

TEAMS DIRECT ROUTING

Transform Microsoft Teams into a complete enterprise voice solution

Seamless, compliant, high-quality calling

Creating a feature-rich, unified calling experience in Microsoft Teams has never been easier.

Momentum will help you seamlessly integrate dial tone and voice capabilities into Teams with our direct routing service. Enjoy hassle-free deployment and management as Momentum takes care of the heavy lifting, leaving you free to focus on more strategic initiatives. For businesses supporting government contractors, our direct routing solution is also compliant with Microsoft 365 GCC High.

Experience the next generation of voice communication in Microsoft Teams — we'll show you how.

HIGHLIGHTS

GCC High compliant

15+ years of partnership with Microsoft

200+ global points of presence and 750+ carriers and suppliers

24/7 high-touch support

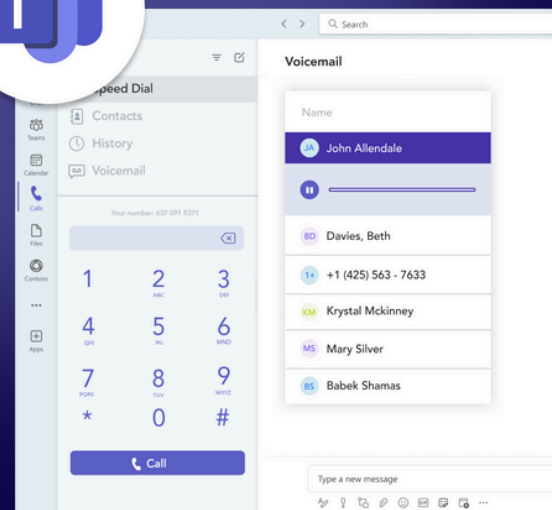

Provision, manage, and monitor within a single pane of glass

All the benefits of a business phone, none of the complexity

As a trusted Microsoft partner with over 15 years of experience, Momentum knows exactly what's required to integrate voice capabilities into Microsoft Teams. We'll get you set up in minutes, ensuring your team can stay collaborative and connected no matter where they are.

We offer both managed and self-service options with predictable monthly pricing and flexible plans — meaning that no matter your business calling needs, we can help you fulfill them.

Effortless enterprise communication

With Momentum, registering, provisioning, number assignment, and user migration take only minutes, meaning your users can make and receive voice calls from any Microsoft Teams-compatible device in no time.

The ultimate in secure voice

Our direct routing solution is developed to the highest data management and protection standards, with robust encryption and advanced security protocols. For government contractors working with the Department of Defense, we're also GCC High compliant, adhering to DFARS, ITAR, NIST-800 171, and NIST-800 53 regulations.

Access a feature-rich calling experience

Support continuous productivity and seamless collaboration with access to Momentum's comprehensive portfolio of products and services. Leverage advanced features such as call analytics, call recording, and cloud faxing to take your deployment to new heights.
