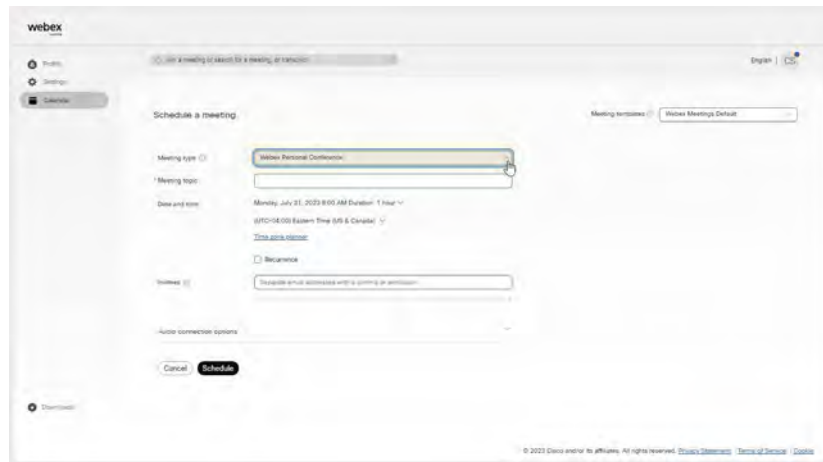

*Webex will auto-generate a set of Dial In numbers and conference access codes that will be used solely when you create a meeting using this new Personal Conferencing account.*

*Recommendation: Make note of your Host and Audio PINs, audio conference phone numbers, Host Access Code, and the Attendee Access Code for future use.*

## Schedule a Webex Personal Audio Only Conference

While you continue working in the Webex Online portal (or return to it using the steps noted above):

1. Click on **Calendar** in the left navigation menu to view calendar/scheduling options.
2. Click on **Schedule** (far right) to begin creating a meeting.
3. **Meeting type:** Choose your **Webex Personal Conference** from the drop-down options.
4. Continue to set dates/times, choose all the attendees, and define other meeting related options, as desired.
5. Click the **Schedule** or **Start** button when you are ready to send the meeting invitation(s).

The generated email invitation provides the dial-in phone number and Conference ID information to join the audio conference call.

## Join a Webex Audio Only Conference

1. Dial the conference phone number provided in the meeting invitation.

### Host

Follow the instruction prompts to enter the HOST Conference ID and the HOST PIN (use the Audio PIN you created for an audio only conference call). *You will be added to the conference as the Host.*

### Attendee

Follow the instruction prompts to enter the Attendee Conference ID number in your meeting invitation. *You will be added to the conference call as an Attendee.*

## Webex Audio Only Conference Call Dialpad Commands

Host commands

To...	Enter...
Lock the teleconference, preventing anyone else from joining it	*5
Unlock the teleconference	*5
Mute your microphone	*6
Unmute your microphone	*6
Meeting reminder email to Host	*7
Let participants continue the teleconference without the host	*8 Then hang up your phone.
Mute all attendees with full-speaking access	##
Unmute all attendees with full-speaking access	99
Play the participant count	*#
Hear all keypad commands that you can use	**

Attendee commands

To...	Enter...
Mute your microphone	*6
Unmute your microphone	*6
Play the participant count	*#
Hear all keypad commands that you can use	**

*Please Note: Starting or dialing into a conference call by phone only does limit the tools available to you for managing the conference call. If a recording of the conference call audio is needed, the Host should initiate the conference/meeting using the Webex application to take advantage of the full set of recording and meeting management tools available to Webex application users.*
