

Modernize your PBX with on-demand scaling and best-in-class quality

Breathe new life into legacy PBX

Looking to make the most of your existing business phone system? Momentum can help with that.

With your legacy or IP PBX as a foundation, we'll create a scalable, easy-to-manage communications network that grows as you do. Backed by a carrier-grade, geo-redundant network with over 200 points of presence, our SIP trunking service is more reliable than most primary rate interfaces. Better yet, we manage your network connections and coordinate installs and support to enable unprecedented coverage and availability.

Whether you need a fully redundant, feature-rich enterprise solution or an IP phone system designed for high call volumes, Momentum has you covered.

Common use cases

- ✓ Retail
- ✓ Financial services
- ✓ Contact centers
- ✓ Enterprises
- ✓ Healthcare
- ✓ Modernizing legacy systems

*Subject to accepting Momentum's Acceptable Use Policy (AUP)

Communications consistent with your company's needs

A business-class service designed to deliver affordable voice over IP (VoIP) service with advanced telephony features to an existing PBX system. Even if you don't have an existing IP system, we'll provide you with an adapter that's compatible with T1, PRI, and legacy PBX interfaces. For larger businesses and contact centers, we offer many different rating options and advanced features, as well.

Take your voice services to the next level with enhanced flexibility

Quickly add more features, truck users, and modify account settings with multiple dialing options and comprehensive subscriber management tools. Augment your phone system with a comprehensive portfolio of next-gen services, including SD-WAN, cloud voice, Teams Phone, and more.

Deploy a digital service that supports all your network and communication needs

Momentum offers a wide variety of package and feature options, including advanced contact center functionality and feature-rich calling through Momentum Cloud Voice. Our solution is also compatible with most certified PBX vendors, including Avaya, Cisco, Mitel, ShoreTel, and Panasonic.

Leverage our scalable, reliable and cost-effective network

Enjoy significant savings over PSTN alternatives with free unlimited on-net dialing, affordable international calling, and dedicated long-distance and toll-free rates — all backed by a network with best-in-class uptime and fault-tolerant disaster recovery.

Integrate and customize a purpose-built communication solution

Quickly deploy a phone system with a wide range of complimentary services, local and toll-free number portability, and the capacity to quickly transition to full-cloud IP PBX. We also provide multi-site deployments to support both regional and global growth, and custom routing for call and network flows.
